Fees and costs summary

Fees deducted directly from your account

This amount has been deducted directly from your account (reflected in the transactions listed on this statement).	\$0.00
--	--------

Fees and costs deducted from your investment

This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your investment and that are not reflected as transactions listed on this statement or in the Additional explanation of fees and costs.	-\$888.75
---	-----------

TOTAL FEES AND COSTS YOU PAID

This approximate amount includes all the fees and costs that affected your investment during the period. ¹	-\$888.75
---	-----------

¹This does not include the fees and costs incurred for transfers to New Zealand accounts as explained below.

Additional explanation of fees and costs

Fees deducted directly from your account

If we incur any third-party costs or charges in providing specialised services requested by yourself or your authorised representative, these may be passed onto you and will appear in your list of transactions. A cheque dishonour fee may be charged to you should your bank refuse to pay cash for a cheque you have written and presented for payment.

Fees and costs deducted from your investment

This may include performance fee amounts which are based on the most recently available historical estimate of fees and costs. The actual amounts incurred may be different due to the performance of your investment and any changes to your investment strategy.

The below provides an explanation of fees and costs that make up the 'Fees and costs deducted from your investment':

- 1) Management fees and costs: This includes fees charged by MLCI, fees paid to investment managers appointed directly by MLCI and other expenses incurred in operating the investment option such as custody costs, registry costs, auditing fees and tax return fees.
- 2) Buy/sell spreads applied on your transactions: The buy-sell spread represents the estimated transaction costs incurred when buying or selling underlying assets in relation to investment options. Buy/sell spreads are reflected in the entry/exit price for the investment option.
- 3) Performance fees are payable to investment managers when the investment performance exceeds a specified level.
- 4) Other fees and costs that include any other investment manager expense recoveries and management costs of underlying investment managers.
- 5) Transaction costs that have not been recovered by a buy-sell spread set by your investment options(s).

Taxes and tax benefits

Investing in a managed investment scheme is likely to have tax consequences. You will receive an Attributed Managed Investment Trusts (AMIT) Member Annual Statement (AMMA) as at 30 June containing your personal tax information about the income and tax offsets of the managed investment scheme that are attributed to you. The tax payable on that income (if any) depends on your circumstances and applicable tax rate. If you have not provided your Tax File Number, we may need to withhold additional taxes which are then paid to the ATO.

If you are a non-resident or have provided a foreign address, then tax may also need to be withheld by us and then paid to the ATO.

Transfers to New Zealand bank accounts

A \$20.00 special request fee may apply after your units have been redeemed from your account for the cost incurred of transferring to an overseas bank account. This amount will appear in your withdrawal confirmation.

For more information about fees and costs you need to be aware of, please refer to the PDS or contact us.

Notes:

Returns for periods one year or greater are calculated on an annualised basis. They are net of management fees which may include administration fees and investment fees. They assume reinvestment of all earnings and are prior to any individual tax considerations. Past performance is not a reliable indicator of future performance.

These returns reflect the performance of the investment options within the product and not your individual return. Your individual return will be based on when you have contributed to, and transacted on, your account and how long you were invested for.
