Notes to the Financial Statements
For the year ended 30 June 2019

Note 1: Summary of Significant Accounting Policies

The trustee has prepared the financial statements on the basis that the Superannuation Fund is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the fund and the needs of its member.

The financial statements have been prepared on an accrual basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue on **Insert the date the Trustees Statement was signed on: View > Notes to the Financial Statements*** by the director of the trustee company.

(a) Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
 - (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.
- Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions are made:

- (i) that the buyer and the seller deal with each other at arm's length in relation to the sale;
- (ii) that the sale occurred after proper marketing of the asset; and
- (iii) that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period; and
- (iv) investment properties at the trustee's assessment of their realisable value.

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustee has determined that the gross value of the Fund's financial liabilities is equivalent to the market value. Any remeasurement changes in the gross value of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

(b) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

The accompanying notes form part of these financial statements.

For the year ended 30 June 2019

(c) Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is recognised at the fair value of the consideration received or receivable.

Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised as it accrues.

Dividend revenue

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

Rental revenue

Rental revenue arising from operating leases on investment properties is recognised upon receipt.

Distribution revenue

Distributions from trusts are recognised as at the date the unit value is quoted ex-distributions and, if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at net market value.

Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

Contributions

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

(d) Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

(c) Income Tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current tax and deferred tax are recognised in profit or loss. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax liability balances during the year as well as unused tax losses.

No deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, and their measurement also reflects the manner in which the trustee expects to recover or settle the carrying amount of the related asset or liability.

The accompanying notes form part of these financial statements.

D'Angelo Superannuation Fund
ABN 46 565 176 970
Notes to the Financial Statements
For the year ended 30 June 2019

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

(f) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or other payables in the statement of financial position.

(g) Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustee to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

D'Angelo Superannuation Fund

Dear Trustees

D'Angelo Superannuation Fund
Audit Engagement Letter

Objectives and Scope of the Audit

You have requested that we audit the financial statements of the SMSF for the year ended 30 June 2019. We are pleased to confirm our acceptance and understanding of this engagement by means of this letter.

Our audit will be performed in accordance with Australian Auditing Standards, the *Superannuation Industry (Supervision) Act 1993* (SISA) and the *Superannuation Industry (Supervision) Regulations* (SISR) with the objective of expressing an opinion on the financial report and the fund's compliance with the specified requirements of the SISA and the SISR.

Our Responsibilities

We will conduct our audit in accordance with Australian Auditing Standards. Those Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free from material misstatement.

An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. An audit also includes evaluating the appropriateness of the financial reporting framework, accounting policies used and the implementation and operation of accounting and internal control systems that are designed to prevent and detect fraud and error, as well as evaluating the overall presentation of the financial report.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, there is an unavoidable risk that some material misstatement may not be detected, even though the audit is properly planned and performed in accordance with Australian Auditing Standards.

In making our risk assessments, we consider internal control relevant to the entity's preparation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. We will, however, communicate to you in writing any significant deficiencies in internal control relevant to the audit of the financial report that we have identified during the audit.

Trustees' Responsibilities

Our audit will be conducted on the basis that the trustee(s) acknowledge and understand that they have responsibilities:

- For the preparation of the financial report that gives a true and fair view in accordance with the Australian Auditing Standards, other mandatory reporting requirements and the SIS Act and SIS Regulations is that of the trustee(s);
- For such internal control as the trustee(s) determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error; and
- To provide us with:
 - Access to all information of which the trustees are aware that is relevant to the preparation of the financial report such as records, documentation and other matters;

- Additional information that we may request from the trustees for the purpose of the audit; and
- Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence.

Accounting Misstatement Detected by Audit

Insurance

The superannuation fund has an established procedure whereby an officer reviews at least annually the adequacy of insurance cover on all assets and insurable risks where relevant. This review has been performed and where it is considered appropriate, assets and insurable risks of the superannuation fund are adequately covered by insurance.

Accounting Estimates

We confirm the significant assumptions used in making accounting estimates are reasonable.

Fair Value Measurements and Disclosures

We confirm that significant assumptions used in fair value measurements and disclosures are reasonable and appropriately reflect our intent and ability to carry out specific courses of action on behalf of the fund.

