

389017 - CLAPP SUPERANNUATION FUND

ANNUAL TAX REPORT

Period ending 30 Jun 2022

Stellan Capital is in regular contact with our service providers to ensure the integrity of the tax reporting we provide clients. However, all reports provided should be taken on a 'best endeavours' basis. For all investment activity whilst at Stellan, we update our systems daily which have stringent controls in place to assist in the monitoring and accuracy of the information provided. Please note, all cost base information for securities not purchased through Stellan Capital are sourced directly from the client or their tax professional and have not been verified with an auditor or third party. Our service providers are subject to an 'Independent Service Auditor's Assurance Report on the Description, Design and Operating Effectiveness of their Controls'. Evidence of these controls for auditing purposes can be provided upon request.

Table of contents

1. Portfolio Valuation

A detailed report of all securities held within the portfolio, their cost prices and current values.

2. Portfolio Performance

This report provides a detailed summary of how the portfolio has performed over the reporting time frame.

3. Tax Summary

This report summarises the tax reporting for the nominated Financial Year which includes Realised Gains and the Income & Expenses generated for the portfolio during the stated period.

4. Realised G/L

A detailed report section breaking down each Capital Gains Tax (CGT) event on an asset that was realized during the period broken into its relative tax parcel.

5. Unrealised G/L

Analyses the portfolio's gains/losses from a tax perspective for all unrealised assets (CGT and non-CGT assets) if they were sold at the reporting period.

6. Income

This report contains all income received during the reporting period.

7. Income Declared But Not Paid

The report contains all income with an ex-date on or prior to the reported date and with a payment date greater than the reported date.

8. Expenses

This report lists each expense entry for reconciling with the Expenses section of the Tax Summary.

9. Transaction History

This report details all trading activity, corporate actions and adjustments made to the portfolio within the stated reporting period.

10. Cash Book Transactions

This report breaks down all cash transactions for domestic currencies during the stated reporting period.

(a) Variances between Adjusted cost and Actual cost

Where the 'Sale proceeds' in respect of the CGT parcel are equal to or less than its reduced cost base, its reduced cost base is disclosed as the adjusted cost; otherwise, its cost base is disclosed as the adjusted cost. For more details, refer to the 'Adjusted cost' subsection in this report.

(b) Gains calculated using discounted method

The capital gain calculated using the discount method, after having applied the 33.33% CGT discount rate appropriate to the tax entity type of this portfolio.

(c) CGT gain calculation method

The CGT gain is calculated based on what is optimal for the disposal method selected. In some cases the indexed gain is used to optimise the use of losses.

The CGT gain calculated from a less than optimal method is shown in italics for information purposes only and is excluded from the totals for the portfolio.

NA is shown if a calculation method is not applicable.

Totals			123,518.10			127,991.39	-	-	1,265.49	136.33	126,862.23	126,862.23	

(a) Where the sale proceeds in respect of the CGT parcel are equal to or less than its reduced cost base, its reduced cost base is disclosed as the adjusted cost in the 'Disposal of CGT assets' section of the Realised CGT report; otherwise, its cost base is disclosed as the adjusted cost in the 'Disposal of CGT assets' section of the Realised CGT report.

(b) The actual cost of the CGT parcel is its purchase cost, adjusted for all CGT events (other than CGT events E4 and E10) that have happened to it. For more details, refer to the Transaction history report. For details specific to CGT event E4, refer to footnotes (c) and (d). For details specific to CGT event E10, refer to footnotes (e) and (f).

(c) In respect of the income entitlements of a fixed trust that was not an attribution managed investment trust (a non-AMIT) at the time of the entitlement, the tax-deferred amount is the cumulative value of tax-deferred amounts (being the non-assessable part of the income entitlements, excluding all amounts calculated under section 104-71 ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's cost base. CGT event E4 requires that both the cost base and reduced cost base of the CGT parcel be reduced by this amount.

(d) In respect of the income entitlements of a fixed trust that was not an attribution managed investment trust (a non-AMIT) at the time of the entitlement, the tax-free amount is the cumulative value of tax-free amounts (being the non-assessable part of the income entitlements as calculated under subsection 104-71(3) ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's reduced cost base. CGT event E4 requires that the reduced cost base of the CGT parcel be reduced by this amount.

