

ENGAGEMENT LETTER

To: The Trustees, The Leaver Superannuation Fund

Scope

You have requested that we audit the financial report of The Leaver Superannuation Fund, which comprises the balance sheet as at 30 June 2022, and the income statement for the year then ended a summary of significant accounting policies, other explanatory notes and the trustees' declaration. We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter. Our audit will be conducted with the objective of expressing an opinion on the financial report and compliance with the *Superannuation Industry Supervisory Act 1993*.

We will conduct our audit in accordance with Australian Auditing Standards. Those Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement. An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. An audit also includes evaluating the appropriateness of the financial reporting framework, accounting policies used and the reasonableness of accounting estimates made by the Trustees, as well as evaluating the overall presentation of the financial report.

Because of the test nature and other inherent limitations of an audit, together with the inherent limitations of any accounting and internal control system, there is an unavoidable risk that even some material misstatements may remain undiscovered. In making our risk assessments, we consider internal control relevant to the entity's preparation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

We take this opportunity to remind you that the responsibility for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Superannuation Industry Supervisory Act 1993* is that of the trustees. Our auditor's report will explain that the trustees are responsible for the preparation and the fair presentation of the financial report in accordance with the applicable financial reporting framework and this responsibility includes:

- designing, implementing and maintaining internal control relevant to the preparation of a financial report that is free from misstatement, whether due to fraud or error;
 - selecting and applying appropriate accounting policies; and
 - making accounting estimates that are reasonable in the circumstances.
- As part of our audit process, we will request from the trustees written confirmation concerning representations made to us in connection with the audit.

Other Matters under the *Corporations Act 2001*

Independence

We confirm that, to the best of our knowledge and belief, we currently meet the independence requirements of the *Corporations Act 2001* in relation to the audit of the financial report. In conducting our audit of the financial report, should we become aware that we have contravened the independence requirements of the *Corporations Act 2001*, we shall notify you on a timely basis.

We look forward to your full cooperation and make available to us whatever records, documentation and other information we request in connection with our audit.

Please sign and return the attached copy of this letter to indicate that it is in accordance with your understanding of the arrangements for our audit of the financial report.

Yours faithfully,

The Leaver Superannuation Fund

Investment Strategy

Objectives

The objectives of the fund are to:

- Provide superannuation benefits to members and their dependants to meet their retirement needs.
- Ensure that appropriate mixes of investments are held by the fund to support these needs.
- Ensure the fund has sufficient liquidity at all times to meet all commitments.
- Maximise the tax effectiveness of fund investments thereby delivering the best long term after tax return for members.

The Investment objective of the trustees is to aim to achieve real medium to longer-term growth. In recognition of the fact that both Members of the Fund are in Pension mode, the fund will have a high proportion of capital stable assets in the portfolio.

Investment Choice

The Trustees have determined the fund's investments may include but not be limited to all or one of the following:

- Direct equities, stocks and derivatives including participation in dividend reinvestment programs and right issues, including the use of geared instalment warrants:
- Property trusts and associated investments:
- Managed investments and associated products:
- Direct residential, industrial and commercial property investment [including geared property investments purchased using allowable limited recourse borrowing arrangements]:
- Deposits and investments with banks and other financial institution securities including Term Deposits, Debentures, Secured and Unsecured Notes and Bonds:
- Any other investment that the trustees may feel prudent to achieve the objective of the fund.

The Trustee may from time to time decide to seek professional advice from Accountants, Solicitors or Financial Planners in the formulation or implementation of this or any future investment strategy.

In formulating this strategy the trustees have taken into consideration relevant features of the various investments in accordance with both the fund's objectives and appropriate legislation.

The Leaver Superannuation Fund

In drafting this investment strategy, the trustees have taken into account all of the circumstances of the fund, including:

- the risks and likely return associated with each investment;
- the range and diversity of investments held by the fund;
- any risks coming from limited diversification;
- the liquidity of the fund's investments;
- the ages and preferences of its members;
- expected cash flow requirements; and
- the ability of the fund to meet its existing and prospective liabilities such as paying benefits to its members.

Policies

The policies adopted by the Trustees in order to achieve these objectives are:

- Regular monitoring of the performance of the fund's investments, the overall investment mix and the expected cash flow requirements of the fund.
- Re-balancing the fund's investment portfolio due to changes in market conditions through asset sales and new investments as appropriate.

The Trustees will aim to follow the investment strategy, however, they will at all times reserve the right to change the investment mix depending on the market situation and opportunities available to better meet the objectives of the fund.

A copy of the Investment Strategy of the fund will be available to members of the fund on request.

Risk profile and risk tolerance

The Fund has a short time horizon. Further the Members wish to have a conservative asset allocation thereby limiting volatility of returns

Members understand

- the trade-off between investment risk and long term capital and income growth and have indicated capital preservation & stability is a priority
- Investment risk is borne by the members, as fluctuations in investment returns will affect the level of benefits available to members.

Insurance

The Trustees have considered whether the Fund should hold a contract of insurance for its members and concluded that additional insurance is not appropriate as the members are at an age such that insurance is not available on a cost effective basis

The Leaver Superannuation Fund

Liquidity

Both Members of the Fund are in Pension mode and have unrestricted non – preserved benefits. As a consequence, the fund will have a high proportion of assets in liquid form to meet any benefit payment that may be made at the request of a Member.

Asset Allocation

The targeted asset allocation will recognise the need to have a diversified asset mix, however, given the short term investment horizon of the members and the significant assets outside of superannuation, the allocation will have a strong capital preservation asset bias and be focused on preserving capital and ensuring capital stability.

The final targeted asset allocation will be in the following ranges:

Growth Assets	Long term range	Current target
<ul style="list-style-type: none">Australian listed equities	0%-10%	5%
Defensive assets		
<ul style="list-style-type: none">Cash and term deposits	80-100%	95%
		100%
