The Trustee shall notify the Member of the basis of the calculation of the Fund Earning Rate.

10.7 In determining the amount standing to the credit of a Member's Account at the time a Benefit is calculated or becomes payable, the Trustee shall make such adjustment (up to the date of payment) reflecting the Fund Earning Rate then applying as it shall at its discretion consider equitable and in accordance with the requirements of the Commissioner and the Income Account shall be debited or credited accordingly.

The income and profits (less losses) arising from specific investments applicable to any particular Member's Account shall be credited directly to that Member's Account which shall also be debited directly with the appropriate proportion of any costs or charges applicable to specific investments which are incurred pursuant to clauses 20 or 28 and any Taxation which is payable or may become payable in respect of specific investments.
