We understand with regard to tax statements MSC engaged PWC for the Trust tax accounting for FY22 – they used the FX rate on March 2nd (allotment day) of 72.69c to attribute a value to the in-specie distribution of the above shares for each Trust of \$1.375705 per unit (a non-cash distribution for purposes of FY22 tax statements). We also understand from MSC that there was a capital gain on the currency movement for SQ Yield 1, which explains an additional delta between the FY22 statement distribution amount, and cash received + non-cash distribution of USQ units. I have forwarded your below query to MSC who will assist regarding the reconciliation query from your accountant. Note, we confirm the USQ IPO price was \$1.38.

Commonwealth Bank of Australia ("CBA") off-market share buy-back

Thank you for participating in the CBA off-market share buy-back (Buy-Back). We are pleased to confirm the successful completion of the Buy-Back and that CBA has bought back a total of 67.7 million Shares at a Buy-Back Price of \$88.62 per Share, which represents a discount to the Market Price of 14%.

As the total number of Shares offered for sale at the Buy-Back Discount of 14% and/or as a Final Price Application was greater than the number of Shares CBA determined to buy back, your Application may have been scaled back.

In accordance with the scale back process outlined in the Buy-Back booklet, a Priority Allocation of 100 Shares plus 20.6% of the remaining Shares offered at the Buy-Back Discount of 14% and/or as a Final Price Application have been bought back. Any Small Residual Holdings (20 Shares or less) as a result of the scale back process were also bought back in full.

For Shares that have been successfully bought back, you have received \$88.62 per Share. The Australian Taxation Office is expected to confirm in its Class Ruling that this payment represents a Capital Component of \$21.66 and a fully franked Dividend Component of \$66.96 per Share.

The details of your Shares bought back, which may need to be disclosed on your Australian income tax return, are shown in the table below. If applicable, you are now free to deal with your Shares that have not been bought back by CBA.

Summary of your Application	Shares
Total number of Shares offered for sale:	2,307

Understanding comprehensive credit reporting

It's more important than ever to pay on time as this is shown on your consumer credit report as part of comprehensive credit reporting (CCR).

CCR provides you with a more complete picture of your credit history including your on time and late repayments. You can also see your consumer credit account open and closed dates, type of credit, credit limit and it now includes whether you are in a financial hardship arrangement.

For more information please see our website, our Privacy Statement or visit CreditSmart.org.au.

Student Quarters Yield Trust

Dear Investor,

As an investor in Student Quarters Yield Trust, you will have received units in the US Student Housing REIT (ASX: USQ) in consideration for the roll-in of the 200 Edgewood asset previously held by the Student Quarters Yield Trust. If you have any questions in relation to this transaction or have not yet received your holding statement, please contact team@auctusinvest.com.

Final distribution:

Note the above transaction was an asset only roll-in, not a Trust roll-in. You will be allocated your full entitlement to the final pro-rata distribution available for the March Quarter 2022, which will be paid in May 2022. The Trustee will then commence wind up of the Trust shortly thereafter.

Please be aware you will also receive your FY22 tax statements from the Trust per usual following end of Financial Year.

If you have any questions in relation to the wind up of the trust, you can contact Auctus at enquiries@auctusinvest.com .

Sincerely,

MSC Trustees

(2) If you have total franking credit amounts greater than \$5,000, in order to be eligible to claim the benefit of the franking credit, you must have held the security for at least 45 consecutive days, not including date of purchase and date of sale. Where the 45 day holding requirement has not been satisfied, the holding period rule (also known as the 45 day rule) may apply to deny the franking credits attached to the dividend received in respect of the particular security. If that situation applies to you please speak to your tax adviser.

Please refer to your dividend statement provided by the Share Registry for any foreign tax credits you may be entitled to and breakdown of any trust distribution you may have received.

For details of the components of your ASX listed trust distributions you will need to refer to the Annual Tax Statement issued by the trust manager.

DAVIDSON SUPERANNUATION FUND Investment Strategy

Overview

The aim of this strategy is to provide the Members with an income on retirement.

Investment Objectives

The Trustee(s) will at all times ensure the funds assets are invested in accordance with the trust deed and comply with the applicable legislative requirements.

The Trustee(s) will act prudently to maximise the rate of return, subject to acceptable risk parameters whilst maintaining an appropriate diversification across a broad range of assets whilst assessing the risks where it is determined the fund's portfolio tacks diversification and // or has elected to implement a sector bias.

Having considered the risk profile of the fund and the member's needs and circumstances, the trustee has adopted the following objectives for the investment of assets of the fund;

- to achieve an investment return (based on market values and net of tax and charges) that exceeds the CPI by at least 3% per annum when measured over a rolling 5 year period.
- to have a probability of zero or negative returns in any 12 Month period of less than one in five years; and
- have sufficient liquidity to meet liabilities as and when they fall due.
- to consider the need to hold a policy of insurance for one or more members of the fund.
- · to achieve a fassive income stream

The fund will invest in a portfolio of assets according to market conditions and within the ranges specified below:
