NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2019

NOTE 1 - ACCOUNTING POLICIES

- (a) This special purpose financial report has been prepared for distribution to the members to satisfy the trustee's accountability requirements. The accounting policies used in the preparation of this report are consistent with previous years unless otherwise stated.

(b) Measurement of Assets

Assets of the plan have been measured at net market values after allowing for costs of realisation. Changes in the net market value of assets are brought to account in the operating statement in the periods in which they occur.

Net market values have been determined as follows:

- (i) Shares in listed companies, government and other fixed interest securities by reference to the relevant market quotations at the reporting date;
- (ii) Mortgage loans by reference to the outstanding principal of the loans;
- (iii) Units in managed funds by reference to the unit redemption price at the reporting date;
- (iv) Insurance policies by reference to an actuarial assessment of the amount receivable from the insurer in respect of the policy; and
- (v) Plant and equipment at trustees' assessment of their realisable value.

(c) Liability for Accrued Benefits

The liability for accrued benefits is the plan's current obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the sundry liabilities and income tax liabilities at reporting date.

(d) Vested Benefits

Vested benefits are benefits which are not conditional upon continued membership of the Fund and include benefits which members are entitled to receive had they terminated their membership of the fund at the reporting date.

(e) Income Tax Expense

The superannuation fund adopts the liability method of tax effect accounting whereby the income tax expense shown in the operating statement is based on the operating surplus or deficit adjusted for any permanent differences.

Timing differences which arise due to the different accounting periods in which items of revenue and expense are included in the determination of the benefits accrued as a result of operations and taxable income, are brought to account as either provision for deferred income tax or future income tax benefit at the tax rate applicable to superannuation funds.
