163. A market linked pension may not be commuted unless according to conditions listed in sub regulations 1.06 (8) (d), 1.06 (8) (f) of SIS Regulations, briefly :

- another market linked pension is commenced with the commutation ETP;
- the commutation occurs within six months after the commencement day of the pension;
- the member dies and the benefit is paid to the nominated beneficiaries, or the spouse also dies if the pension is based on the life expectancy of the spouse;
- the commutation is to pay a superannuation surcharge; or
- to give effect to a transfer to a spouse under the Family Law Split order.

Account Based Pension

164. An account based pension is a pension where the terms of payment of the pension must comply with the limitations and requirements of sub regulation 1.06 (9A) of the SIS Regulations and other provision of the superannuation law.

The trustee on request from a member, from 1 July 2007, may choose to apply the balance of the member's accumulation account to pay a benefit to the member as an account based pension. Trustee may commence an account based pension for the member with the following characteristics:

- payments of a minimum amount are to be made at least annually; and
- the member may, in receipt of this pension, withdraw as much as they wish above the minimum, including the entire amount; and
- the pension may be transferred only on the death of the member to a dependant as prescribed in superannuation law; and
- the member must not use the capital value or income of the pension to borrow any funds from a third party; and
- before a commutation of the pension in a financial year, the trustee as per Reg. 1.07D (1) (d), must pay pension, in the financial year in which the commutation takes place, at least the minimum amount prescribed by subregulation 1.07D (2); and
- do not permit the capital supporting the pension to be added to by way of contribution or rollover after the pension has commenced as per Reg. 1.06 (1) (a) (ii).

165. Account based pensions can be taken as transition to retirement pensions and will have a maximum annual payment limit of 10% of the account balance at the start of each year. From 1 July 2007, any pensions paid to a member at age 60 or over will be tax free to the member and will not be included in the member's taxable income.

166. A member, who is drawing one, two or more allocated pensions, may request the trustee to commute one or more pension and merge it with the other pension or commute all allocated pensions and commence a new account based pension which may be offered from 1 July 2007, in the manner and form provided in superannuation law.

Compulsory Cashing Requirements

167. From 10 May 2006, the trustee is not required to compulsorily cash benefits (commence pension) of a member.

Transition to Retirement Pension

168. The trustee, if requested by a member in writing, can pay any type of pension (either allocated pension, or market linked pension or, also from 1st July 2007, account based pension) as a transition to retirement pension. The trustee must not establish a market linked pension or allocated pension for a member after 20 September 2007.

21

169. The trustee must pay transition to retirement pensions consistently and as defined in regulation 6.01(2) of the SIS Regulations. However, such pensions must not be commuted (subject to certain exemptions) and such pensions payments may not be more than 10% of a member's account balance at the end of the fund's preceding financial year to the year when the payment is being made and comply with limitation and requirements to each form of pension as prescribed in superannuation law.

Payment of Existing Pensions after 1 July 2007

170. The trustee may convert a current allocated pension and/or transition to retirement allocated pension to an account based pension from 1 July 2007, in accordance with superannuation law.
171. From 1 July 2007, the trustee may continue to pay all types of pension (from 20th September 2007 an allocated pension and market linked pension), which can no longer be commenced in a self managed superannuation fund and were being paid in accordance with superannuation law.
172. If the fund is paying an existing complying pension which can no longer be commenced in a self managed superannuation fund, along with an allocated pension or market linked pension or with account based pension, the trustee must obtain an actuarial certificate as to the adequacy of amount of income allocated to the complying pension account to ensure that there is sufficient amount to meet the requirements of the complying pension, irrespective of whether the assets of the complying pension are segregated from those assets not paying a complying pension.

Reversionary Pensions

173. From 1 July 2007 the trustee must not allow a member (or reversionary beneficiary) to nominate a non-dependant of the member (or reversionary beneficiary) as a nominated reversionary beneficiary. A member must only nominate a dependant as defined in section 10 of the SIS Act.
174. Upon death of a member receiving a pension, the trustee may pay a pension to the reversionary beneficiary nominated by the member. The trustee may pay to the reversionary beneficiary a pension in accordance with superannuation law.
- However, if the reversionary beneficiary is not a dependant of the member the trustee must not effect the payment of pensions to a non-dependant reversionary beneficiary. In such a situation the trustee must only pay a lump sum to the non-dependant.
175. Upon death of a member receiving a pension who did not nominate a dependant reversionary beneficiary, the trustee may pay a pension to a dependant of the member. If there are no dependants alive, the trustee must pay a lump sum to the non-dependants of the member as listed in the death benefit nomination form.
176. If an individual in receipt of a reversionary pension is a non-member of the fund, then the trustees may invite the non-member to become a member of the fund as permitted by legislation.

Segregated Accounts of a Member

177. The trustee may establish segregated pension accounts for members to pay separate pensions benefits to each member or segregate "pension's assets" of a member to pay pension benefits to the member from "accumulation assets" of the same member.

