Nothing is better than this. So good! I wonder if Werner is still kicking around...

Wow, well that must have been a surprise.

Sounds very much like Werner was audited and the restitution was either a self assessment or perhaps enforced by ASIC. Doesn't sound like a good outcome for Werner in any case.

Might be a good time to address the super loss as a result of the life premiums that were overlooked by Werner. It seems his lack of servicing attention has been confirmed by the refunds and it may be an opportunistic time to make a claim for these losses.

Congratulations Leo, a great result for you :)

Kind Regards

Simon

Thanks Simon,
I thought there would be some ASIC or ATO issue but yes what a surprise - as you say a very pleasant surprise and I didn't have to sue him...!!
Let me know what paperwork I need to provide and/or sign, etc...
