Note 1: Summary of Significant Accounting Policies

The trustees have prepared the financial statements on the basis that the Superannuation Fund is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the Fund and the needs of members.

The financial statements have been prepared on a cash basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue by the Trustee(s).

a. Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
- (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions were made:

- that the buyer and the seller deal with each other at arm's length in relation to the sale;
- that the sale occurred after proper marketing of the asset; and
- that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period;
- (iv) unlisted investments are stated at trustees' assessment based on estimated market value at balance date or where necessary, an external valuer's opinion; and
- (v) investment properties at the trustees' assessment of the market value or where necessary a qualified independent valuer's opinion at the end of reporting period.

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustees have determined that the gross values of the Fund's financial liabilities is equivalent to their market values. Any remeasurement changes in the gross values of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

b. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

c. Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is recognised at the fair value of the consideration received or receivable.

For the year ended 30 June 2021

Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised upon receipt.

Dividend revenue

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

Rental revenue

Rental revenue arising from operating leases on investment properties is recognised upon receipt.

Distribution revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distribution and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

Contributions

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

d. Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

e. Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

S & J Super Fund Projected Investment Strategy

Overview

The aim of this strategy is to provide the Members with an income on retirement.

Investment Objectives

The Trustee(s) will at all times ensure the funds assets are invested in accordance with the trust deed and comply with the applicable legislative requirements.

The Trustee(s) will act prudently to maximise the rate of return, subject to acceptable risk parameters whilst maintaining an appropriate diversification across a broad range of assets whilst assessing the risks where it is determined the fund's portfolio lacks diversification and / or has elected to implement a sector bias.

Having considered the risk profile of the fund and the member's needs and circumstances, the trustee has adopted the following objectives for the investment of assets of the fund;

- to achieve an investment return (based on market values and net of tax and charges) that exceeds the CPI by at least 3% per annum when measured over a rolling 5 year period.
- to have a probability of zero or negative returns in any 12 Month period of less than one in five years; and
- have sufficient liquidity to meet liabilities as and when they fall due.
- to consider the need to hold a policy of insurance for one or more members of the fund.

Investment Strategy

The fund will invest in a portfolio of assets according to market conditions and within the ranges specified below:

Asset Allocation

The targeted asset allocation will be in the following ranges:

Asset Class	Target Range	Benchmark
Australian Shares	0 - 0 %	0 %
International Shares	0 - 0 %	0 %
Cash	100 - 100 %	100 %
Australian Fixed Interest	0 - 0 %	0 %
International Fixed Interest	0 - 0 %	0 %
Mortgages	0 - 0 %	0 %
Direct Property	0 - 0 %	0 %
Listed Property	0 - 0 %	0 %
Other	0 - 0 %	0 %

Quality companies and trusts as supported by research and fundamental analysis will be selected. Direct investments in property, artwork and lease equipment may form part of the strategy provided there is sufficient basis for the decision.

Insurance

The Trustees have considered and consulted Professional Advice where necessary to ensure that all fund members have the correct type and level of insurance. Insurance may be held within or outside the SMSF.

Review and Monitoring

The trustees will monitor and review the fund's investment activities on a regular basis and to communicate with the members should they feel that any change in strategy is necessary in order to achieve the fund's objective.
