## Contributions Limits

The taxation laws impose limits on the amount of contributions that can be made into superannuation each year.

The limits for the previous financial year (2019/2020) were:

<i>Age as at 30 June 2019</i>	<i>Tax Deductible (Concessional)</i>	<i>After-Tax (Non-Concessional)</i>
Up to age 65	\$25,000	\$100,000
Age between 65-75 and meet the work test	\$25,000	\$100,000

Any concessional contributions over the above limits will be added to your taxable income and taxed at your personal marginal tax rate for the 2019/20 year. Any non-concessional contributions over the above limits will need to be removed from the super fund and have "deemed earnings" subject to tax at your marginal tax rate, and an ATO interest charge payable.

The limits from 1 July 2020 are as follows:

<i>Age as at 30 June 2020</i>	<i>Tax Deductible (Concessional)</i>	<i>After-Tax (Non-Concessional)</i>
Up to age 67	\$25,000	\$100,000
Age between 67-75 and meet the work test	\$25,000	\$100,000

### *Non-concessional (After-Tax) Contributions:*

From 1 July 2017, there is a constraint being introduced so that individuals with a superannuation balance of \$1.6 million or more will no longer be able to make non-concessional contributions. This new constraint will require greater monitoring and consultation before contributions are made to avoid the possibility of penalties being applicable.

The above is factual information only and does not take account of your personal objectives, situation or needs. If you are unsure about the application of the contribution limits to your particular circumstance, please don't hesitate to contact us.

## Minimum and Maximum Pension – Year Ending 30 June 2021

You must ensure that you withdraw at least the minimum and no greater than the maximum pension by no later than 30 June 2021.

Due to the economic impact of the Coronavirus, the Government is temporarily reducing superannuation minimum drawdown requirements for account based pensions by 50 per cent for 2019-20 and 2020-21 years.

## Investment Strategy

The *Superannuation Industry (Supervision) Act 1993* requires the Fund to have an appropriate Investment Strategy, which considers the Fund's investment objectives and risk, return, liquidity and diversification.

The enclosed documents include a Proposed Investment Strategy which you should review before signing to ensure it is within your requirements.

Included in your bound copy of the Financial Statements are various Investment Reports for your information, including:

- Investment Summary Report
- Investment Income Report.

## Insurance Needs of Members

In accordance with the duties of a trustee of the Fund, you should ensure that you have considered the Death and Disability Insurance needs of each member of the Fund. It is not mandatory that the Fund hold insurance policies for members, however it is important that you have given this matter some consideration.

These insurances can be held within the Fund, however various issues should be considered when deciding whether insurances should be held within or outside the superannuation fund, for example:

- Tax deductibility of premiums;
- Ability to withdraw any insurance proceeds from the superannuation fund;
- Potential liability to taxation on the insurance proceeds.

It is important that the insurance needs of each of the members be considered on an annual basis, and that existing insurance policies held within the Fund be reviewed annually for their adequacy and appropriateness.

Life insurance premiums paid in respect of policies held on the lives of fund members are tax deductible to the fund. The existence of a life insurance policy, and the claiming of the associated premiums, may have implications on the level of tax ultimately payable by the recipient of the insured member's superannuation benefits upon the death of that member.

Upon a member's death, superannuation death benefits paid to a spouse, dependent child (i.e. not an independent adult child) or other financial dependant, are free from tax. If the deceased member did not have any such dependants at the time of death (e.g. the member's superannuation might be paid out to his or her adult children) then tax may be payable at 16.5% on the taxable component of the death benefit. The taxable component generally comprises that part of the benefit which did not arise as a result of non-concessional (after-tax) contributions being made to the fund.

If the member at some point had a life insurance policy in place within the fund, whether or not that policy is still in existence at the time of death, then additional tax, on top of the 16.5%, may be payable by the recipient of the death benefit. Once again, this additional tax would only be payable if the member had no dependants, as defined above, at the time of death, who could receive the death benefit tax free.

We are happy to discuss with you the taxation implications as they may relate to your individual circumstances. Please contact us if you wish to discuss further.

Dear Trustees

The Vivienne Hallman Super Fund  
**Audit Engagement Letter**

**Objectives and Scope of the Audit**

You have requested that we audit the financial statements of the SMSF for the year ended 30 June 2020. We are pleased to confirm our acceptance and understanding of this engagement by means of this letter.