41

The trustee may have to open two accounts for one member: one for "accumulation assets" of the member that is "non pension assets" and one for "pension assets" for the member. If the member is drawing a transition to retirement pension and accumulating superannuation benefits, the trustee must ensure that the required actuary certificate is obtained if the assets of the fund are not segregated.

178. If a member is being paid two (or more) pensions, the trustee may open two (or more) pension accounts for the member and segregate the assets of the two pension accounts, representing each pension account for the purpose of enabling the trustee to discharge pension payment liability on each pension account.
179. If the pension assets of the fund of a member are not segregated from accumulation assets of the fund the trustee must do whatever is required to comply with superannuation law, including obtaining an actuary certificate for the fund to calculate whether or not there are adequate funds to meet the pension payment requirement under the superannuation law, and to permit the correct calculation of tax on accumulation assets of the fund. The trustee must ensure that the fund meets all the requirements of the regulator and must ensure that the fund remains a complying superannuation fund.

Actuary Certificates

180. Before making any pension payment, the trustee of the fund must obtain an actuarial certificate from a registered actuary, if so required by superannuation law.
181. The trustee must appoint any actuary in accordance with superannuation law. The trustee may reduce the payments for any pension by any amount it considers reasonable in consultation with an actuary in accordance with superannuation law.

Commutation of a Pension

182. Upon written request from a member who is in receipt of a pension, the trustee may accept to commute a pension and pay a total or partial lump sum to the member, provided the commutation is in accordance with superannuation law and the conditions of release have been met by the member.
183. After 1 July 2007, if requested by the member, the trustee may commute a pension of the member, if the commutation of the pension is in accordance with superannuation law. The trustee must pay a partial or full amount as lump sum to the member proportionately to the member in ratio from "taxable" and "tax exempt" components as calculated on the crystallization date 30th June 2007 as per clause 134 & 135 of this deed and superannuation law.
184. If the trustee commutes only a part of the pension to a lump sum, the trustee must then adjust the amount of the pension payable in accordance with superannuation law.
185. A trustee may commute a pension if:
- the pensioner dies;
 - to pay a splitting agreement or court order under Part VIII B of the *Family Law Act* to transfer the benefit to a member or non-member spouse or
 - to pay a superannuation contribution surcharge;
 - the term of the pension is over; or
 - as otherwise permitted by superannuation law.

The funds of a commuted pension are vested with the trustees in the account of the member until such time the funds are allocated by the trustee for the above named purposes.

45

186. The trustee may, on request of a member, purchase a pension for the member from an outside source, using the balance in the pension account of the member, income from this pension and any commuted amount from this pension will be credited to the members pension account.
187. If a member requests in writing to roll over their benefit to another complying superannuation fund, and the trustee accepts the request, the trustee must affect this rollover within 30 days. The trustee must ensure that the receiving fund is a complying fund before any rollover request is accepted. Along with the rolled over funds, the trustee must send all the documents required by superannuation law to the receiving fund. Trustees may charge a reasonable fee and deduct this fee from the relevant account, before rolling over the amount to the receiving fund.

XII. Death of a Member

Death Benefit

188. In case of death of a member the trustee must pay the balance of the member's account to the beneficiaries nominated by the member. If the member is a tax dependant as defined in superannuation law, the trustee may pay to the beneficiary a pension; where the beneficiary is a non-tax dependant as defined in superannuation law, the trustee must pay a lump sum.

Non-Binding Death Benefit Nomination

189. A member may fill out a non-binding death nomination form which requests the trustees as to who should be paid death benefit on death of the member. In this form the member can either list his or her dependants and or legal personal representative on the form listed in schedule 2, Part 2 of this deed. A member may revoke a non-binding death nomination at any time. The trustees are not bound to follow the request of the member.

Binding Death Benefit Nomination

190. A member may fill out a binding death nomination form, which directs the trustee as to who should be paid a death benefit on death of the member. The member can either list his or her dependants and or legal personal representative on the form listed in schedule 2B, Part 2 of this deed.
191. A binding death nomination can be revoked by the member in writing; or the member can renew the binding nomination by supplying a new form. The form is valid for three years and member's signature must be witnessed by two unrelated adults. The trustee does not have to follow the direction of the member if the member has nominated a non-dependant, or the payment is not in accordance with superannuation law.

Payment of Death Benefit

192. The trustee may pay a death benefit to a beneficiary, in specie, by transferring the member's segregated assets or fund's share of assets, to the beneficiary, or alternatively, the death benefit may be paid in cash as a lump sum payment.
193. If a payment is a death benefit to a non-dependant, the trustee must withhold tax from the payment as required by superannuation law.

