## Please read our call back terms and conditions

- **Yes** you may still encounter some pest over your warranty period and is to be expected.
- Unfortunately there are no pest control products to stop pest entering your home or gardens.
- **Warranty period** is only against **re-infestations**. (a couple is not an infestation).
- If call back is warranted, we will only retreat areas of noted infestation. However if no significant pest issue is found, no further treatment will taken.
- After the initial knock down period of an allowed **3 weeks**, you may have a (*second wave*) typically around the first **3 months** which is expected and should only last a couple days.
- Mopping of floors voids interior protection warranty.
- Are you covered for **ants**? Ants are not covered under a general pest treatment. Please check receipt if box has been ticked for ants.
- If you have a sudden increase of ant activity within anytime of your warranty period, this will cease within a week period and is expected.
- **Spiders** on the exterior will unfortunately come back during your warranty period, we would like nothing more to stop them from ever coming back but it is impossible. All we are doing is trying keep them to a minimum.
- **German cockroaches** do not have a warranty period until a second treatment is applied, it must be within a 6 week period after initial treatment and will carry another treatment fee.

**Unfortunately pest control is not a complete never see pest again deal,  
As much as Eliminate Pest Control wants to achieve nothing more!  
but more about managing, and simply minimising the likelihood of you  
encountering them in your day to day life.  
We do not make excuses for bad pest control.**

**We are a industry that's purpose is essentially is to try to “control nature”  
One needs to think of an industry that successfully can?**

# Important Information Concerning Your Pest Management Program

## Health and Safety Information

1. You must advise us of any pets or of any personal or family/staff allergies, or other concerns.
2. Any persons who are particularly sensitive, or who suffer from allergic reactions, should, as a matter of precaution, remain out of the premises for a period of 24 hours and not return until after the premises have been fully ventilated.
3. You must remove or protect any people, animals, birds or fish during the treatment period.
4. You must cover all food items and all food utensils.
5. You must avoid contact with treated surfaces until the control agent has dried.
6. You must observe any verbal advice provided by our firm or our licensed operator at the time of treatment.
7. You must ensure your premises are properly ventilated after treatment. Leave any air-conditioners on 'vent mode' (so they circulate outside air into the building) for a period of at least four hours after the treatment or after re-occupying.
8. **Water Tanks:** No treatment can be carried out around water tanks not fully sealed or to water collection areas. You must advise us of water tank installations.

## Payment Terms and Details of FREE Service Period

9. If during the course of the program it is found that structural or environmental conditions prevent us performing any sections of the Management Program then the FREE Service Period or the cost of your investment may have to be reviewed.
10. Unless specific written arrangements have been provided the full contract price shall be due and payable and recoverable by this Firm on commencement of the initial treatment.
11. Any FREE Service Period shall be null and void unless all monies due and payable to this Firm have been paid in full within the standard terms of business above.
12. Where a FREE Service Period has been provided then, upon notification by you, we agree to provide you with any remedial treatment(s) as may be required to the nominated property, AT NO COST TO YOU. Any FREE Service Period is conditional upon you notifying us of signs of pest infestation.
13. **No responsibility is accepted, or warranty implied, for any damage or consequential losses that may occur as the result of past, current or future pest activity.**
14. The proposed treatment only applies to the pest species named overleaf on this Pest Management Proposal. The program does not provide protection against any other pest/s.

## Treatment Details and Control Agents

15. Only control agents approved by the Department of Primary Industry and Energy's Australian Pesticides & Veterinary Medicines Authority (APVMA) and registered for use by the relevant State or Territory Registration Authority will be used.
16. While every care will be taken, this firm will not be held liable should staining of timbers, fabrics, wall coverings, floor coverings or any other articles occur.
17. **WARNING.** Where drilling and or cutting is required; no liability is accepted should damage result to concealed services such as power, gas, water, etc. You indemnify Us against any costs that may arise from such possible damages. Clear and accurate plans should be provided by you before we commence.
18. You accept that this pest management program can be rendered ineffective if you fail to implement our recommended hygiene procedures, by making building alterations, or by the introduction of conducive or infested materials.
19. **\*Qld only:** record the **Strength of Active Constituent (AC):** Means the concentration of AC in the made up spray mixture.

## Termites and Other Timber Pests

20. This program does not cover treatment for, or inspection for, termites (white ants) or any other timber pests.
21. **We strongly recommend that you should arrange to have your property inspected for termites at least once every twelve (12) months and preferably every three (3) to six (6) months as recommended in the Australian Standards AS 3660 Protection of buildings from subterranean termites and AS 4349.3 Inspection of buildings - Timber pest inspections. A termite or timber pest inspection can be arranged upon request and is recommended.**

## Disclaimer Of Liability To Third Parties

22. Compensation will only be payable for losses arising in contract or tort sustained by the Client named on the front of this Pest Management Treatment Proposal & Advice Notice. Any third party acting or relying on this Pest Management Treatment Proposal & Advice Notice, in whole or in part, does do so entirely at their own risk.