Our audit will be performed in accordance with Australian Auditing Standards, the *Superannuation Industry (Supervision) Act 1993 (SISA)* and the *Superannuation Industry (Supervision) Regulations (SISR)* with the objective of expressing an opinion on the financial report and the fund's compliance with the specified requirements of the SISA and the SISR.

**Our Responsibilities**

We will conduct our audit in accordance with Australian Auditing Standards. Those Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free from material misstatement.

An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. An audit also includes evaluating the appropriateness of the financial reporting framework, accounting policies used and the implementation and operation of accounting and internal control systems that are designed to prevent and detect fraud and error, as well as evaluating the overall presentation of the financial report.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, there is an unavoidable risk that some material misstatement may not be detected, even though the audit is properly planned and performed in accordance with Australian Auditing Standards.

In making our risk assessments, we consider internal control relevant to the entity's preparation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. We will, however, communicate to you in writing any significant deficiencies in internal control relevant to the audit of the financial report that we have identified during the audit.

**Trustees' Responsibilities**

Our audit will be conducted on the basis that the trustee(s) acknowledge and understand that they have responsibilities:

- For the preparation of the financial report that gives a true and fair view in accordance with the Australian Auditing Standards, other mandatory reporting requirements and the SIS Act and SIS Regulations is that of the trustee(s);
- For such internal control as the trustee(s) determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error; and

## THE VIVIENNE HALLMAN SUPER FUND

### INVESTMENT OBJECTIVES AND STRATEGIES

#### Investment Objective:

The sole purpose of the fund is to provide benefits to Members upon their retirement, attaining a specified age, death or on health or financial reasons.

The objective of the Fund is to achieve reasonable long term growth with moderate fluctuations in return. The average investment return for the plan should be at least 1.0% per annum above inflation (CPI) when measured over a three year period.

#### Investment Strategy:

The trustees, have set the following strategy and guidelines for investment of funds belonging to the Fund having regard to the following:

- the risk of the investment;
- the diversity of investments of the Fund as a whole;
- the liquidity of the investment; and
- the ability of the fund to discharge its present and future liabilities.

The overall strategy is to invest in either cash, real property, shares, unit trusts or a combination thereof for the purpose of providing the members of the plan with long term growth. Whilst the trustees are conscious of the need to provide the members of the plan with capital gains over the medium to long term, they are also conscious of the need to diversify and spread the risk associated with investment in growth assets.

In making a decision on the types of investments made by the Fund, the Trustees have consulted with the members in this regard. They have taken into account the members overall risk profile and their concerns about various investment opportunities.

With this in mind, the trustees will, from time to time, seek professional investment advice in order to assist in the process of determining what investments are suitable for the Fund and also taking into account the concerns of the members.

The trustees also acknowledge the need to invest in areas where some assets can be readily converted to cash, thus allowing benefits to be paid when they fall due.

Taking the above into account, the trustees have determined that the following guidelines should be adhered to in placing and reviewing investments by the Fund in the coming 12 month period.

	From		To
Australian Equities	_____ %	-	_____ %
Australian Fixed Interest	_____ %	-	_____ %
Cash	0 %	-	30 %
Direct Property	70 %	-	100 %
International Equities	_____ %	-	_____ %
International Fixed Interest	_____ %	-	_____ %
Listed Property	_____ %	-	_____ %
Mortgages	_____ %	-	_____ %
Other	0 %	-	20 %

This plan's strategy will be reviewed on occasion and updated if any modifications are required.

In addition, the trustees have held discussions with each of the members and considered whether or not it is appropriate for the fund to provide any of the following types of insurance cover for each member:

- Life insurance
- Total & Permanent Disablement (TPD) insurance
- Income Protection Insurance

Each member's individual insurance needs will be considered by the trustees on an annual basis

## NOTES FOR PERSONS SIGNING SUPER FUND INCOME TAX RETURNS

These notes should be read carefully by each person signing an income tax return, in light of their knowledge of their own affairs, to ensure there are no inaccuracies in the return.

### RESPONSIBILITIES

Whilst we have exercised due care in preparing the returns from information supplied to us, the provisions of the *Income Tax Assessment Act* place the responsibility for the contents of the returns (including the need to obtain the necessary substantiation records) with the taxpayer. Accordingly, would you please check the details disclosed in the returns to satisfy yourselves that the returns are correct.