(e) In respect of the income entitlements of an attribution managed investment trust (AMIT), the AMIT cost base net amount - excess amount is the cumulative value of excess amounts (as calculated under paragraph 104-107C(a) ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's cost base. CGT event E10 requires that both the cost base and reduced cost base of the CGT parcel be reduced by this amount.

(f) In respect of the income entitlements of an attribution managed investment trust (AMIT), the AMIT cost base net amount - shortfall amount is the cumulative value of shortfall amounts (as calculated under paragraph 104-107C(b) ITAA 1997) in respect of the CGT parcel. CGT event E10 requires that both the cost base and reduced cost base of the CGT parcel be increased by this amount.

(g) The cost base equals the actual cost, adjusted for amounts relating to: tax deferred; AMIT cost base net amount - excess; and AMIT cost base net amount - shortfall.

(h) The reduced cost base equals the actual cost, adjusted for amounts relating to: tax deferred; tax free; AMIT cost base net amount - excess; and AMIT cost base net amount - shortfall.

(a) Variances between Adjusted cost and Actual cost

Where the 'Market value' in respect of the CGT parcel is equal to or less than its reduced cost base, its reduced cost base is disclosed as the adjusted cost; otherwise, its cost base is disclosed as the adjusted cost. For more details, refer to the 'Adjusted cost' section of the **Unrealised** report.

(b) Gains calculated using discounted method

The unrealised 'CGT gain' calculated using the discount method, after having applied the 33.33% CGT discount rate appropriate to the tax entity type of this portfolio.

(c) CGT gain calculation method

The CGT gain is based on what is optimal for the disposal method selected.

The CGT gain calculated from a less than optimal method is shown in italics for information purposes only and is excluded from the totals for the portfolio.

NA is shown if a calculation method is not applicable.

(d) Unrealised CGT gain or CGT loss

The unrealised CGT gain or CGT loss is the difference between the adjusted cost and the market value at the date requested. For short options, the unrealised CGT gain or CGT loss is the market value of the option at the date requested. (The option premium received is shown as a realised CGT gain in the 'Realised CGT' section.)

CGT gains or CGT losses are not comparable with performance gains/losses, which are based on changes in value for a performance period.

(a) Where the 'Market value' of the CGT parcel is equal to or less than its reduced cost base, its reduced cost base is disclosed as the adjusted cost in the 'Unrealised CGT gains/losses' section of the Unrealised report; otherwise, its cost base is disclosed as the adjusted cost in the 'Unrealised CGT gains/losses' section of the **Unrealised** report.

(b) The actual cost of the CGT parcel is its purchase cost, adjusted for all CGT events (other than CGT events E4 and E10) that have happened to it. For more details, refer to the **Transaction history** report. For details specific to CGT event E4, refer to footnotes (c) and (d). For details specific to CGT event E10, refer to footnotes (e) and (f).

(c) In respect of the income entitlements of a fixed trust that was not an attribution managed investment trust (a non-AMIT) at the time of the entitlement, the tax-deferred amount is the cumulative value of tax-deferred amounts (being the non-assessable part of the income entitlements, excluding all amounts calculated under section 104-71 ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's cost base. CGT event E4 requires that both the cost base and reduced cost base of the CGT parcel be reduced by this amount.

(d) In respect of the income entitlements of a fixed trust that was not an attribution managed investment trust (a non-AMIT) at the time of the entitlement, the tax-free amount is the cumulative value of tax-free amounts (being the non-assessable part of the income entitlements as calculated under subsection 104-71(3) ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's reduced cost base. CGT event E4 requires that the reduced cost base of the CGT parcel be reduced by this amount.

(e) In respect of the income entitlements of an attribution managed investment trust (AMIT), the AMIT cost base net amount - excess amount is the cumulative value of excess amounts (as calculated under paragraph 104-107C(a) ITAA 1997) in respect of the CGT parcel that, at the time of the income entitlement, did not exceed the CGT parcel's cost base. CGT event E10 requires that both the cost base and reduced cost base of the CGT parcel be reduced by this amount.

(f) In respect of the income entitlements of an attribution managed investment trust (AMIT), the AMIT cost base net amount - shortfall amount is the cumulative value of shortfall amounts (as calculated under paragraph 104-107C(b) ITAA 1997) in respect of the CGT parcel. CGT event E10 requires that both the cost base and reduced cost base of the CGT parcel be increased by this amount.

