Performance of the Fund relative to the investment objective

The table below details the fund's annualised performance relative to the fund's benchmark index. Performance figures are provided for the period ending 30 June 2022. For the most up to date information on how the fund performed relative to its investment objective, please go to www.vanguard.com.au/etfperformance.

	1 Year (%) p.a.	5 Year (%) p.a.	Since inception (%) p.a.*
Total Return	-6.46	10.20	10.77
Benchmark	-6.52	10.12	10.65

* Fund inception: 18 November 2014

Performance is calculated to the last calendar day of the month. Total returns are after management costs and assume reinvestment of all income distributions. Index returns do not allow for management costs. Performance figures represent past performance. Past performance is not an indication of future performance.

Important information about the statement

As the ETF is a managed investment scheme, Vanguard is required to give you a statement showing the performance of your investment in dollars every year and within six months of you selling all of your ETF units.

ASIC has issued Class Order 13/1200, which grants relief to ETF issuers so that where a unitholder has acquired or disposed of ETF Units during the period and the ETF issuer does not know the price at which the ETF Units were transferred, annual statements and exit statements do not need to include the amounts paid in relation to the transfer or the return on investment during the reporting period.

As the ETF is traded on ASX, Vanguard does not have access to the price at which you bought or sold your ETF units, the date when you traded or any brokerage costs, commissions or the spread between the bid and ask price. You can obtain this information from your broker or financial adviser. For this reason, if you purchased or sold ETF units during the period, your statement does not include the price of your ETF units or your investment return in dollars for this period.

To assess the performance and impact of fees and costs on your investment, in addition to this periodic statement, you need to consider:

- market prices for the ETF units when you bought or sold the units (available from your broker or financial adviser); and
- information you have been provided by your broker about brokerage costs, commissions and the spread between the bid price and the ask price.

This is not a statement of returns for tax purposes.

We will send you a separate taxation statement which contains the information you may need to complete your tax return.

Please retain this statement as a charge may be levied for a replacement.
