**1 Statement of Significant Accounting Policies**

The trustee of the fund is P & N BURKE INVESTMENTS PTY LTD (A.B.N.: ).

The trustees have prepared the financial statements on the basis that the fund is a non-reporting entity because the members are able to command the preparation of tailored financial reports so as to satisfy specifically all of their needs and there are no other users dependent on the financial statements. The financial statements are therefore special purpose financial statements that have been prepared with reference to Australian Accounting Standard AAS 25 Financial Reporting by Superannuation Plans, and in accordance with the legislative requirements of the Superannuation Industry (Supervision) Act 1993 and Regulations 1994 and the provisions of the Trust Deed.

**Basis of Preparation**

The financial statements have been prepared on an accrual basis using historical costs convention unless stated otherwise.

The functional and presentation currency of the fund is Australian dollars.

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the requirements of Trust Deed. Such accounting policies are consistent with the previous period unless stated otherwise.

**(a) Measurement of Investments**

Investments of the fund have been measured at net market values after allowing for costs of realisation. Changes in the net market value of assets are brought to account in the operating statement in the periods in which they occur.

Net market values have been determined as follows:

- shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- units in managed funds by reference to the unit redemption price at the end of the reporting period;
- fixed interest securities by reference to the redemption price at the end of the reporting period; and
- insurance policies by reference to an actuarial assessment of the amount receivable from the insurer in respect of the policy; and
- investment properties are carried at market value and are held for the purpose of generating long term rental yields and capital appreciation. The Trustees give consideration to the value of the investment property each financial year and revalue when a significant event occurs or when deemed appropriate. Where an external valuation has been obtained, the valuation is based on objective and supportable data and has been carried out by a property valuation service provider or qualified independent valuer as appropriate.

**(b) Liability for Members' Accrued Benefits**

The liability for accrued benefits represent the fund's present obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the sundry liabilities and income tax liabilities as at the end of the reporting period.

**(c) Income Tax**

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (or recovered from) the relevant taxation authority.

Deferred income tax expense reflects the movements in deferred tax liability balances during the year as well as unused tax losses.

**BURKE SUPERANNUATION FUND**  
**ABN 60 337 845 711**

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

---

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled, based on tax rates enacted or substantially enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

**(d) Superannuation Contributions Surcharge**

The superannuation fund recognising the superannuation contributions surcharge as an expense at the time of receipt of an assessment from the Australian Taxation Office. The cost of the surcharge is charged to the relevant members' account.

**(e) Cash and Cash Equivalents**

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(f) Receivables**

After initial recognition these are measured at amortised cost using the effective interest method, less provision for impairment. Any change in their value is recognised in profit or loss.

**(g) Revenue**

**Interest revenue**

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

**Movement in the net market value**

Movement in the net market values of investments is calculated as the change in the fair value of the investment between the previous and current reporting dates (or disposal date).

**Distribution revenue**

Trust distributions are recognised when the right to receive the payment is established.

**(h) Contributions**

Contributions are recognised when control of the asset has been obtained and is recorded in the period to which they relate.

**(i) Payables**

Trade and other payables are measured at amortised cost using the effective interest rate method.

**(j) Critical estimates and judgements**

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The significant judgements made are around the valuation of the investment property. The Trustees used recent sales and knowledge of the market to estimate the fair value.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

**Amendments to the Trust Deed**

Since the previous report the fund's trust deed has not been amended.

**FUND INVESTMENTS**

**Investment Strategy**

The investment strategy is to achieve long-term growth while limiting variability in returns.

To achieve this, the assets of the fund are invested in the Balanced Fund (0%), Market-linked Fund (0%) and the Secured Capital Unit (0%) managed by .

The Balanced Fund is invested in a well-diversified portfolio of shares (both in Australia and internationally), property and fixed interest securities with some exposure to other sectors.

The Market-linked fund is invested in a diverse portfolio with emphasis on those sectors which are expected to be better performers in the medium term.

The Secured Capital Unit is a portfolio of short to medium-term fixed interest securities in both the private and public sectors together with a range of money market instruments.

**Assets of the Fund**

The assets of the fund are invested across a wide range of investment classes as set out below:

	2019		2018

**Significant Investments**

The table in the preceding paragraph describes all investments which represent greater than 5% of the total assets of the fund.

**Investment Returns**

The investment returns after providing for tax on investment earnings and all operating expenses of the fund for the last five years were:

<b>Period</b>	<b>Investment Return</b>	<b>Crediting Rates</b>
01/07/14 to 30/06/15	6.31	6.31
01/07/15 to 30/06/16	3.58	3.58
01/07/16 to 30/06/17	4.22	4.22
01/07/17 to 30/06/18	15.43	15.43
01/07/18 to 30/06/19	-1.54	-1.54

The compound average rate of return for the past five years is 5.6%.

**Crediting Policy**

The crediting rate applied to your contributions in any one year assumes that contributions are paid evenly over the year. For members exiting the fund during a year an interim crediting rate is used. The interim crediting rate is an estimate of what the return for the year will be. The interim crediting rate is, however, subject to variation throughout a year.

**Reserving Policy**

The policy of the trustee is not to hold investment reserves in the fund, but to apply the actual investment return for the year as the crediting rate.

**ACCOUNTS**

The financial report for Burke Superannuation Fund has not yet been audited. For your information a copy of the Abridged Financial Information taken from the unaudited financial report is attached to this report.

The audit of the financial report is expected to be completed by 31 October 2019. The audited financial reporting together with the auditor's report will be available from 1 November 2019 for members to inspect or obtain copies on request.

The trustee does not expect there to be any qualification in the audit report.
