

Investment Strategy

SRINIVASAN FAMILY SUPERANNUATION FUND

Objectives

The Trustee considers this Investment Strategy to fulfill the principal objective of maximising Members' returns having regard to risk and is consistent with the investment objectives of the Fund which are as follows:

1. Ensure the capital value of the Fund is preserved at all times.
2. To achieve a long term rate of return in excess of the CPI. It is expected that year-on-year returns might vary and that there might be years when returns are negative.
3. To provide retirement benefit for the Members.
4. To ensure that sufficient assets will be available to meet benefit payments when those payments are due to be paid (solvency).
5. To ensure that sufficient liquid assets will be available to meet benefit payments and liabilities as and when those payments are due to be paid (liquidity).
6. The Fund has a relatively long time horizon. The Members are prepared to endure a reasonable level of volatility of returns in expectation of long term growth.

Statement on Risk

Investment risk is borne by the Members, as fluctuation in investment returns will affect the level of the Member's benefits on withdrawal.

Diversification

Diversification is achieved through a mix of Australian or international investments across a range of asset classes. The Trustee recognises that diversification can result in significant reduction to return volatility while maintaining the level of anticipated return.

The Fund may invest primarily in property. The Trustee recognises this to be a high level of property specific risks. The Trustee considers that real property is a secure investment with the prospect of long-term capital appreciation while generating steady income growth.

Ability to pay expenses

Sufficient cash flow will be maintained to discharge administration expenses and other outgoings. The Fund is a defined contribution fund, and the Members are entitled to the accumulation of contributions and earnings in the Members' account on withdrawal.

Investment Strategy

With regards to the investment strategy outlined above the Trustee has adopted an Investment Strategy aimed at accumulating assets in the Fund over the long term. The Trustee can invest within Australia or overseas in the following asset classes:
