

# About your water and sewerage charges

## The standard charges explained:

### Sewerage access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's sewerage transportation and treatment system.

### Sewage volume charge (multi-unit residential and non-residential property only)

A volumetric charge per kilolitre of sewage deemed to have been discharged from the property into the City's sewerage transportation and treatment system.

### Water access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's water distribution system.

### Water usage charge

Water usage, as measured by your water meter, is charged per kilolitre (1000 litres). Water usage is divided into retail water and bulk water charges. If access to read your water meter was not available, water usage may have been estimated for this account based on previous use. This will be indicated on your account.

### Non-drinking water usage charge (select Pimpama-Coomera customers only)

This is a charge applicable to select Pimpama-Coomera customers only or non-drinking water usage, as measured by your purple non-drinking water meter and charged per kilolitre (1000 litres).

## How to read your water meter

Your water meter is normally located at the front of your property.

**Black numbers represent kilolitres and are used for billing.**

The red numbers on your water meter represent litres. To calculate your daily water use, please follow the instructions below.

Numbers only meter

- 1 Day one, record all numbers that you see here. Note the time of day.
- 2 Day two, repeat step 1. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

**Please note, if there are four red digits on the water meter, the last digit (on the far right) is a tenth of a litre. In these instances, do not record the last red digit.**

**OR**

Numbers and clock meter

- 1 Day one, record all numbers that you see here. Secondly, record numbers found here. Record the first three red dial numbers in a clockwise direction, that is, right to left. Note the time of day. **Both steps should provide you with a number similar to the diagram example 00030509.**
- 2 Day two, repeat step one. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

**Day one:** Record numbers from your water meter as per instructions above.

**Day two:** At the same time as day one, record numbers from your water meter as per instructions above.

Subtract the number found on day one from the number found on day two.

**This is your household's daily water usage.**

## Frequently asked questions

### What is a Drop and Go?

To make recycling green organics easier we've created Green Waste Drop and Go zones, which eliminate the need for lifting and loading into bins and provide a faster trip and reduced waiting times. You now have the flexibility to dispose of large quantities of green waste at your convenience at our Green Waste Drop and Go zones located at Reedy Creek, Molendinar, Merrimac, Staplyton and the green waste centre at Pimpama. Visit [cityofgoldcoast.com.au/greenwaste](http://cityofgoldcoast.com.au/greenwaste)

### What day will my bin be collected?

Use the online bin day finder form (residential properties only) on our City website and simply enter your street name and suburb to find out your bin collection day and which week is your recycling week. Waste collection services operate as usual on public holidays, but it's recommended you put your bins out the night before as collection times may differ. For information visit [cityofgoldcoast.com.au/mybinday](http://cityofgoldcoast.com.au/mybinday)

### Am I responsible for my water meter?

City of Gold Coast owns the water meter (including the first nut and tail on the property side of the water meter). The property owner is responsible for ensuring it is accessible for reading, and for the pipes and fittings connected to the meter tail on the property side of the water meter. If there is water leaking from any fitting connected to the meter tail, please fix it fast! For information visit [cityofgoldcoast.com.au/watermeters](http://cityofgoldcoast.com.au/watermeters)