(g) The cost base equals the actual cost, adjusted for amounts relating to: tax deferred; AMIT cost base net amount - excess; and AMIT cost base net amount - shortfall.

(h) The reduced cost base equals the actual cost, adjusted for amounts relating to: tax deferred; tax free; AMIT cost base net amount - excess; and AMIT cost base net amount - shortfall.

- (a) Trust capital gains: For attribution managed investment trusts (AMITs), these are the trust capital gains attributed to members. For non-AMITs, these are the present entitlements to the net trust income comprised of net capital gains and CGT concession amounts.
- (b) Discount method: Capital gains made by the trust in respect of CGT assets that were held for at least twelve months at the time of the CGT event that gave rise to the capital gain, and in respect of which the trust has not chosen to use the indexation method (if applicable) to calculate the capital gain. The sum of the discount method components equals the capital gains after having applied a CGT discount of 50%.
- (c) Indexation method: Capital gains made by the trust in respect of CGT assets that were acquired prior to 11:45 a.m. (by legal time in the Australian Capital Territory) on 21 September 1999 (and that had been held for at least twelve months at the time of the CGT event that gave rise to the capital gain), and in respect of which the trust has chosen to use the indexation method to calculate the capital gain.
- (d) Other method: Capital gains made by the trust in respect of CGT assets that were held for less than twelve months at the time of the CGT event that gave rise to the capital gain.
- (e) Non-assessable gains: For attribution managed investment trusts (AMITs), members are to be treated as having included (in their attributed amount) a capital gain of double the trust discount capital gain; thus, the non-assessable amount for AMITs is the additional member amount required to double the trust discount capital gain (referred to as the 'AMIT CGT gross up amount', this amount is equal to the sum of the discount method components). For non-AMITs, the non-assessable amount is the CGT concession amount (as calculated under sub-section 104-71(4) ITAA 1997).
- (f) TAP: Capital gains made by the trust in respect of CGT assets that were taxable Australian property (TAP). For capital gains calculated using the discount method, this is the capital gain after having applied a CGT discount of 50%.
- (g) NTAP net of foreign tax: Capital gains made by the trust in respect of CGT assets that were not taxable Australian property (NTAP), less any NTAP foreign tax. For capital gains calculated using the discount method, this is the capital gain after first having applied a CGT discount of 50%, and then subtracting any NTAP foreign tax.
- (h) NTAP foreign tax: Foreign tax paid by the trust in respect of capital gains made by the trust in respect of foreign CGT assets.
- (i) Taxable foreign capital gains: The grossed-up value of capital gains from foreign CGT assets. This amount is for information purposes only, as foreign capital gains are already reflected in the combined value of 'NTAP net of foreign tax' and 'NTAP foreign tax' amounts. This 'Taxable foreign capital gains' amount may be useful for the purpose of determining the extent to which the combined value of 'NTAP net of foreign tax' and 'NTAP foreign tax' amounts has been derived from a foreign source, and, accordingly, the extent to which any NTAP foreign tax amounts count towards the calculation of the portfolio holder's entitlement, if any, to a foreign income tax offset (FITO).

(a) Non-assessable amounts do not include non-assessable amounts in respect of trust capital gains (i.e. the AMIT CGT gross-up amount or the CGT concession amount). The non-assessable amounts relating to AMIT CGT gross-up amounts and CGT concession amounts are disclosed in the 'Trust capital gains' sub-section under the Income - additional information section.

(b) For attribution managed investment trusts (AMITs), 'Other non-assessable' amounts are the reconciliation adjustments required to account for the amount by which the present entitlements to the net accounting income of the trust for the income year exceed the trust income attributed to the member under section 276-80 ITAA 1997 for the income year.

(a) Foreign taxes withheld from or paid in respect of foreign investment income are recognised at the tax-derivation date of the foreign investment income from which they are withheld or in respect of which they are paid, regardless of whether or not the withholding event or payment occurs after the tax-derivation date.

(b) The amount of foreign tax paid in respect of capital gains made in respect of foreign CGT assets. For more details, refer to the 'Distributed capital gains' section of the Income - additional information schedule.

(c) The amount of foreign tax paid in respect of foreign investment income, other than foreign capital gains.
