The accounting cost is the original cost base adjusted by any subsequent capital call/improvement or capital return transactions. In many cases, it is not the same as the adjusted or reduced cost base, or the reset cost base resulting from the CGT relief. To view the tax cost base and unrealised gain/(loss) for tax purposes refer to the Unrealised Capital Gains Report or change the report parameter to tax cost base.

۱,

Australian tax laws are complex and each unitholder's particular circumstances will be different. You should seek your own tax advice before taking any action based on this guide and consult your professional tax advisor for advice specific to your circumstances. This guide should be read in conjunction with the Australian Taxation Office's (ATO's) instructions and publications. The comments contained in this guide do not constitute legal, tax or financial planning advice. They are general in nature, offered on an informative basis only and are not intended to cover all of the potential tax consequences in relation to a particular unitholder. Certain items discussed in this guide may not apply to certain unitholders (for example, due to the unitholder's residency, entity type or some other factor).

The Fund is an Attribution Managed Investment Trust (AMIT) for the year ended 30 June 2022. Your AMMA Statement includes amounts attributed to you from the Fund relating to the year ended 30 June 2022. You may be required to include these amounts in your tax return for the 2022 financial year.

This AMMA Statement is prepared for an Australian resident individual investor who holds units in the Fund on a capital account. Unitholders should seek professional taxation advice in relation to this AMMA statement.

Part A - Your details

Part A are the details you provided and reported at the time this statement was generated.

Part B - Tax return information

Part B is a summary of the amounts attributed to you from the Fund that are relevant for the completion of your 2022 tax return. Depending on your circumstances, you may be able to copy the amounts from Part B of this AMMA statement to your corresponding labels of the Tax Return (Supplementary Section) 2022. The breakdown of the components is shown in Part C of your AMMA statement.

Part C - Component of attribution

This section of your AMMA Statement gives you a detailed breakdown of the cash paid to you and the amounts attributed to you. The information in Part C of your AMMA Statement may be required for you to complete other parts of your income tax return.

1. Australian income

The details provide a breakdown of Label 13U Non-primary production income and Label 13C Franked distributions from trusts. This information may be necessary for those investors who use the Application for refund of franking credits for individuals during 2022.

2. Capital gains

Capital gains discount - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) The capital gains tax (CGT) discount is generally available for gains on the disposal of investments that have been held for at least 12 months. These items are that part of the Fund's net capital gain that represents discount capital gains paid and attributed to you. Resident individuals and trusts (conditions apply) may be eligible for a 50% CGT discount and resident complying superannuation funds may be eligible for a 33.33% CGT discount. Companies are not eligible for the CGT discount.

Capital gains other - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) These items are capital gains paid and attributed to you in relation to the disposal of investments held by the Fund which are held for less than 12 months. The

CGT discount is not available in relation to such gains.

Net capital gains

This amount represents the taxable capital gains which is the sum of the capital gains (discounted and other methods) and any foreign tax paid on capital gains.

AMIT CGT gross up amount

This item shows the additional amount treated as capital gains of a unitholder under ss 276-85(3) and (4) of the Income Tax Assessment Act1997 (ITAA 1997), and is included in the AMIT cost base increase amount under s104-107E of the ITAA 1997. This amount is equal to the sum of the attribution column for Capital gains discount - Taxable Australian Property (TAP) and Capital gains discount - Non-Taxable Australian Property (NTAP).

Other capital gains distribution

Other capital gains distributions are shown in the Cash distribution column to represent the total amount of cash distributed in relation to all capital gains, other than the amounts already shown in the Cash distribution columns for Capital gains discount - NTAP & TAP and Capital gains other - NTAP & TAP.

Foreign income

The Foreign income section includes all foreign income except foreign capital gains. Foreign tax paid on foreign income (other than foreign capital gains) is also shown here.

4. Other non-assessable amounts and cost base details

Other non-assessable amounts have been divided into three categories depending on the nature of the amount. These amounts may not be immediately assessable for income tax purposes and may not be required to be included in your tax return. However, they may be relevant when determining any adjustment to the cost base of your unit holding and may be relevant in working out your gain/loss at the time you dispose of your units in the Fund.

Other non-attributable amounts

Other non-attributable amounts are cash distributions paid to you that exceed the attribution amount, to the extent they are not already shown in other components. These amounts are reflected in the calculation of the AMIT cost base net amount - excess or shortfall. It does not include Other capital gains distributions which are shown at the capital gains section.

AMIT cost base net amounts

Under the AMIT regime you are required to adjust your cost base of your units as follows: AMIT cost base net amount - excess (decrease). You must reduce the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - excess. A capital gain may also arise if your AMIT cost base net amount - excess is greater than your cost base of your units in the Fund. AMIT cost base net amount - shortfall (increase). You must increase the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - shortfall.

This guide has been prepared to assist you in completing your income tax return for the year ending 30 June 2022.

Australian tax laws are complex and each unitholder's particular circumstances will be different. You should seek your own tax advice before taking any action based on this guide and consult your professional tax advisor for advice specific to your circumstances. This guide should be read in conjunction with the Australian Taxation Office's (ATO's) instructions and publications. The comments contained in this guide do not constitute legal, tax or financial planning advice. They are general in nature, offered on an informative basis only and are not intended to cover all of the potential tax consequences in relation to a particular unitholder. Certain items discussed in this guide may not apply to certain unitholders (for example, due to the unitholder's residency, entity type or some other factor).

The Fund is an Attribution Managed Investment Trust (AMIT) for the year ended 30 June 2022. Your AMMA Statement includes amounts attributed to you from the Fund relating to the year ended 30 June 2022. You may be required to include these amounts in your tax return for the 2022 financial year.

This AMMA Statement is prepared for an Australian resident individual investor who holds units in the Fund on a capital account. Unitholders should seek professional taxation advice in relation to this AMMA statement.

Part A - Your details

Part A are the details you provided and reported at the time this statement was generated.

Part B - Tax return information

Part B is a summary of the amounts attributed to you from the Fund that are relevant for the completion of your 2022 tax return. Depending on your circumstances, you may be able to copy the amounts from Part B of this AMMA statement to your corresponding labels of the Tax Return (Supplementary Section) 2022. The breakdown of the components is shown in Part C of your AMMA statement.

Part C - Component of attribution

This section of your AMMA Statement gives you a detailed breakdown of the cash paid to you and the amounts attributed to you. The information in Part C of your AMMA Statement may be required for you to complete other parts of your income tax return.

1. Australian income

The details provide a breakdown of Label 13U Non-primary production income and Label 13C Franked distributions from trusts. This information may be necessary for those investors who use the Application for refund of franking credits for individuals during 2022.

2. Capital gains

Capital gains discount - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) The capital gains tax (CGT) discount is generally available for gains on the disposal of investments that have been held for at least 12 months. These items are that part of the Fund's net capital gain that represents discount capital gains paid and attributed to you. Resident individuals and trusts (conditions apply) may be eligible for a 50% CGT discount and resident complying superannuation funds may be eligible for a 33.33% CGT discount. Companies are not eligible for the CGT discount.