### SELF ASSESSMENT

As you would be aware, self assessment system of income tax returns is now in full force for individuals. That is, the Australian Taxation Office will accept and issue assessments based on the income tax return that is lodged, generally without any query.

This does not mean the Australian Taxation Office accepts the information contained in the return and at a later date it may request further information in relation to the claims you have made in your return.

Self assessment has not only shortened lodgement deadlines but has greatly increased the burden of paperwork to be prepared and retained by tax agents. We are now required to prepare detailed work papers which must be retained on our files for production to the Australian Taxation Office if required at a future date.

### TRUE AND FULL DISCLOSURE

Your attention is drawn to the following important considerations to ensure the correctness of each income tax return:

- that income from all sources has been disclosed;
- that all deductions claimed can be justified;
- that all deductions claimed for work, car and travel expenses
- can be substantiated by the required records and receipts;
- that all statements are correct and complete.

### CAPITAL GAINS TAX AND OVERSEAS INCOME

Every sale of property, of any description, should be considered for the possible application of both income tax and capital gains tax.

The world-wide income of Australian resident taxpayers is now taxable in Australia with a credit allowed for the income tax paid in a foreign country on that income.

### FALSE AND MISLEADING STATEMENTS

If an answer to a question or any statement made in an income tax return, or an attached schedule, appears to be incorrect, incomplete or misleading, please provide the information needed to amend the return.

Penalties may be imposed for an incorrect return up to double the amount of additional income tax subsequently assessed. These penalties may apply even if the error was made innocently. Alternatively, in more serious cases, prosecutions may be instituted under the *Taxation Administration Act 1953* and fines imposed by the Courts, if convicted.

### RETENTION OF RECORDS

It is a requirement that you substantiate all deductions claimed in your income tax returns. This includes keeping original documentation to verify the expenditure claimed. This documentation must be retained for 7 years. You should ensure that you retain all the documentation in a safe and secure place in case the Australian Taxation Office wishes to review these documents.

**Notes to the Financial Statements**  
**As at 30 June 2020**

**Note 1 - Statement of Significant Accounting Policies**

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements. They have been consistently applied in the current and previous periods unless otherwise stated to ensure the financial information satisfies the concept of relevance and reliability.

**(a) Statement of Compliance**

The trustees have prepared the financial statements on the basis that the superannuation fund is a non-reporting entity because the members are able to command the preparation of tailored reports so as to satisfy specifically all of their information needs and there are no other users dependent on the financial statements. The financial statements are therefore special purpose financial statements that have been prepared in accordance with the legislative requirements of the *Superannuation Industry (Supervision) Act 1993* and *Regulations 1994* and the provisions of the Trust Deed. The trustees have determined that the accounting policies adopted are appropriate to meet their needs.

**(b) Basis of Preparation**

The financial statements have been prepared on a cash basis using historical costs convention unless stated otherwise. For investments and financial liabilities, they are measured at market values.

The financial statements are presented in Australian dollars, which is the functional currency of the fund.

**(c) Use of Accounting Estimates and Judgments**

The preparation of financial statements requires the trustees to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

**(d) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with banks or financial institutions and short-term, highly liquid investments that are readily convertible to cash and are subject to an insignificant risk of change in value.

**(e) Foreign Currency**

Any foreign currency transactions during the financial year are brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Exchange differences are recognised in the operating statement in the period in which they arise.

**(f) Valuation of Assets**

*Investment*

An investment is initially recognised when as a result of past transactions or events, the Fund controls the future economic benefits expected to flow from the asset.

The investment assets are firstly recorded at cost, being the fair value of the consideration given. After initial recognition, they are measured at market value. Gains or losses arising from changes in market value are recognised on the Operating Statement in the periods in which they occur.

Market value as defined in s10 of *SISA 1993*, in relation to an asset, means the amount that a willing buyer of the asset could reasonably be expected to pay to acquire the asset from a willing seller if the following assumptions were made:

- i. that the buyer and the seller dealt with each other at arm's length in relation to the sale;
- ii. that the sale occurred after proper marketing of the asset;
- iii. that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

As disposal costs are generally immaterial unless otherwise stated, market value approximates fair value.

