INVESTMENT STRATEGY OF SUPER TUITE FUND

1. OBJECTIVE

This investment strategy of the Super Tuite Fund ("Fund") (as amended from time to time) is created in compliance with the SIS Act.

2. THE FUND

i. The Fund:

- a. accepts employer and member contribution and contributions from other persons as the laws allow;
- b. transfers from other superannuation funds and from a spouse as the laws allow;
- provides benefits to members upon retirement as the laws allow;
- d. provides other activities as allowed by the laws and regulations from time to time;
- allows access to any unrestricted non-preserved benefits (as/when allowed by the laws and regulations);
- f. provides for the payment of pension benefits at a rate as determined in the future from time to time.
- ii. The Fund complies with the current laws and regulations and the rules in the trust deed. It has the following investment objectives:

a. Risk and Rate of Return

- i. It is recognised that timing (when you get into the investment) and time in the investment (how long you are in the investment) affects returns. Different investments have different returns and volatility.
- ii. The trustee (from time to time) of the Fund ("Trustee") has a strong emphasis on preserving the Fund's capital. However, many sound investments are not capital guaranteed.
- iii. Security of capital has to be tempered with the need to achieve the desired rate of return. Therefore, assets that show volatility may be of benefit to the Fund.
- iv. The Trustee is ever vigilant to balance these two objectives: protecting the capital and growing the value of the Fund by obtaining an acceptable rate of return.

b. Reserving Accounts

- i. Prudential management requires that a strategy be put in place so that the Trustee has the ability to pay its liabilities and obligations, whether contingent or actual, as and when they fall due. They can be paid to either members or for paying the expenses of the Fund.
- ii. From time to time the Trustee is at liberty to put in place reserve accounts, in accordance with the deed for any classes including these categories:
 - investment (it can also hold undistributed investment income and income above the Fund's required return);
 - 2. contributions (such as an unallocated contribution made by an employer on behalf of a group of employees); and
 - 3. miscellaneous (these include pre 12 May 2004 forgone and forfeited benefits, plus expenses and other legal provisions).
- iii. The Trustee is also at liberty to create a separate and additional investment strategy for reserving for each type of Fund reserve.
- iv. These can be for any lawful purpose including, smoothing returns, advisory fees, accounting fees, taxes, surcharge liabilities, life and disabled insurance premiums, death and disability payments and any purposes set out in Australian Tax Offices' Superannuation Contributions Ruling 1999/1.
- v. The Trustee is at liberty under section 55(6) of the SIS Act to defend against any loss or damage suffered by a member because the reserves were managed in accordance with section 52(g)(2) of the SIS Act.

1

3. REQUIRED RATE OF RETURN

The Trustee seeks an overall investment return for the Fund in the 3-5 year term (medium term) of 3% above the average rate of inflation over that period. An investment can be for capital growth only, income only or a combination.

4. TRUSTEE'S OBLIGATIONS

- i. The Trustee ensures that the Fund meets the legislated standard minimums to continue to obtain concessional taxation status on the income.
- ii. It is also incumbent on the Trustee to consider the tax consequences of all investments. Tax-advantaged products may reduce the Fund's taxation burden. Tax is one of the Trustee's relevant concerns.
- iii. The Trustee acknowledges that members' benefits are a liability of the Fund. The Trustee gives thought to the level of benefit required to be paid to the member. However, while no terminations or benefits are expected to be paid out in the short to medium term, the Trustee is at liberty to examine investments that are medium term. However, when the member is in pension phase the time horizon may be far shorter.

5. INVESTMENTS, METHODS AND STRUCTURES

- i. The Trustees may invest all or part of the money and other assets of the Fund in any manner in which they could if they were personally entitled as beneficial owners of those assets, under any circumstances and any terms, and in or through any business structure or any arrangement (including companies, joint ventures, partnerships and trusts including unit, hybrid, family, discretionary) including:
 - a. in insurance and any other type of insurance including trauma;
 - b. in Trustee investments;
 - c. in the purchase, improvement or mortgage of real property;
 - d. on deposit with any bank or building society (and the power to open and close such accounts) or any
 other company partnership or person with or without security;
 - e. in shares, stocks, options, debentures, bonds, unsecured notes or other securities;
 - f. in units or sub-units of any unit trust including units in a pooled superannuation trust;
 - g. in common funds, artworks, motor vehicles (including trucks) and live stock;
 - h. in bills of exchange or other negotiable instruments;
 - i. in options, hedging contracts, futures contracts, instalment warrants, derivatives, Contracts for Difference ("CFD's"), similar securities to the above and other financial instruments;
 - j. investing in any asset using the instalment warrant; and
 - k. in other investments, which the Trustee considers on a case-by-case basis, such as investments in agribusiness.
- ii. The Trustees may dispose of, vary, transpose, replace or encumber investments or mix investments with investments of other people or trustees as if they were personally entitled to them as beneficial owners.
- iii. The Trustees invest in a manner which is consistent with the Relevant Requirements.
- iv. The Trustees may borrow money in a manner consistent with the Relevant Requirements.
- v. The Trustees may only lend money to Members if it is consistent with the Relevant Requirements.