Capital gains other - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) These items are capital gains paid and attributed to you in relation to the disposal of investments held by the Fund which are held for less than 12 months. The CGT discount is not available in relation to such gains.

Net capital gains

This amount represents the taxable capital gains which is the sum of the capital gains (discounted and other methods) and any foreign tax paid on capital gains.

AMIT CGT gross up amount

This item shows the additional amount treated as capital gains of a unitholder under ss 276-85(3) and (4) of the Income Tax Assessment Act1997 (ITAA 1997), and is included in the AMIT cost base increase amount under s104-107E of the ITAA 1997. This amount is equal to the sum of the attribution column for Capital gains discount - Taxable Australian Property (TAP) and Capital gains discount - Non-Taxable Australian Property (NTAP).

Other capital gains distribution

Other capital gains distributions are shown in the Cash distribution column to represent the total amount of cash distributed in relation to all capital gains, other than the amounts already shown in the Cash distribution columns for Capital gains discount - NTAP & TAP and Capital gains other - NTAP & TAP.

3. Foreign income

The Foreign income section includes all foreign income except foreign capital gains. Foreign tax paid on foreign income (other than foreign capital gains) is also shown here.

4. Other non-assessable amounts and cost base details

Other non-assessable amounts have been divided into three categories depending on the nature of the amount. These amounts may not be immediately assessable for income tax purposes and may not be required to be included in your tax return. However, they may be relevant when determining any adjustment to the cost base of your unit holding and may be relevant in working out your gain/loss at the time you dispose of your units in the Fund.

Other non-attributable amounts

Other non-attributable amounts are cash distributions paid to you that exceed the attribution amount, to the extent they are not already shown in other components. These amounts are reflected in the calculation of the AMIT cost base net amount - excess or shortfall. It does not include Other capital gains distributions which are shown at the capital gains section.

AMIT cost base net amounts

Under the AMIT regime you are required to adjust your cost base of your units as follows:

AMIT cost base net amount - excess (decrease). You must reduce the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - excess. A capital gain may also arise if your AMIT cost base net amount - excess is greater than your cost base of your units in the Fund. AMIT cost base net amount - shortfall (increase). You must increase the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - shortfall (increase). You must increase the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - shortfall.

Your business accounts have changed

Hi Jo-Anne,

We're contacting you as the key contact we have on record for MCDAL PTY LTD ATF MCDAL SUPER FUND.

We recently wrote to you about changes to the Terms and Conditions for your entity's Business Optimiser. From time to time we review our products to ensure we can continue to offer a range of services to our customers. In order to maintain a savings offering for business customers we introduced a minimum balance criteria for our Business Optimiser and Business Term Deposit products.

Just a reminder, as of **13 April 2022** these changes are now in effect and they **may impact your** ability to continue to hold the account/s.

What's changed?

In case you missed it, from **13 April 2022**, to hold a Business Optimiser account, customers need to maintain a minimum total balance of \$50,000 or more combined across all Business Optimiser and/or Business Term Deposit accounts held in the same entity name.

The minimum balance is calculated on the total balance in any Business Optimiser account/s and/or Business Term Deposits held in the name of the same entity. This excludes any other accounts held with ING.

Your current account balance

As at 08 May 2022, the total balance in your entity's ING business account/s remains less than \$50,000.

Product name	Account number	Current balance
Business Optimiser	xxxxx261	\$0.52

Your business account/s are closing

Hi Jo-Anne,

We're contacting you as the key contact we have on record for MCDAL PTY LTD ATF MCDAL SUPER FUND.

Since we last contacted you about the minimum balance requirements for your Business Optimiser account/s, the total balance in your ING Business Optimiser account/s has remained less than \$50,000.

As at **08 June 2022**, this is where your account/s stand.

Product name	Account number	Current balance	
Business Optimiser	xxxxx261	\$0.52	
Total balance as at 08 June	2022	\$0.52	

Note: We are giving you factual information only about your entity's ING account/s. This information is not intended to imply any recommendation or opinion about those accounts. You may want to speak to a financial adviser about this.

What happens now?

If the total combined balance of your entity's business remains below the minimum balance of \$50,000 by **22 July 2022**, each of the account/s above will be restricted and we will begin steps to close them. This is in accordance with our product Terms and Conditions.

If you wish to stop your accounts being closed, you will need to ensure that the total balance across your Business Optimiser and/or Business Term Deposit account/s in the entity name is \$50,000 or more by **22 July 2022**.

If you do not meet the minimum balance requirement by 22 July 2022, your account/s will be restricted and then closed shortly after, and any balance will be returned to you within 30 days of account closure.

Some benefits and features of your cover change at certain ages

Some benefits and features of your cover change or end at certain ages. This reminder includes a summary, but please check your PDS and policy schedule to make sure you understand the impact of any changes.

• You can increase cover without health assessment under the Future insurability features up to the policy anniversary when the life insured is 54.

An Inflation protection increase has been applied to your policy

Your policy has in-built inflation protection to help maintain the value of your cover over time. If you opt out of inflation protection, your future insurance cover might not give you the same real value as it would today. You don't have to accept the increase. If you'd like to maintain the same cover amount, or arrange a lower cover increase, please contact your local insurance specialist on 131 551 before the next due date so that we can reduce your premium.

Benefits of your policy

Some of the features of your policy include:

- Guaranteed renewal of your policy terms up until the expiry date, regardless of any change in health.
- Worldwide cover 24 hours a day, seven days a week.
- Cover increase without health evidence. For example if you've had a baby, a child start secondary school or a new mortgage you may be eligible for an increase in cover.

Good news, we've made some improvements which affect the cover provided under your policy. Please refer to the information about the changes set out under the heading 'Upgrades to your policy'.

The Life insurance code of practice is our promise to you

When you take out life insurance, it's important that you get the highest standards of service in all your dealings with us. That's why we've adopted the Life Insurance Code of Practice. It's the life insurance industry's commitment to mandatory customer service standards and it's designed to protect you, our customer. The Code can be found at **fsc.org.au**.

Upgrades to your policy effective from 29 March 2021

We continue to find ways to improve the terms of your policy. As your policy includes a guarantee of upgrade provision, the following changes apply to you automatically from 29 March 2021.

- We've updated the automatic reinstatement provision in your policy, allowing you 30 days to reinstate cover without assessment if you cancel it, provided you request reinstatement in writing and pay the outstanding premiums. If the cover is reinstated in this period, no benefits will be paid for an event which occurs or is apparent while the policy is cancelled.
- The Premium holiday feature has been re-named to better reflect the effect of pausing cover. This feature allows a break in cover (maximum of 12 months over the life of the policy) to ease financial pressure and is now known as Cover suspension. The feature is otherwise unchanged. Visit **zurich.com.au/existingcustomers** to access the Cover suspension application form which includes the terms and conditions.