Going Concern

In the opinion of the trustees there are reasonable grounds to believe that the superannuation fund will be able to:

Investment Strategy of the D'Angelo Superannuation Fund

Date: 30 June 2019

1. DICTIONARY

For the purposes of this Investment Strategy these words mean:

"**Relevant Requirements**" means the SIS Legislation and other legislation as applicable from time to time; and

"**SIS Legislation**" includes:

- i. the Superannuation Industry (Supervision) Act 1993 (Cth) ("**SIS Act**");
- ii. legislation that the Trustee is of the view is of a superannuation nature and is applicable to the fund;
- iii. any regulations ("**SIS Regulations**") made under the above; and
- iv. all other requirements whether legislative or administrative including:
 - A. Any administrative guidelines issued by the Responsible Authority; or
 - B. Statements by government advising changes and any proposed changes to the SIS Legislation.

2. OBJECTIVE

This investment strategy of D'Angelo Superannuation Fund ("**Fund**") (as amended from time to time) is created in compliance with the SIS Act.

3. THE FUND

- i. The Fund complies with current laws and regulations and the rules in the Fund's trust deed ("**Trust Deed**"). It has the following investment objectives:
 - A. *Risk and Rate of Return*
 - I. It is recognised that timing (when you get into the investment) and time in the investment (how long you are in the investment) affects returns. Different investments have different returns and volatility.
 - II. The trustee of the Fund ("**Trustee**") has a strong emphasis on preserving the Fund's capital. However, many sound investments are not capital guaranteed.

- III. Security of capital has to be tempered with the need to achieve the desired rate of return. Therefore, assets that show volatility may be of benefit to the Fund.
- IV. The Trustee is ever vigilant to balance these two objectives: protecting the capital and growing the value of the Fund by obtaining an acceptable rate of return.

B. Reserving accounts

- I. Prudential management requires that a strategy be put in place so that the Trustee has the ability to pay its liabilities and obligations, whether contingent or actual, as and when they fall due. Such liabilities and expenses may either be payments to members or expenses incurred by the Fund.
- II. From time to time the Trustee may, in accordance with the Trust Deed, put in place reserve accounts for any classes, including:
 - 1. investment (it can also hold undistributed investment income and income above the Fund's required return);
 - 2. contributions (such as an unallocated contribution made by an employer on behalf of a group of employees); and
 - 3. miscellaneous (these include pre 12 May 2004 forgone and forfeited benefits, plus expenses and other legal provisions).
- ii. The Trustee may also create a separate and additional investment strategy for each type of Fund reserve. These may be for any lawful purpose including smoothing returns, advisory fees, accounting fees, taxes, surcharge liabilities, life and disability insurance premiums, death and disability payments and any purposes set out in Australian Tax Offices' Superannuation Contributions Ruling 1999/1.
- iii. The Trustee notes that under section 55(6) of the SIS Act it can defend against any loss or damage suffered by a member if it can show that the reserves were managed in accordance with section 52(2)(g) of the SIS Act.

4. REQUIRED RATE OF RETURN

1-3% above the average rate of inflation is what the Trustee seeks as an overall investment return for the Fund in the 3-5 year term (medium term). An investment can be for capital growth only, income only or a combination of both.

5. TRUSTEE'S OBLIGATIONS

- iv. The Trustee ensures that the Fund meets the legislated standard minimums to continue to obtain concessional taxation status on the Fund's income.
- v. It is also incumbent on the Trustee to consider the tax consequences of all investments. Tax-advantaged products may reduce the Fund's taxation burden. Tax is one of the Trustee's relevant concerns.
- vi. The Trustee acknowledges that members' benefits are a liability of the Fund and accordingly the Trustee must consider the level of benefits required to be paid to the members of the Fund when making investment decisions. However, while no terminations or benefits are expected to be paid out in the short to medium term, the Trustee is at liberty to examine investments that are medium term. However, when the member is in pension phase the time horizon may be far shorter.

6. INVESTMENTS, METHODS AND STRUCTURES

- i. Subject to ensuring compliance with SIS Act and the Fund's Trust Deed, the Trustee may invest all or part of the money and other assets of the Fund in any manner in which they could if they were personally entitled as beneficial owners of those assets, under any circumstances and any terms, and in or through any business structure or any arrangement (including companies, joint ventures, partnerships and trusts - including unit, hybrid, family, discretionary) including but not necessarily limited to (depending on the rules of the Trust Deed:
 - A. in insurance;
 - B. in Trustee investments;
 - C. in the purchase, improvement or mortgage of real property;
 - D. on deposit with any bank or building society (and the power to open and close such accounts) or any other company partnership or person with or without security;
 - E. in shares, stocks, options, debentures, bonds, unsecured notes or other securities;
 - F. in units or sub-units of any unit trust including units in a pooled superannuation trust;
 - G. in common funds, artworks, motor vehicles (including trucks) and live stock;
 - H. in bills of exchange or other negotiable instruments;
 - I. in options, hedging contracts, futures contracts, instalment warrants, derivatives and similar securities and other financial instruments;

