If we do not hold a valid binding death benefit direction, (or a valid reversionary pensioner nomination) in the event of a member's death we will pay the death benefit to the legal personal representative. If we are unable to locate a legal person representative, we may pay the death benefit to any other person permitted under superannuation law.

### Rate of Return for your Account

The rate of return for your account for the period ending 07 August 2020 was -9.56%.

This rate of return calculation takes into account the investment option/s you have selected, the transactions that have occurred, and the length of time your monies have been invested.

Important Information about your rate of return shown above:

- Your rate of return has been calculated in accordance with the guidelines set out in the Financial Services Council's (FSC) Standard No. 6.
- If your account has been in existence for less than 12 months, your rate of return has been prorated to reflect the appropriate portion of the 12-month period.
- Your rate of return is net of fees, income taxes and realised capital gains taxes.
- The calculation used to determine your rate of return considers distributions for the period ending 30 June on an income receivable basis. All other income (including dividend income) is recognized on a 'cash received' basis.
- Closing values used to calculate your rate of return have been based upon the 07 August 2020 prices available to **Netwealth** at the time of producing your statement. Where managed funds have distributed income, the prices used are 30 June ex-distribution prices.

#### Additional Explanation of Fees and Costs

The benefit of tax deductions that the Fund may claim associated with fees and costs have been passed back to you and are described as 'Tax Credit' alongside the applicable fee or cost in the Cash Account Transaction Listing shown on the previous pages.

<sup>1</sup> The Total Netwealth Fees and the Total Advice Fees deducted from your cash account are shown in your Detailed Account Statement, and the relevant fees are shown in the Cash Account Transaction Listing on the previous pages.

<sup>2</sup> Underlying Investment Fees and Costs are calculated based on the Indirect Cost Ratio published by the underlying fund manager(s) and do not include indirectly incurred transactional and operational costs (you should refer to the Product Disclosure Statement of the underlying investment(s) for details of these costs). Calculations consider the value held in investments as at the end of each month within the reporting period (not including the month of account closure).

<sup>3</sup>Indirect Costs of your Investment and Underlying Investment Fees and Costs are not deducted from your cash account and so are not shown in the Cash Account Transaction Listing. These are the estimated fees and costs incurred within the underlying investment options and within the cash account. Calculations consider the value held in investments as at the end of each month within the reporting period (not including the month of account closure).

<sup>4</sup> Where you instruct us to convert currency in relation to trading or holding international securities, a margin of up to 0.45% may be applied to the prevailing spot price available in wholesale/inter-bank foreign exchange markets. We retain this margin, less any margin we pay to third parties to complete the conversion, as a fee.