At each anniversary, different factors can affect your premium

Your life insurance cover represents our promise to be there for you when it matters most, should you need to submit a claim. Maximising our ability to pay claims remains our unwavering priority and means our premium rates must reflect the true cost of providing that protection. Our premium rates aren't guaranteed and can change. If you'd like to know more about why premiums increase, please visit **zurich.com.au/lifepremiums**.

The in-built management fee increases annually on the anniversary of the policy.

Inflation protection applies

As we get older, the risk of death and illness generally increases and this is reflected in the cost of providing cover. Unless you have declined inflation protection, your cover amount will automatically be increased each year to ensure you're protected. We'll use the life insured's age at the date of the increase to calculate the cost of the extra cover.

You are currently paying: yearly via direct debit

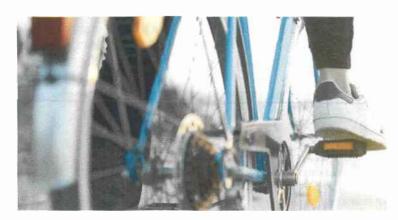

We offer different payment options to suit you, whether it's monthly, quarterly, half-yearly or annually. Don't forget it's cheaper to pay annually.

Have your circumstances changed?

We understand that life's unpredictable. Fortunately, we're here to help. While we can't provide financial advice, we can alert you to features in your policy that could benefit you if you want to make changes or if you are finding it ficult to keep up with your premium payments.

In policy provides valuable insurance cover that will not change due to changes in health or pastimes. If you decide to cancel and apply for a replacement policy, the duty of disclosure will apply again and the new policy will be based on health and other circumstances at that time. A new policy may not cover conditions existing at that time which could result in you not being covered, paying a higher premium or having less comprehensive cover.

Contact your local insurance specialist today so we can ensure you remain protected without leaving yourself or your family financially vulnerable.

Bob's one of many Australians we've helped. This is his story.

In the early 90s my financial adviser suggested that I get life insurance. I thought it made sense, if something happens to me I want the family to be ok, as I was the sole provider.

One year off my retirement and I got the diagnosis of advanced metastatic prostate cancer. And as it was in the bones, it was too late for treatment of any kind. I called my adviser and shortly after the Zurich team contacted me, keeping me in the loop right through the claims process. It was actually the simplest part of all this and we had the money less than two weeks from when we lodged the paperwork. I now look back on how important that day was where Barry advised me to go with a Zurich life insurance policy which in the end paid an early claim, allowing me to leave my family financially stable.

Figures frictude claims paid for policies sold through an adviser, directly and through superannuation.

On 1 June 2022, BHP Group Limited paid an in specie dividend of Woodside Energy Group Ltd shares (**Woodside shares**). The statement below represents the Woodside shares distributed to you or your entitlement to the Woodside shares (if you were a Selling Shareholder or an Ineligible Overseas Shareholder), based on the fully paid ordinary shares in BHP Group Limited registered in your name as at the Record Date. The value of the in specie dividend was based on the closing price of Woodside shares on 31 May 2022 (**Woodside closing price**). This dividend has been franked in Australia at a rate of 100% and the company tax rate used to determine the franking credit is 30%.

*BHP shareholders were entitled to receive one Woodside share for every 5.5340 BHP shares. BHP shareholders were entitled to a whole number of Woodside shares, with any entitlement to a fraction of a Woodside share that would have otherwise arisen being rounded down to the nearest whole number.

Tax information

A general summary of relevant taxation implications, including the tax outcomes of the in specie dividend for BHP shareholders, is outlined in Appendix 1 of the BHP ASX announcement dated 8 April 2022 which can be located at bhp.com/petroleum.

As this summary is general in nature, this information does not take into account the individual circumstances of particular holders and does not constitute tax advice. It is intended as a general guide only and holders should seek independent taxation advice on the tax implications based on their own individual circumstances.

For US tax resident shareholders, the market value of the in specie dividend will need to be converted into US dollars. The exchange rate used by BHP to determine the quantum of the in-specie dividend in US\$ was AUD/USD 0.7187.

For UK tax resident shareholders, the market value of the in specie dividend will need to be converted into British Pounds in accordance with a method prescribed for UK tax purposes.

Part A - Your details

Part A are the details you provided and reported at the time this statement was generated.

Part B - Tax return Information

Part B is a summary of the amounts attributed to you from the Fund that are relevant for the completion of your 2022 tax return. Depending on your circumstances, you may be able to copy the amounts from Part B of this AMMA statement to your corresponding labels of the Tax Return (Supplementary Section) 2022. The breakdown of the components is shown in Part C of your AMMA statement.

Part C - Component of attribution

This section of your AMMA Statement gives you a detailed breakdown of the cash paid to you and the amounts attributed to you. The information in Part C of your AMMA Statement may be required for you to complete other parts of your income tax return.

1. Australian income

The details provide a breakdown of Label 13U Non-primary production income and Label 13C Franked distributions from trusts. This information may be necessary for those investors who use the Application for refund of franking credits for individuals during 2022.

2. Capital gains

Capital gains discount - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) The capital gains tax (CGT) discount is generally available for gains on the disposal of investments that have been held for at least 12 months. These items are that part of the Fund's net capital gain that represents discount capital gains paid and attributed to you. Resident individuals and trusts (conditions apply) may be eligible for a 50% CGT discount and resident complying superannuation funds may be eligible for a 33.33% CGT discount. Companies are not eligible for the CGT discount.

Capital gains other - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) These items are capital gains paid and attributed to you in relation to the disposal of investments held by the Fund which are held for less than 12 months. The CGT discount is not available in relation to such gains.

Net capital gains

This amount represents the taxable capital gains which is the sum of the capital gains (discounted and other methods) and any foreign tax paid on capital gains.

AMIT CGT gross up amount

This item shows the additional amount treated as capital gains of a unitholder under ss 276-85(3) and (4) of the Income Tax Assessment Act 1997 (ITAA 1997), and is included in the AMIT cost base increase amount under s104-107E of the ITAA 1997. This amount is equal to the sum of the attribution column for Capital gains discount - Taxable Australian Property (TAP) and Capital gains discount - Non-Taxable Australian Property (NTAP).

Other capital gains distribution

Other capital gains distributions are shown in the Cash distribution column to represent the total amount of cash distributed in relation to all capital gains, other than the amounts already shown in the Cash distribution columns for Capital gains discount - NTAP & TAP and Capital gains other - NTAP & TAP.

3. Foreign income

The Foreign income section includes all foreign income except foreign capital gains. Foreign tax paid on foreign income (other than foreign capital gains) is also shown here.

