## **Projected Investment Strategy**

For the year ended 30 June 2021

---

### **Background**

The Trustees of the Fund have devised this Investment strategy for the Fund considering the objective of the Fund and in line with the governing rules of the Fund and superannuation law. Through this investment strategy the Trustees are seeking to maximise the superannuation benefits for all its members of the Fund having regard to risk and reward of each type of investment.

Among other things, the Trustees have considered and determined that the Fund's current asset mix of assets are appropriate for its members for the financial year. Trustees have given regard to the members age and their in-ability to withdraw from the Fund their superannuation interests for retirement purposes in devising a strategy for the next financial year.

Chui Yi (Shirley) Chow is the sole member of the Fund. She is 63 years of age and is eligible for retirement. Her member balance as at 30 June 2020 was \$1,181,202.37

### **Investment Objective**

To maximise returns and minimise the risks of investment of the Fund's assets in managing and providing superannuation benefits to members and their dependants in meeting their retirement needs.

To ensure all investments are consistent with the governing rules of the Fund and appropriate Superannuation Legislations and the Fund's investment strategy.

The Fund has invested in various Australian listed securities, as well as one residential property, in order to earn regular dividend and rental income. The Fund also owns two vacant properties on Russell Island for capital appreciation purposes.

### **Risk & Return on Investments**

Each investment decision will be made with due regard to the associated, risk and expected return. With this in mind, the Trustees will, from time to time, seek professional investment advice in order to assist in the process of determining what investments are suitable for the Fund and also taking into account the concerns of the members.

The overall strategy is to maximise the returns of the Fund's investments and minimise the exposure of risk from any particular investment, the Fund will try to maintain a diversified portfolio.

In making a decision on the types of investments made by the Fund, the Trustees have consulted with the members in this regard. They have taken into account the members overall risk profile and their concerns about various investment opportunities.

After discussions with the members of the Fund, the Trustees have determined that they will invest most of the Fund in direct property and Australian listed securities. The cash balance is steadily increasing with contributions and investment income.

**Liquidity of Fund's Assets**

Each investment decision will be made with due regard to the cash flow requirements of the Fund. The Trustees will consider the liabilities (current and prospective) of the Fund and ensure adequate cash is maintained by the Fund to meet its liabilities as and when they fall due.

The Fund's liquidity needs will be considered at the time of each investment and also during the regular review of the Fund's portfolio and investment strategy.

The Trustees have considered and determined that the current investment provides the Fund with all the necessary expenses of the Fund for the next year.

The Trustees are aware that once members reach pension age, are temporarily or permanently disabled or they will need to withdraw from the Fund due to compassionate or other grounds, the Fund will need higher cash flows.

**Asset Class**

The Fund's asset classes as at the beginning of the year (1st July 2019) and as close of the year (30th June 2020) are as below with the Trustees asset allocation for the following year:
