THE HISTORY OF THE UNITED STATES

BY CHARLES A. BEAN

Part I	The Discovery and Settlement of the United States
Part II	The Growth of the United States
Part III	The American Revolution
Part IV	The Development of the United States
Part V	The American Civil War
Part VI	The Reconstruction of the United States
Part VII	The United States in the World

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and development. It begins with the discovery of the continent by Christopher Columbus in 1492. The early years were marked by the struggles of the Pilgrims and the Puritans to establish a new society in the New World. The American Revolution was a pivotal moment in the nation's history, leading to the birth of the United States as an independent nation. The years following the Revolution were a period of rapid growth and expansion, as the United States moved westward across the continent. The American Civil War was a defining moment in the nation's history, leading to the abolition of slavery and the preservation of the Union. The Reconstruction period was a time of great challenge and opportunity, as the United States sought to rebuild and reunite. The United States emerged as a world power in the late 19th and early 20th centuries, playing a leading role in the world's affairs. The history of the United States is a story of a nation that has grown from a small colony to a global superpower.