4. Other non-assessable amounts and cost base details

Other non-assessable amounts have been divided into three categories depending on the nature of the amount. These amounts may not be immediately assessable for income tax purposes and may not be required to be included in your tax return. However, they may be relevant when determining any adjustment to the cost base of your unit holding and may be relevant in working out your gain/loss at the time you dispose of your units in the Fund.

Other non-attributable amounts

Other non-attributable amounts are cash distributions paid to you that exceed the attribution amount, to the extent they are not already shown in other components. These amounts are reflected in the calculation of the AMIT cost base net amount - excess or shortfall. It does not include Other capital gains distributions which are shown at the capital gains section.

AMIT cost base net amounts

Under the AMIT regime you are required to adjust your cost base of your units as follows:

AMIT cost base net amount - excess (decrease). You must reduce the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - excess. A capital gain may also arise if your AMIT cost base net amount - excess is greater than your cost base of your units in the Fund. AMIT cost base net amount - shortfall (increase). You must increase the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - excess is greater than your cost base of your units in the Fund. amount - shortfall.

This guide provides general information and has been prepared to assist you in understanding the various components of the Attribution Managed Investment Tru. Member Annual (AMMA) Statement which you have received from the Fund in relation to the year ended 30 June 2022. This guide has been prepared to assist you in completing your income tax return for the year ending 30 June 2022.

Australian tax laws are complex and each unitholder's particular circumstances will be different. You should seek your own tax advice before taking any action based on this guide and consult your professional tax advisor for advice specific to your circumstances. This guide should be read in conjunction with the Australian Taxation Office's (ATO's) instructions and publications. The comments contained in this guide do not constitute legal, tax or financial planning advice. They are general in nature, offered on an informative basis only and are not intended to cover all of the potential tax consequences in relation to a particular unitholder. Certain items discussed in this guide may not apply to certain unitholders (for example, due to the unitholder's residency, entity type or some other factor).

The Fund is an Attribution Managed Investment Trust (AMIT) for the year ended 30 June 2022. Your AMMA Statement includes amounts attributed to you from the Fund relating to the year ended 30 June 2022. You may be required to include these amounts in your tax return for the 2022 financial year.

This AMMA Statement is prepared for an Australian resident individual investor who holds units in the Fund on a capital account. Unitholders should seek professional taxation advice in relation to this AMMA statement.

Part A - Your details

Part A are the details you provided and reported at the time this statement was generated.

Part B - Tax return information

Part B is a summary of the amounts attributed to you from the Fund that are relevant for the completion of your 2022 tax return. Depending on your circumstances, you may be able to copy the amounts from Part B of this AMMA statement to your corresponding labels of the Tax Return (Supplementary Section) 2022. The breakdown of the components is shown in Part C of your AMMA statement.

Part C - Component of attribution

This section of your AMMA Statement gives you a detailed breakdown of the cash paid to you and the amounts attributed to you. The information in Part C of your AMMA Statement may be required for you to complete other parts of your income tax return.

1. Australian income

The details provide a breakdown of Label 13U Non-primary production income and Label 13C Franked distributions from trusts. This information may be necessary for those investors who use the Application for refund of franking credits for individuals during 2022.

2. Capital gains

Capital gains discount - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) The capital gains tax (CGT) discount is generally available for gains on the disposal of investments that have been held for at least 12 months. These items are that part of the Fund's net capital gain that represents discount capital gains paid and attributed to you. Resident individuals and trusts (conditions apply) may be eligible for a 50% CGT discount and resident complying superannuation funds may be eligible for a 33.33% CGT discount. Companies are not eligible for the CGT discount.

Capital gains other - Taxable Australian Property (TAP) and Non-Taxable Australian Property (NTAP) These items are capital gains paid and attributed to you in relation to the disposal of investments held by the Fund which are held for less than 12 months. The CGT discount is not available in relation to such gains.

Net capital gains

This amount represents the taxable capital gains which is the sum of the capital gains (discounted and other methods) and any foreign tax paid on capital gains.

AMIT CGT gross up amount

This item shows the additional amount treated as capital gains of a unitholder under ss 276-85(3) and (4) of the Income Tax Assessment Act1997 (ITAA 1997), and is included in the AMIT cost base increase amount under s104-107E of the ITAA 1997. This amount is equal to the sum of the attribution column for Capital gains discount - Taxable Australian Property (TAP) and Capital gains discount - Non-Taxable Australian Property (NTAP).

Other capital gains distribution

Other capital gains distributions are shown in the Cash distribution column to represent the total amount of cash distributed in relation to all capital gains, other than the amounts already shown in the Cash distribution columns for Capital gains discount - NTAP & TAP and Capital gains other - NTAP & TAP.

3. Foreign income

The Foreign income section includes all foreign income except foreign capital gains. Foreign tax paid on foreign income (other than foreign capital gains) is also shown here.

4. Other non-assessable amounts and cost base details

Other non-assessable amounts have been divided into three categories depending on the nature of the amount. These amounts may not be immediately assessable for income tax purposes and may not be required to be included in your tax return. However, they may be relevant when determining any adjustment to the cost base of your unit holding and may be relevant in working out your gain/loss at the time you dispose of your units in the Fund.

Other non-attributable amounts

Other non-attributable amounts are cash distributions paid to you that exceed the attribution amount, to the extent they are not already shown in other components. These amounts are reflected in the calculation of the AMIT cost base net amount - excess or shortfall. It does not include Other capital gains distributions which are shown at the capital gains section.

AMIT cost base net amounts

Under the AMIT regime you are required to adjust your cost base of your units as follows:

AMIT cost base net amount - excess (decrease). You must increase the cost base net amount - excess is greater than your cost base of your units in the Fund by the AMIT cost base net amount - excess is greater than your cost base of your units in the Fund. AMIT cost base net amount - shortfall (increase). You must increase the cost base and reduced cost base of your units in the Fund by the AMIT cost base net amount - shortfall.

Notes:

If the abbreviations NCMI, ExNCMI or CBMI appear on the statement these refer to the following:

- NCMI Non-Concessional MIT Income under Section 12-435 of Schedule 1 of the Taxation Administration Act 1953 ("TAA 1953")
 ExNCMI Amounts that are excluded from NCMI due only to one of the following provisions of Schedule 1 TAA 1953: Subsection 12-437(5) (Approved economic infrastructure facility), Section 12-440 (Transitional MIT cross staple arrangement income), Section 12-447 (Transitional MIT trading trust income), Section 12-449 (Transitional MIT agricultural income) or Section 12-451 (Transitional MIT residential housing income)
- CBMI Amounts that are, or are attributable to, fund payments from a Clean Building MIT as defined in Section 12-425 of Schedule 1 TAA 1953

NCMI/ExNCMI/CBMI information may be relevant in relation to payments made to a place outside Australia. Fund Payments may comprise NCMI, ExNCMI and/or CBMI and may be subject to different rates of non-resident withholding tax depending on the address or place for payment of the recipient and depending on the Investor Type.