6. BORROWING

- i. To seek higher returns, the Trustee may borrow money under any circumstances, for any reason, including limited recourse borrowing as provided for under sections 67A and 67B of the SIS Act ("Borrowed Moneys") and applying the Borrowed Moneys for any purpose including the purchasing, refinancing and repairs and maintenance of an Acquirable Asset, under any circumstances (including through a trust, bare trust, warrant, limited recourse borrowing arrangement or beneficially).
- ii. Where the purchase has been made otherwise than beneficially, then the power to acquire the legal ownership of such asset (or replacement asset) at any time and the right to provide any lender with a loan

on any conditions including a limited recourse loan (including a loan limited to rights relating to the original asset or the replacement asset).

7. DIVERSITY OF THE MEMBER'S FUND

- i. Holding a number of investments is the essence of diversity. This may have the effect of reducing volatility. However, diversification is only one factor to be considered in this strategy.
- ii. The Trustee may, in writing, change the spread of investments (even on a daily basis). However, the Fund's current investment spread is.
- iii. Where no range has been inserted above then the Trustee considers that no specific percentage range for each of the asset classes should be adopted but that each asset class should be considered on its own investment merits having regard to an appropriate degree of diversification.

Asset Allocation (%) of the Super Tuite Fund	Range (%) e.g. 0 - 100%
Cash	0 –100%
Australian Fixed Interest	0 –%
International Fixed Interest	0 –%
Australian Equities (Current Benchmark: S&P ASX 200)	0 –%

Others:	0 –%

8. PAYING DEBTS

The Trustee is obliged to pay tax, expenses and benefits. It will do so within 31 days. The Trustee ensures that it holds sufficient cash to meet such obligations. Moneys must also be kept in reserve to meet the risk and reward objectives of the Fund.

9. COST OF INVESTING

The Trustee strives to reduce costs of investing. However, at times upfront investment costs are payable in order to obtain the best investment products that fit into this investment strategy. Exit costs and penalties may also be part of the cost of carrying out this investment strategy.

10. INVESTMENTS

i. Cash

Money can be held in kind, banks, building societies, lending institutions and cash management accounts.

ii. Australian Shares

After research and due diligence, these include listed and unlisted securities including shares, warrants, derivatives, CFD's, derivatives securities and managed funds.

iv. International Shares

v. Property

This includes both direct and indirect investments in listed and unlisted property trusts and property securities funds.

vi. Review

The Trustees may review this strategy as required, but it will be reviewed at least annually.

11. INSURANCE

concluded that: [tick the relevant option from below or add as appropriate]
Additional insurance is not appropriate as the members have pre-existing medical conditions and/or are at an age such that insurance is not available on a cost effective basis
Additional insurance is not deemed appropriate as the members have significant assets inside and outside superannuation with no significant outstanding liabilities
The fund already has insurance for its members which is considered appropriate
The members have appropriate insurance outside the fund via an industry fund and/or retail superannuation fund or insurance policy directly held by the member
The Trustees recognise the need for additional insurance and will take the necessary steps to put into place insurance to cover its members needs

Signed by the directors of the Corporate Trustee pursuant to the Fund Deed.

Notes to the Financial Statements

For the year ended 30 June 2019

Note 1: Summary of Significant Accounting Policies

The trustees have prepared the financial statements on the basis that the Superannuation Fund is not a reporting entity because it is not publicly accountable and is not required by law or governing document to prepare financial statements that comply with Australian Accounting Standards. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the Fund and the needs of members.

The financial statements have been prepared on a cash basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue by the Director(s).

a. Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
- (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions were made:

- that the buyer and the seller deal with each other at arm's length in relation to the sale;
- that the sale occurred after proper marketing of the asset; and
- that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period;
- (iv) unlisted investments are stated at trustees' assessment based on estimated market value at balance date or where necessary, an external valuer's opinion; and
- (v) investment properties at the trustees' assessment of the market value or where necessary a qualified independent valuer's opinion at the end of reporting period.

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustees have determined that the gross values of the Fund's financial liabilities is equivalent to their market values. Any remeasurement changes in the gross values of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

b. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

c. Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is recognised at the fair value of the consideration received or receivable.

Notes to the Financial Statements

For the year ended 30 June 2019

Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised upon receipt.

Dividend revenue

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

Rental revenue

Rental revenue arising from operating leases on investment properties is recognised upon receipt.

Distribution revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distribution and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

Contributions

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

d. Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

e. Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.
