Certificate No. 276601.1

The Trustees
Morris Superannuation Fund

Dear Trustees,

SECTION 295-390 ACTUARIAL CERTIFICATE

This Actuarial Certificate is prepared for Morris Superannuation Fund for the financial year ending 30 June 2018. It complies with The Institute of Actuaries of Australia Professional Standard 406.

Information I have relied upon

This Actuarial Certificate relies upon information provided to us by your accountant on behalf of the Trustees of Morris Superannuation Fund. The key information I have relied upon is shown in Appendix 1.

You have stated that:

- Any assets segregated by election (using separate asset pools) have been removed from the data entered.
- The Fund has met the Minimum Pension Standards. That is, the required minimum amount has been withdrawn from the pension during the financial year.
- The types of pensions in the Fund include Allocated Pensions, Market-linked pensions, Term allocated pensions and Account based pensions. They do not include Defined Benefits pensions.
- The pensions valued meet the requirements to be considered Retirement Superannuation Income Streams under the Income Tax Assessment Act 1997.

My calculations have been based on draft financial statements. If any information provided, as shown in Appendix 1, changes materially then you should revise that information and obtain an updated Actuarial Certificate. If you don't have login details then you can contact Lime Actuarial to obtain your login details. There is no charge for updating your Actuarial Certificate.

Exempt proportion

The fund had unsegregated assets during these periods:

- 31 July 2017 to 30 June 2018

For the remainder of the year (if applicable), all assets were segregated. During the period where there were unsegregated assets, the exempt proportion of assessable income is calculated as follows:

	Start of year	End of year	Average
Unsegregated Retirement Income Stream Liabilities	\$0	\$108,135*	\$126,316
Unsegregated Superannuation liabilities	\$0	\$119,966*	\$138,144
Exempt Proportion			91.44%

*Estimate

The estimated net assets at 30 June 2018 were \$119,966.

The average liabilities are calculated with regard to all transactions taking place during the period in which there were unsegregated assets.

I certify that **91.44%** of investment income earned by the fund during the year ended 30 June 2018 and relating to unsegregated assets, is exempt from tax. The specific exempt percentages for each member are:

	Rosemary Morris	Mariette Morris	Reserves	Total
Tax exempt %	91.44%	0%	0.00%	91.44%
Taxable %	8.56%	0%	0.00%	8.56%

Adequacy

By definition, the value of assets and liabilities of account based income streams must be equal. Therefore I am satisfied that the value of assets at 30 June 2018 is sufficient to meet the fund's liabilities as they fall due.

Yours sincerely,

Greg Einfeld MEd, MBA
Fellow of the Institute of Actuaries of Australia

Conversions from TTR to Retirement Pension	Conversion of a TTR to a Retirement Pension when a member meets a condition of release.
Contribution Split	Contributions which are split from one spouse to another. The amount split will be up to 85% of the original concessional contribution. Note that the original concessional contribution will also be shown on this form if it took place in the same year.
Transfers from Reserves to Non Retirement	Transfer from reserve account to a member Accumulation account or TTR pension.
Transfers from Reserves to Retirement	Transfer from reserve account to a member TTR pension where a condition of release has been met or Account Based Pension.

APPENDIX 3: ASSUMPTIONS

I have assumed that all transactions occur before investment income is earned each day

No assumptions are required to calculate the rate of increase in pension liability and earning rate as by definition, the value of assets and liabilities of account based income streams must be equal.