41

194. If a beneficiary is entitled to the proceeds from a life insurance policy, made out to the trustees of the fund, then the trustee may assign the proceeds to be paid directly to the beneficiary.
195. If there is no nomination of dependants in place, the trustees may pay the benefit to the legal personal representative of the estate of the member.
196. The trustee may release an amount, by way of an advance, to the legal personal representative of a member for the purposes of the member's funeral and/or other expenses relating to the death of the member. Trustees should pay the member's death benefit to the beneficiaries as soon as practical.
197. If there are unclaimed monies and no known beneficiaries, the trustee must pay such unclaimed moneys in accordance with the legislation governing the payment of such unclaimed moneys.
198. Once the trustee has paid a death benefit, it will no longer be liable to any damages to any person who claims to be entitled to the death benefit.
199. If a death benefit has to be paid to a beneficiary who is under a legal disability or a minor, then the trustee may make the payment to the legal personal representative or guardian or parent or person who has custody of the beneficiary.

Payment of Death Benefit when Member is Accumulating

200. If a member provides the trustee with a binding death nomination, the trustee must comply with the terms of that nomination. If a member has only provided a non-binding death nomination form, then the trustee need only consider, but need not comply with, the terms of the nomination form.

Payment of Death Benefit when Member is on Pension

201. Where there is a valid binding death benefit nomination in place and the member is on a pension, upon death of that member, if there is no reversionary beneficiary nominated, the trustees must pay the member's death benefit in accordance with the binding death benefit nomination.
- After 1 July 2007, non-dependants may no longer be reversionary beneficiaries of a pension benefit.
202. Where there is a non binding death benefit nomination in place or an invalid binding death nomination and the member is on a pension, upon the death of the member, if there is no reversionary beneficiary nominated, the trustees may pay the member's death benefit to nominees listed in non binding death benefit form, but need not comply with the terms of the non binding nomination form.
203. If the member has a reversionary pension to a dependant, and no dependants of the member remain, and that member dies, then the trustees must pay the balance of the fund to non-dependants as a lump sum.
204. If a death benefit has to be paid for a member who is on pension, from his pension account, then upon the death of the member, the trustee must transfer the funds of the member from pension account to accumulation account of the member, until such time as they are paid out to a beneficiary of the member.

45

Anti detriment payment

205. In the case of a death benefit, the trustee may pay a beneficiary a lump sum plus any benefit that would accrue to the fund if a deduction were allowed by reason of the application of section 295-485 of the ITAA 1997 including any amounts set aside in a reserve account created for this purpose.

XIII. Variation of Trust Deed

206. The trustee may, from time to time, vary the terms of this deed, by a deed of variation executed by the trustee. The deed of variation may add a clause to or delete a clause or all clauses of this trust deed. Any clauses added to this deed will have the same validity and effect as if they had been originally contained in this trust deed.

207. The trustee may not vary clause 4 of this deed unless the amendment complies with Section 19 of SIS Act and superannuation law and if the amendment will reduce the balance of any member of the fund or rights of any member or accrued entitlements that existed prior to the variation unless ;

- such a reduction is permitted by legislation and is agreed to in writing by the affected member(s);
- cause the fund to lose complying status, in which case the trustee must amend the deed to the extent necessary to keep the fund complying with legislation and the regulator must approve the reduction of rights of any member.

208. If the deed is varied, the trustee must give notice to all members of the fund in accordance with superannuation law and advise members of the nature and purpose of any variation the trustee seeks to make and any detrimental effect of the amendment on members' entitlements or rights or the balance of their account.

The trustee must communicate, via a notice of variation of the deed to all members in the prescribed format and give all members a copy of the updated trust deed.

209. Once the trust deed has been varied, the trustee must, in order to give effect to the variation, organise stamping of the updated trust deed if required by the State legislation of the state where the trustee resides and pay stamp duty of the prescribed amount, if required by the laws of that State. All expenses of the variation of trust deed may be met by trust funds.

IVX. Winding up of fund

210. The trustee must wind up the fund if the fund has no members or if all the members agree in writing to wind up the fund, or when superannuation law requires the fund to be wound up.

211. The trustees must before winding up the fund:

- dispose of all the assets of the fund to pay members benefits;
- close the income account and reserve account and transfer the balance to the members accounts as prescribed in superannuation law;
- pay all expenses and taxes of the fund;

- lodge the last income tax return and regulatory return of the fund and pay whatever expenses are due to creditors and professionals engaged;
- pay all benefits to the members or transfer and / or roll over member's entitlements to another complying fund as prescribed in superannuation law; and
- notify the regulator that the fund is wound up.

212. In the case of death of the last member, the trustee must pay any benefit in such a manner as they feel is equitable having regard to that member's indicative death nomination. In the case of a binding death nomination, however, the trustee must follow the instructions of the member. If there are no dependants or known beneficiaries the trustee is required to follow the superannuation law relating to unclaimed monies.

XV. Miscellaneous

213. The trustee(s) must collect tax file numbers from all existing members (all new members from 1st July 2007). If a member does not provide to the trustee(s) with their tax file number, the trustee(s) must, on all contributions, which the fund receives on behalf of the member over \$1,000, pay tax to the regulator at the highest tax rate that applies to Individuals plus Medicare Levy.

214. The trustee may provide information to certain government bodies to asset test an income stream for any benefits available to a member under the Social Security Act 1991 (Cth).

215. The trustee must hand over their contact details to all members and establish a system to communicate with members, beneficiaries and their dependants.