"Franked distributions", if any, include franking credits in relation to those franked distributions. The amount of such franking credit will not necessarily be equal to any amount shown as the Franking Credit Tax Offset.

"Other assessable Australian income" excludes such income comprising NCMI/ExNCMI/CBMI which is shown separately if relevant.

"Discounted capital gain TARP" excludes discounted capital gains comprising NCMI/ExNCMI/CBMI which are shown separately if relevant.

"Capital gain other – TAP" excludes capital gains comprising NCMI/ExNCMI/CBMI which are shown separately if relevant. Any amounts shown as tax deducted from the Gross Cash Distribution do not include any amounts of tax payable in relation to any deemed payments (refer Non-resident Reporting section below for amounts in relation to deemed payments).

"Assessable foreign source income", if any, is grossed-up for any foreign income tax paid in relation to that foreign income. The amount of such foreign income tax paid will not necessarily be equal to any amount shown as the Foreign Income Tax Offset.

"Australian franking credits from a NZ company", if any, is the amount of Australian franking credits that comprises assessable income in relation to dividends from New Zealand franking companies. The related tax offset is the same amount.

"Other non-attributable amounts" are not included in the unitholder's income tax return and should not be used to adjust the unitholder's cost base. Cost base adjustments are stated separately in Part C.

"Foreign resident withholding tax (12-H)/Income Tax (s276-105)" - If Managed Investment Trust withholding tax is applicable to your investment, this is the sum of the amounts withheld from fund payments made for the year ended 30 June pursuant to Subdivision 12-H and Subdivision 12A-B of Schedule 1 TAA 1953. Otherwise tax may be payable under Section s276-105 of the Income Tax Assessment Act 1997. In addition these amounts will include recoupment of any such tax amounts not deducted from previous distributions. Any such recoupment amounts are also shown separately under the amount of the "Net cash distribution".

"Franking Credit Tax Offset" shows the amount of the Franking Credit Tax Offset other than the tax offset for Australian franking credits from New Zealand franking companies, which is shown separately, if relevant, in the "Foreign Income" section.

"AMIT cost base net amount" - cost base net amount is an estimation of the adjustment to the unitholder's cost base assuming that the unitholder held the units for the full year and assuming that the unitholder is a resident individual for the income year and is not entitled to any tax exemption in relation to the income. Generally, under the AMIT regime, unitholders must (a) increase the cost base in their Fund units by their share of the AMIT's assessable income (including capital gains) and non-assessable non-exempt income and (b) decrease the cost base in their Fund units by the gross cash distribution amount distributed to them, including tax offsets. Any amount of an "AMIT cost base net amount - excess" may give rise to a capital gain or assessable amount if it exceeds the cost base of the investment. Investors should consider consulting with their tax advisor to determine any implications.

Non-resident Reporting information may be relevant to an investor who is a non-resident, an investor who is a custodian or an investor who is holding on behalf of a non-resident.

Any amount shown as "Non-resident withholding amount" comprises the amounts of dividends and/or interest (subject to non-resident withholding tax) based on information taken into account when distributions were made. Amounts taken into account when distributions were made may differ to the attribution amounts for the year as a whole.

"Managed Investment Trust Fund Payment (Other)", if any, is the amount of the Fund Payments under Subdivision 12-H and Subdivision 12-AB of Schedule 1 TAA 1953 for the year in relation to actual and deemed payments other than Fund Payments of NCMI, ExNCMI or CBMI (and the related non-resident withholding tax amount).

"Managed Investment Trust Fund Payment (Total)", if any, is the total amount of Fund Payments under Subdivision 12-H and Subdivision 12-AB of Schedule 1 TAA 1953 for the year in relation to actual and deemed payments (and the related non-resident withholding tax amount).

"Deemed Payment - Fund Payment (Other)", if any, is the deemed payment that is a Fund Payment under Subdivision 12-AB of Schedule 1 TAA 1953 (and the related non-resident withholding tax amount) other than Deemed Payment - Fund Payments of NCMI, ExNCMI or CBMI (and the related non-resident withholding tax amount).

"Deemed Payment - Fund Payment (Total)", if any, is the total amount of the deemed payment that is a Fund Payment under Subdivision 12-AB of Schedule 1 TAA 1953 (and the related non-resident withholding tax amount).

Resident Reporting information: "Deemed Payment - (for TFN withholding purposes)" includes information of any deemed payments which may be subject to withholding tax if a Tax File Number or Australian business number has not been provided.

Non-resident withholding tax and 'no TFN' withholding

Any outstanding non-resident withholding tax or 'no TFN' withholding amounts may be deducted from future cash distributions or redemption proceeds.

If you choose to use a tax agent to prepare your income tax return, please advise them to rely on the information in this statement rather than information that may be displayed in the tax agent's pre-filling service.

Dear Investor

2022 Attribution Managed Investment Trust ("AMIT") Member Annual Statement ("AMMA Statement")

Please find enclosed your Attribution Managed Investment Trust ("AMIT") Member Annual Statement ("AMMA Statement") in respect of your investment in the Platinum Trust Funds ("Funds"). If you are invested in more than one Fund, we have for convenience also enclosed a summary report which consolidates the AMMA Statements.

The distibution amount attributed to you is primarily influenced by the:

- level of realised gains made on equities; and

- level of realised gains made on derivative contracts (including currency hedging contracts).

Some further information is provided below on the components titled "Australian Source Income", "Foreign Source Income" and "Capital Gains - NTAP", which may appear on the AMMA Statement:

Australian Source Income:

- a) Franked Dividends represents franked dividend income after allocation of deductions. The franking credit tax offset amount is the amount of franking credits excluding any deductions. Franked dividend income may be less than the franking credit tax offset due to deductions.
- b) Other Income includes gains relating to derivative contracts.

Foreign Source Income:

c) Foreign Source Income - includes non-AUD interest, dividends and gains relating to derivative contracts.

Capital Gains - Non-Taxable Australian Property (NTAP):

- d) Other represents capital gains realised on assets disposed of and not held for more than 12 months.
- e) Discount represents 50% of the capital gains on disposal of assets that have been held for more than 12 months.
- f) Other Capital Gains Distribution represents the total amount of cash distributed in relation to all capital gains not already reflected in the capital gain amounts above.
- g) AMIT CGT Gross Up Amount the gross up of the Discount Capital Gains.
- h) Offset for Capital Gains NTAP capital gains tax may be applied by foreign tax authorities on disposals of investments held in the relevant foreign jurisdiction. Where such amounts are applied, investors may be entitled to a foreign income tax offset in respect of the taxes paid. Such tax offsets have been recorded against capital gains NTAP in the AMMA Statement.

The tax treatment of capital gains and losses is complex, and how it applies to you will depend on the type of taxpayer that you are (e.g. an individual, superannuation fund, trust or company) and your specific tax circumstances.

If you elected the 'fixed cash distribution' option*, a Fixed Cash Distribution Summary is enclosed and sets out how this option was applied to your distribution.