*This report should be read in conjunction with the accompanying compilation report.*

---

# THE VIVIENNE HALLMAN SUPER FUND

## Notes to the Financial Statements

### As at 30 June 2020

---

Market values for various types of investment have been determined as follows:

- i. listed securities, government and other fixed interest securities for which there is a readily available market quotation, the valuation is recorded as the last quoted sale price as at the close of business on reporting date. If the listed securities are foreign, they are also converted to Australian dollars using the exchange rate at the close of business on the reporting date;
- ii. unit trusts and managed funds are stated by reference to the unit redemption price quoted by the fund manager at the end of the reporting period;
- iii. unlisted investments are stated at the Trustees' valuation based on estimated market value at balance date; or where necessary, upon external valuers' expert opinions;
- iv. Investment properties are carried at market value and are held for the purpose of generating long-term rental yields and capital appreciation. The Trustees give consideration to the value of the investment property each financial year and revalue when a significant event occurs or when deemed appropriate. Where an external valuation has been obtained, the valuation is based on objective and supportable data and has been carried out by a property valuation service provider or qualified independent valuer as appropriate.

#### *Financial Liabilities*

The Fund initially recognises a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Financial liabilities including credit balances of hedging instruments and derivatives are measured at market values as at the reporting date. Any change in market values of the financial liabilities since the beginning of the reporting period shall be included in the profit or loss for the reporting period. As disposal costs are generally immaterial, unless otherwise stated, market value approximates fair value.

#### *Receivables and Payables*

Current assets such as accounts receivable, which are expected to be recovered within twelve months after the reporting period, are carried at nominal amounts which approximate the fair values.

Accounts payable are recognised when the Fund becomes obliged to make future payments resulting from the goods and services received, whether or not billed to the Fund and are carried at nominal amounts which are equivalent to fair values.

### **(g) Revenue Recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable. The following recognition criteria relate to the specific items of revenue the Fund receives:

#### *Interest*

The interest revenue is recognised by the Fund on a cash receipt basis, unless the Fund chooses the accrual method and the amount can be reliably measured by reference to the principal outstanding and using the effective interest rate of the instrument calculated at the acquisition or origination date.

#### *Dividend Revenue*

The entitlement to a dividend is based on the date the shares are quoted ex-dividend; the actual dividend revenue is recognised by the Fund when it is received.

#### *Distribution Revenue*

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distributions and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

#### *Rental Income*

Rent from investment properties is recognised by the Fund on a cash receipt basis.

#### *Movement in market values*

Changes in the market value of investments are determined as the difference between the market value at balance date or consideration received (if sold during the year) and the market value as at the prior year end or cost (if the investment was acquired during the period). All movements are recognised in the Operating Statement.

*This report should be read in conjunction with the accompanying compilation report.*

**THE VIVIENNE HALLMAN SUPER FUND**  
**Notes to the Financial Statements**  
**As at 30 June 2020**

*Contributions and Rollovers In*

Contributions and rollovers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

The financial report was authorised for issue on 25 June 2021 by the directors of the trustee company.

**Note 2 – Liability for Accrued Benefits**

The liability for accrued benefits represents the fund's present obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period. Changes in the Liability for Accrued Benefits are as follows:

	<b>Current</b>	<b>Previous</b>
<b>Liability for Accrued Benefits at beginning of period</b>	452,225	368,746
Benefits Accrued during the period	(947)	160,579
Benefits Paid during the period	(55,374)	(77,100)
<b>Liability for Accrued Benefits at end of period</b>	<b>395,903</b>	<b>452,225</b>

Any amount in the Unallocated Contributions account represent amounts that have been received by the fund from either the members of the fund or a third party but have not been allocated to any specific member as at the reporting date. It is the intention of the trustee to allocate any such amounts recorded as unallocated contributions within 28 days following the end of the month to specific fund member, which will increase the liability for members accrued benefits.

**Note 3 – Vested Benefits**

Vested benefits are benefits which are not conditional upon continued membership of the fund (or any factor other than resignation from the plan) and include benefits which members were entitled to receive had they terminated their fund membership as at the reporting period.

	<b>Current</b>	<b>Previous</b>
<b>Vested Benefits at beginning of period</b>	452,225	368,746
Benefits Accrued during the period	(947)	160,579
Benefits Paid during the period	(55,374)	(77,100)
<b>Vested Benefits at end of period</b>	<b>395,903</b>	<b>452,225</b>
