## Note 1: Summary of Significant Accounting Policies

The trustees have prepared the financial statements on the basis that the Superannuation Fund is not a reporting entity because it is not publicly accountable and is not required by law or governing document to prepare financial statements that comply with Australian Accounting Standards. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the Fund and the needs of members.

The financial statements have been prepared on a cash basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue by the Director(s).

### a. Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
- (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions were made:

- that the buyer and the seller deal with each other at arm's length in relation to the sale;
- that the sale occurred after proper marketing of the asset; and
- that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period;
- (iv) unlisted investments are stated at trustees' assessment based on estimated market value at balance date or where necessary, an external valuer's opinion; and
- (v) investment properties at the trustees' assessment of the market value or where necessary a qualified independent valuer's opinion at the end of reporting period.

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustees have determined that the gross values of the Fund's financial liabilities is equivalent to their market values. Any remeasurement changes in the gross values of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

### b. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

### c. Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is recognised at the fair value of the consideration received or receivable.

# Notes to the Financial Statements

For the year ended 30 June 2020

## Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised upon receipt.

## Dividend revenue

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

## Rental revenue

Rental revenue arising from operating leases on investment properties is recognised upon receipt.

## Distribution revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distribution and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

## Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

## Contributions

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

## d. Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

## e. Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

## PLCM Super Fund

### INVESTMENT OBJECTIVES AND STRATEGIES

#### Investment Objective:

The sole purpose of the fund is to provide benefits to Members upon their retirement, attaining a specified age, death or on health or financial reasons.

The objective of the Fund is to achieve reasonable long term growth with moderate fluctuations in return. The average investment return for the plan should be at least 1.0% per annum above inflation (CPI) when measured over a three year period.

#### Investment Strategy:

The trustees, have set the following strategy and guidelines for investment of funds belonging to the Fund having regard to the following:

- the risk of the investment;
- the diversity of investments of the Fund as a whole;
- the liquidity of the investment; and
- the ability of the fund to discharge its present and future liabilities.

The overall strategy is to invest in either cash, real property, shares, unit trusts or a combination thereof for the purpose of providing the members of the plan with long term growth. Whilst the trustees are conscious of the need to provide the members of the plan with capital gains over the medium to long term, they are also conscious of the need to diversify and spread the risk associated with investment in growth assets.

In making a decision on the types of investments made by the Fund, the Trustees have consulted with the members in this regard. They have taken into account the members overall risk profile and their concerns about various investment opportunities.

With this in mind, the trustees will, from time to time, seek professional investment advice in order to assist in the process of determining what investments are suitable for the Fund and also taking into account the concerns of the members.

The trustees also acknowledge the need to invest in areas where some assets can be readily converted to cash, thus allowing benefits to be paid when they fall due.

Taking the above into account, the trustees have determined that the following guidelines should be adhered to in placing and reviewing investments by the Fund in the coming 12 month period.

	From		To
Australian Equities	0%	-	40%
Australian Fixed Interest	0%	-	10%
Cash	0%	-	30%
Direct Property	0%	-	95%
International Equities	0%	-	10%
International Fixed Interest	0%	-	10%
Listed Property	0%	-	0%
Mortgages	0%	-	0%
Other	0%	-	10%

This plan's strategy will be reviewed on occasion and updated if any modifications are required.

In addition, the trustees have held discussions with each of the members and considered whether or not it is appropriate for the fund to provide any of the following types of insurance cover for each member:

- Life insurance
- Total & Permanent Disablement (TPD) insurance
- Income Protection Insurance

Each member's individual insurance needs will be considered by the trustees on an annual basis