We have also prepared some information in relation to the completion of your 2022 tax return. The information is enclosed with this letter and your AMMA Statement. The information has been prepared with only Australian tax resident individuals in mind and assumes that the Platinum Trust Funds are your only investment. It is not relevant for superannuation funds, trusts or corporations. Neither this letter nor the additional information, constitute taxation advice or any other professional advice. Platinum strongly recommends that you obtain professional advice from an accountant or tax adviser regarding the completion of your 2022 tax return and your particular tax circumstances.

Please also note that if you withdrew any units in one or more of the Funds during the period 1 July 2021 to 30 June 2022, you will shortly receive a separate Withdrawal Capital Gains Tax (CGT) Statement showing a summary of your capital gains and losses for the 2022 financial year.

If you have further questions, please contact Platinum's Investor Services on 1300 726 700 (Australia only), 02 9255 7500 or email, invest@platinum.com.au

Yours faithfully

Jula

You should also refer to the ATO guides 'Guide to capital gains tax 2022', 'Personal investors guide to capital gains tax 2022', 'Foreign income return form guide 2022' and 'Guide to foreign income tax offset rules 2022'.

¹ The 'Other Net Foreign Source Income' is derived by taking the amount in 20E 'Assessable Foreign Source Income' and deducting any expenses applied against the 'Assessable Foreign Source Income'. It assumes that you have no deductible expenses to apply against the 'Assessable Foreign Source Income'. As a result, 'Other Net Foreign Source Income' is the same as the 'Assessable Foreign Source Income'.

If you have deductible expenses applied against the 'Assessable Foreign Source Income' you should follow the instructions in the 'Individual tax return instructions supplement 2022'.

If you have derived foreign income or losses from other sources, the above amounts should be adjusted in order to take such additional income or losses into account.

² The amount of 'Foreign Income Tax Offsets' you are entitled to will depend on the amount of foreign tax offsets you have received from all sources. If the amount does not exceed \$1,000, you should be entitled to an offset for the full amount received. If the amount is more than \$1,000 you should do one of the following: * simply claim a tax offset of \$1,000; or

* calculate the amount of foreign income tax offset to which you are entitled. Refer to the ATO publication 'Guide to foreign income tax offset rules 2022'.

³ It is assumed that you have no brought forward Capital Losses and no other Capital Gains Tax (CGT) events such as sale of shares, sale of units in managed funds or distributions from managed funds in the 2021/2022 financial year.

If this is not the case and you are an individual Australian tax resident, you should refer to the ATO publications 'Guide to capital gains tax 2022' and 'Personal investors guide to capital gains tax 2022' for guidance on calculating your gross capital gain and net capital gain or loss for the 2021/2022 financial year.

We understand that the financial information provided to us when applying for this certificate may be unaudited. Should the financial information provided to us change, as a result of audit or otherwise, this may affect the results of our calculations and we recommend you apply for an amended certificate. In addition to relying on the data provided to us, we have made the following assumption when completing this actuarial certificate:

• Member Two commenced an account-based pension with their entire accumulation balance on 1 July 2021 allowing for any transactions that occurred on that date, with a purchase price of \$772,108.24.

The information provided to us indicated that this Fund had disregarded small fund assets, as defined in section 295.387 of the ITAA 1997. The Fund therefore had no segregated current pension assets or segregated noncurrent assets and could not use the segregated method to claim exempt current pension income during the income year.

Minimum pension standards

Based on the information provided, the Fund contains only accumulation and account-based type income stream benefits (commonly referred to as pensions). These include allocated pensions, market linked pensions, and account-based income streams (including transition to retirement pensions). The Fund contains no other types of income stream benefits such as defined benefits in growth or pension phase.

The Superannuation Industry Supervision (SIS) Regulations for account-based income streams include a requirement for a minimum amount to be paid to the member over the year depending on the member's age, opening account balance date of commencement. Where the minimum pension standards are not met the earnings on the assets supporting that income stream may not be eligible for an exemption from income tax, and the exempt income proportion shown in this certificate may not be correct. It was confirmed upon submission of the data for this report that all assets shown as supporting retirement phase superannuation income streams are eligible for an exemption from income tax by virtue of having met the minimum pension standards for the Income year. We have not checked that this is the case and recommend that the Fund's auditor satisfies him or herself that the relevant standards have been met.

Segregated current pension assets

Section 295.385 of the ITAA 1997 defines segregated current pension assets as those assets that are set aside to solely support retirement phase income streams. Assessable income (excluding non-arm's length income and assessable contributions) earned on these assets is exempt from income tax.

Guidance from the Australian Tax Office states that where a fund's only superannuation liabilities are in respect of account-based retirement phase income streams at a particular point in time, the fund's assets are deemed to be segregated current pension assets. The eligible income earned during a period where a fund is 100% in retirement phase is therefore exempt from tax under the segregated method.

However, as long as the fund was not solely in retirement phase for the entire income year, trustee(s) can choose to treat periods of the year where the fund is 100% in retirement phase as unsegregated and therefore claim exempt income solely using the proportionate method. Trustee(s) must choose to claim exempt income in this manner as, if no choice is made, periods which are 100% in retirement phase must claim exempt income under the segregated method.

An exception to the above is where a fund has disregarded small fund assets and is therefore unable to use the segregated method. Disregarded small fund assets are defined under section 295.387 of ITAA 1997 and apply where an SMSF or small-APRA fund have a retirement phase income stream in an income year and at the previous 30 June:

- A member of the fund had a total superannuation balance (including accounts outside that fund) of over \$1.6 million, and
- That member was the recipient of a retirement phase income stream in any fund.

A fund will not have disregarded small fund assets if all fund assets were solely supporting retirement phase interests for the entire income year.

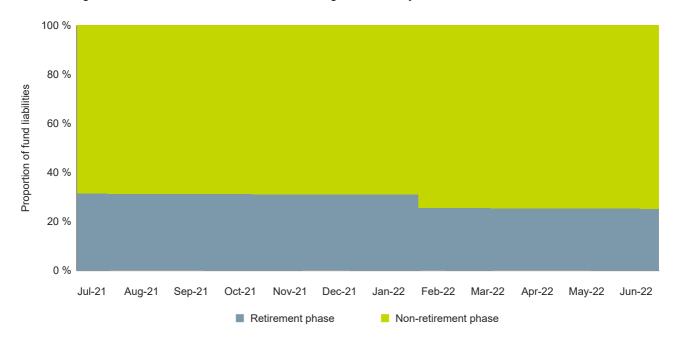

Based on the information provided, our calculations assume that:

 The Fund had disregarded small fund assets for the 2022 income year and therefore had no segregated current pension assets.

Segregated non-current assets

Segregated non-current assets as defined in section 295.395 of ITAA 1997 are those assets set aside solely to support non-retirement phase superannuation liabilities such as accumulation interests. A separate actuary's certificate is required in order to segregate such assets. We understand that the Fund had no segregated non-current assets during the income year.