- J. investing in any asset using an instalment warrant;
 - K. investing in precious metals, such as gold and silver; and
 - L. in other investments, which the Trustee considers on a case-by-case basis, such as investments in agribusiness.
- ii. The Trustee may dispose of, vary, transpose, replace or encumber investments or mix investments with investments of other people or trustees as if they were personally entitled to them as beneficial owners.
 - iii. The Trustee may invest in a manner which is consistent with the Relevant Requirements.
 - iv. The Trustee may borrow money in a manner consistent with the Relevant Requirements.
 - v. The Trustee may only lend money to Members if it is consistent with the Relevant Requirements.

7. **BORROWING**

- i. To seek higher returns, the Trustee may borrow money, for any reason, including limited recourse borrowing as provided for under sections 67A and 67B of the SIS Act ("**Borrowed Moneys**") and applying the Borrowed Moneys for any permitted purpose including the purchasing, refinancing and repairs and maintenance of an Acquirable Asset (including through a trust, bare trust, warrant, limited recourse borrowing arrangement or beneficially).
- ii. Where the purchase has been made otherwise than beneficially, then the power to acquire the legal ownership of such asset (or replacement asset) at any time and the right to provide any lender with a loan on any conditions including a limited recourse loan (including a loan limited to rights relating to the original asset or the replacement asset).

8. **INSURANCE**

The Trustee cannot accept the transfer of an existing insurance policy from a member, or a relative of a member but may arrange cover for members within the Fund. Arranging insurance cover is an important part of the Fund's investment strategy to provide benefits for members and their families.

The Trustee has considered whether insurance, such as life insurance, income protection insurance and disability cover or other permissible cover should be held for one or more members. Arranging insurance cover will depend on the age, applicable premium and extent of cover appropriate and is subject to the availability of insurance in respect of a member. Whilst the Trustee can generally claim a tax deduction for the insurance premium, excluding trauma cover, the Trustee also takes into account the restricted tax deductibility of premiums for an 'own occupation' definition for disability cover.

9. DIVERSITY OF THE MEMBER'S FUND

- i. Holding a number of investments is the essence of diversity. This may have the effect of reducing volatility. However, diversification is only one factor to be considered in this strategy.
- ii. The Trustee may, in writing, change the spread of investments (even on a daily basis). However, the Fund's current investment spread is:

Asset Allocation (%) of D'Angelo Superannuation Fund	Range (%) e.g. 0 - 100%
Cash	100%
Australian Fixed Interest	0 - %
International Fixed Interest	0 - %
Australian Equities (Current Benchmark: S&P ASX 200)	0 - %
International Equities (Current Benchmark: MSCI World Ex \$A)	0 - %
Diversified Property (other than residential)	0 - %
Residential, commercial or retail property (direct, listed or unlisted)	0 - %
Hedge funds	0 - %
Antiques and art works	0 - %
Precious metals, such as gold and silver	0 - %
Loans, loan facilities and securities	0 - %
Other investments (considered on a case by case basis) such as agribusiness	0 - %
Others:	0 - %

- iii. Where no range has been inserted above the Trustee considers that no specific percentage range for each of the asset classes should be adopted but that each asset class should be considered on its own investment merits having regard to an appropriate degree of diversification.

10. PAYING DEBTS

The Trustee is obliged to pay its tax obligations, expenses incurred and required benefits to members. It will do so within 31 days. The Trustee ensures that it holds sufficient cash (or readily realisable assets) to meet such obligations. Moneys must also be kept in reserve to meet the risk and reward objectives of the Fund.

11. COST OF INVESTING

The Trustee strives to reduce costs of investing. However, at times upfront investment costs are payable in order to obtain the best investment products that fit into this investment strategy. Exit costs and penalties may also be part of the cost of carrying out this investment strategy.

12. INVESTMENTS

a. Cash

Money can be held in kind, banks, building societies, lending institutions and cash management accounts.

b. Australian Shares

After research and due diligence, these include listed and unlisted securities including shares, warrants, derivatives, contracts for differences, derivatives securities and managed funds.

c. Australian Fixed Interest

These include deposits banks, building societies, lending institutions, cash management accounts, government and non-government bonds, bank bills, debentures, corporate notes and specialist fixed interest funds.

f. Status of the Fund

g. Review

The Trustee is to regularly review the Fund's investment strategy and evidence this review in the minutes of Trustee meetings held during the income year.

The Trustee may review this strategy as required, but it must be reviewed at least annually.
