### Notes

- This component comprises interest and other assessable income.
- This component of the distribution is not assessable to you as income and is not required to be included in your tax return.  
You are required to decrease the Capital Gains Tax ("CGT") cost base of your units in the Trust by your share of the distributions paid to you that have not been included in your assessable income. The amount by which the CGT cost base of your units should decrease by is shown at this item on your AMMA Statement.  
To the extent the sum of all distribution amounts which are not assessable to you in respect of your Trust units (in aggregate) exceeds your CGT cost base in those units, a capital gain will arise in respect of the excess amount. This capital gain may qualify for the CGT 50% discount concession if you are eligible for the CGT discount and have owned your units for at least 12 months.
- This component comprises the discounted capital gain on Taxable Australian Property.
- This item shows the additional amount treated as capital gains of securityholders under subsections 276-85(3) and (4) of the ITAA 1997. This amount is non-assessable to you and accordingly is not required to be included in your tax return.
- Where either a Tax File Number ("TFN"), Australian Business Number ("ABN") or exemption has not been recorded, income tax has been withheld from your gross distribution from WPR at the highest marginal tax rate.