Illustration of liabilities

The following chart illustrates the Fund's liabilities during the income year:

The green non-retirement phase liabilities represent accumulation interests, reserves and non-retirement phase transition to retirement income streams in the Fund over the income year. The grey unsegregated retirement phase liabilities represent retirement phase income streams that were not segregated current pension assets.

The liabilities shown in grey and green are those that are used to calculate the exempt income proportion. These liabilities are known as 'unsegregated' and eligible income earned on assets supporting these liabilities will claim ECPI based on the exempt income proportion in this actuarial certificate.

Exempt income proportion

Superannuation funds claiming exempt current pension income ("ECPI") under section 295.390 of the ITAA 1997, known as the proportionate or unsegregated method, are required to obtain an actuary's certificate prior to lodgement of the fund's income tax return. The proportion of the applicable income, excluding income earned on segregated current pension assets and segregated non-current assets, for the year ending 30 June 2022 that should be exempt from income tax is calculated as follows:

Average value of current pension liabilities		\$760,399		
	=		=	28.414%
Average value of superannuation liabilities		\$2,676,180		

Within the requirements of legislation and the Fund's Trust Deed and Rules, the Trustees may have discretion about how income and expenses are allocated at the member level. We have not checked the terms of the Fund's Trust Deed and Rules. The daily weighted average calculation of the exempt income proportion provides a fair and reasonable method of apportioning these items between the member accounts at year end for income earned on assets that are not segregated assets and is provided below:

	Member 1	Member 2	Fund
Exempt income proportion	0.000%	28.414%	28.414%
Non-exempt income proportion	65.272%	6.314%	71.586%

The above proportions are unlikely to be appropriate for allocating income earned on segregated assets.

Calculating the fund's exempt current pension income for the purpose of your tax return

The exempt income proportion is applied to net ordinary assessable income including net capital gains, but excluding assessable contributions, non-arm's length income and income including capital gains or losses derived from any segregated assets. The Trustee would calculate ECPI as follows:

Total ECPI = Eligible income * Exempt income proportion + Income on segregated current pension assets

Unutilised capital losses (except capital losses on segregated current pension assets) can be carried forward until they can be offset against assessable capital gains.

Adequacy opinion and methodology

By definition, the liabilities of an account-based member interest or reserve at a particular time, in the absence of any unusual terms or guarantees, are equal to the value of the assets backing it. Therefore no specific assumption has been made (or is needed) regarding rates of return on the Fund's assets; pension increases; or the liability calculation discount rate. As such, I am satisfied that the amount of the assets at the end of the year, if accumulated together with the Fund's future earnings and contributions, will provide the amount required to discharge in full the liabilities as they fall due. No recommendation is needed with regard to future contributions.

The average values used in the exempt income proportion are determined using a daily weighted average calculation which takes into account relevant information such as the opening balances of each member account, any reserves, and the size and timing of any member transactions during the income year. Unless otherwise stated, all member transactions including pension commencements and commutations are assumed to occur immediately at the start of each day. More information on the methodology used can be found at https://portal.accurium.com.au/content/certs/methodology-guide.pdf

Methods for apportioning expenses

A superannuation fund can generally deduct expenses to the extent they were incurred in producing assessable income. Where an expense can be attributed to solely producing assessable income then it can be deducted from assessable income it its entirety. Where it is solely attributable to non-assessable income it is entirely non-deductible. However, expenses that cannot be attributed to solely producing exempt income or solely producing assessable income need to be apportioned to determine how much can be deducted.

A fair and reasonable approach must be used to determine what proportion of such an expense can be deducted. A common industry approach has used the tax exempt proportion provided in the fund's actuarial certificate to determine an appropriate deductibility proportion as follows:

Expense deductibility proportion = 1 – actuarial exempt income proportion

This generally represents the proportion of fund's total income that is assessable during an income year. It is therefore a fair and reasonable approach to apportioning an expense that relates to the whole fund for that income year.

However, superannuation liabilities supported by segregated current pension assets are excluded from the actuarial exempt income proportion calculation. This includes assets which were deemed to be segregated at a particular time due to the fund only having retirement phase superannuation liabilities at that time.

Where a fund does have segregated current pension assets, the approach above is likely to underestimate the extent to which an expense was incurred in producing exempt income, and therefore overstate the amount that can be reasonably deducted.

For those funds wishing to use the actuarial exempt income proportion as the basis for the deductibility of expenses we have determined below a deductibility proportion that takes into account all fund liabilities over the income year. This may be different to (1 – actuarial exempt income proportion) where the fund has segregated current pension assets and may be a fair and reasonable deductible proportion for expenses which must be apportioned and relate to the whole income year.

Expense deductibility proportion

The following deductible proportion has been determined based on all fund liabilities, including any segregated current pension assets identified in Appendix B, using the same methodology as the exempt income proportion described in Appendix C.

This is not intended to be tax advice and you should determine whether this deductible proportion is appropriate for this fund and for each relevant fund expense prior to use.

Compliance

A Trustee is required to take a range of issues into account when formulating and regularly reviewing an Investment Strategy.

The Trustee must look at the fund as a whole and determine how the fund's objectives are to be met. After this determination has been made the trustee must consider risk and return, diversification, liquidity requirements, and the ability to discharge existing and prospective liabilities.

The trustee are required to prepare an Investment Strategy that provides a framework for making investment decisions to increase members' benefits for their retirement. This duty is codified in section 52(2)(f) of the Superannuation Industry (Supervision) Act 1993 ("SIS Act") and is an operating standard set out in SIS Regulation 4.09, which applies to all trustees.

This Investment Strategy report considers, at the fund level:

- The risk and likely return from investments;
- The diversification of the investments;
- The liquidity and cash flow requirements;
- The ability of the fund to discharge its liabilities; and
- Whether a contract of insurance that provides cover for one or more members is required.

This written Investment Strategy has been prepared to demonstrate that investment decisions comply with the strategy and the various superannuation laws including:

- Sole purpose test;
- Restrictions on investments and acquisitions from members;
- Ownership and protection of assets;
- Restrictions on lending;
- Restrictions on placing charges over fund assets;
- Investing in collectables and personal use assets;
- Investments being made on an arm's length basis; and
- Restrictions on holdings of in-house assets.

Complying Status

The Fund is an Australian Superannuation Fund as defined in subsection 295-95(2) of the Income Tax Assessment Act 1997 and Section 45 of the Superannuation Industry (Supervision) Act 1993 ("SIS Act").

Ongoing Monitoring

The obligation for the trustee to formulate and implement an Investment Strategy also requires the trustee to monitor and regularly review the Investment Strategy on an ongoing basis to help ensure that the investments made by the trustee continue to be consistent with the Investment Strategy. Where this is not the case, the trustee will be required to amend the Investment Strategy to reflect the change in the investment approach.

Fund Profile

Superannuation law requires that the whole of the fund's circumstances must be taken into account when formulating an Investment Strategy. This includes (but is not limited to) the membership profile, benefit structure, and fund phase (accumulation of pension), tax position and fund size.

Such circumstances affect the diversity and liquidity requirements of fund investment strategies.

Note 1 - Statement of Significant Accounting Policies

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements. They have been consistently applied in the current and previous periods unless otherwise stated to ensure the financial information satisfies the concept of relevance and reliability.

(a) Statement of Compliance

The trustees have prepared the financial statements on the basis that the superannuation fund is not a reporting entity because it is not publicly accountable and is not required by law or governing document to prepare financial statements that comply with Australian Accounting Standards. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the *Superannuation Industry (Supervision) Act 1993* and *Regulations 1994*, the trust deed of the fund and the needs of members.

(b) Basis of Preparation

The financial statements have been prepared on a cash basis using historical costs convention unless stated otherwise. For investments and financial liabilities, they are measured at market values.

The financial statements are presented in Australian dollars, which is the functional currency of the fund.

(c) Use of Accounting Estimates and Judgments

The preparation of financial statements requires the trustees to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

(d) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks or financial institutions and short-term, highly liquid investments that are readily convertible to cash and are subject to an insignificant risk of change in value.

(e) Foreign Currency

Any foreign currency transactions during the financial year are brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Exchange differences are recognised in the operating statement in the period in which they arise.

(f) Valuation of Assets

Investment

An investment is initially recognised when as a result of past transactions or events, the Fund controls the future economic benefits expected to flow from the asset.

The investment assets are firstly recorded at cost, being the fair value of the consideration given. After initial recognition, they are measured at market value. Gains or losses arising from changes in market value are recognised on the Operating Statement in the periods in which they occur.

Market value as defined in s10 of SISA 1993, in relation to an asset, means the amount that a willing buyer of the asset could reasonably be expected to pay to acquire the asset from a willing seller if the following assumptions were made:

- i. that the buyer and the seller dealt with each other at arm's length in relation to the sale;
- ii. that the sale occurred after proper marketing of the asset;

iii. that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

As disposal costs are generally immaterial unless otherwise stated, market value approximates fair value.

Market values for various types of investment have been determined as follows:

- i. listed securities, government and other fixed interest securities for which there is a readily available market quotation, the valuation is recorded as the last quoted sale price as at the close of business on reporting date. If the listed securities are foreign, they are also converted to Australian dollars using the exchange rate at the close of business on the reporting date;
- ii. unit trusts and managed funds are stated by reference to the unit redemption price quoted by the fund manager at the end of the reporting period;
- iii. unlisted investments are stated at the Trustees' valuation based on estimated market value at balance date; or where necessary, upon external valuers' expert opinions;
- iv. Investment properties are carried at market value and are held for the purpose of generating long-term rental yields and capital appreciation. The Trustees give consideration to the value of the investment property each financial year and revalue when a significant event occurs or when deemed appropriate. Where an external valuation has been obtained, the valuation is based on objective and supportable data and has been carried out by a property valuation service provider or qualified independent valuer as appropriate.

Financial Liabilities

The Fund initially recognises a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Financial liabilities including credit balances of hedging instruments and derivatives are measured at market values as at the reporting date. Any change in market values of the financial liabilities since the beginning of the reporting period shall be included in the profit or loss for the reporting period. As disposal costs are generally immaterial, unless otherwise stated, market value approximates fair value.

Receivables and Payables

Current assets such as accounts receivable, which are expected to be recovered within twelve months after the reporting period, are carried at nominal amounts which approximate the fair values.

Accounts payable are recognised when the Fund becomes obliged to make future payments resulting from the goods and services received, whether or not billed to the Fund and are carried at nominal amounts which are equivalent to fair values.

(g) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable. The following recognition criteria relate to the specific items of revenue the Fund receives:

Interest

The interest revenue is recognised by the Fund on a cash receipt basis, unless the Fund chooses the accrual method and the amount can be reliably measured by reference to the principal outstanding and using the effective interest rate of the instrument calculated at the acquisition or origination date.

Dividend Revenue

The entitlement to a dividend is based on the date the shares are quoted ex-dividend; the actual dividend revenue is recognised by the Fund when it is received.

Distribution Revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distributions and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

Rental Income

Rent from investment properties is recognised by the Fund on a cash receipt basis.

Movement in market values

Changes in the market value of investments are determined as the difference between the market value at balance date or consideration received (if sold during the year) and the market value as at the prior year end or cost (if the investment was acquired during the period). All movements are recognised in the Operating Statement.

Contributions and Rollovers In

Contributions and rollovers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

The financial report was authorised for issue on 20 July 2023 by the directors of the trustee company.

Note 2 – Liability for Accrued Benefits

The liability for accrued benefits represents the fund's present obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period. Changes in the Liability for Accrued Benefits are as follows:

	Current	Previous
Liability for Accrued Benefits at beginning of period	2,470,307	2,102,194
Benefits Accrued during the period	427,329	368,113
Benefits Paid during the period	(24,000)	0
Liability for Accrued Benefits at end of period	2,873,637	2,470,307

Any amount in the Unallocated Contributions account represent amounts that have been received by the fund from either the members of the fund or a third party but have not been allocated to any specific member as at the reporting date. It is the intention of the trustee to allocate any such amounts recorded as unallocated contributions within 28 days following the end of the month to specific fund member, which will increase the liability for members accrued benefits.

Note 3 – Vested Benefits

Vested benefits are benefits which are not conditional upon continued membership of the fund (or any factor other than resignation from the plan) and include benefits which members were entitled to receive had they terminated their fund membership as at the reporting period.

Vested Benefits at end of period	2,873,637	2,470,307
Benefits Paid during the period	(24,000)	0
Benefits Accrued during the period	427,329	368,113
Vested Benefits at beginning of period	2,470,307	2,102,194
	Current	Previous

Note 4 – Guaranteed Benefits

No guarantees have been made in respect of any part of the liability for accrued benefits.

Note 5 – Funding Arrangements

MCDAL SUPER FUND Notes to the Financial Statements As at 30 June 2022

Note 9 – Subsequent Events

The trustees are aware of circumstances that have arisen after the reporting date, particularly the global stock market volatility surrounding the Coronavirus (COVID-19) pandemic. It is expected that this will cause a material decline in the market value of fund investments that are exposed to these market conditions. However, due to the rapid and ongoing changes, an estimate of the extent of this decline cannot be ascertained.

The accounting cost is the original cost base adjusted by any subsequent capital call/improvement or capital return transactions. In many cases, it is not the same as the adjusted or reduced cost base, or the reset cost base resulting from the CGT relief. To view the tax cost base and unrealised gain/(loss) for tax purposes refer to the Unrealised Capital Gains Report or change the report parameter to tax cost base.
