Level - your premium rate doesn't increase as the life insured gets older. The level premium rate is calculated according to the life insured's age on the date cover started. We change your premium rate to 'stepped' on and from the policy anniversary date before the life insured's 65th birthday.

Loyalty Bonus benefit

You've now held this policy for five consecutive years, so to reward your loyalty we will increase the benefit that may become payable under your policy by five per cent at no additional cost to you.

Important News

CommInsure Protection is closed to new customers from 1 April 2020

Thank you for continuing your insurance protection with CommInsure.

While all products under CommInsure Protection are closed to new customers effective from 1 April 2020, we want to reassure you that as an existing customer you continue to hold your cover and can manage it to suit your changing insurance needs.

Important note

All of your existing product benefits, features and options remain the same.

As an existing customer you can still make certain changes to your cover.

This includes:

- ◆ applying for an increase or reducing the amount insured,
- ◆ adding and removing indexation,
- ◆ applying for an option or removing an option, or
- ◆ exercising options, for example, the Total Care Plan Super continuation option and the Total Care Plan option to convert from stand-alone TPD cover to Life Care,
- ◆ applying for a replacement policy,
- ◆ applying to reinstate your policy after cancellation for non-payment of premiums.

The terms of your existing product benefits, features and options are set out in your existing policy documentation.

As explained below, you will also continue to receive product improvements to help ensure your product continues to provide ongoing valuable, contemporary protection.

New agreed value and guaranteed agreed value income protection is no longer available

As per the Australian Prudential Regulation Authority's (APRA) expectation, from 1 April 2020 new agreed value and guaranteed agreed value income protection cover is no longer available. While this won't affect any existing agreed value cover you have, if you currently have indemnity cover you won't be able to change it to agreed value cover.

Product improvements will continue

Your product will continue to receive improvements to help ensure it continues to provide ongoing valuable, contemporary protection.

As the AIA group (AIA) now manages the CommInsure life business, your product will receive certain improvements that AIA makes to its Priority Protection products.

This means that if AIA improves Priority Protection for its existing customers as per its policy promise, then CMLA (and the Trustee in the case of Total Care Plan Super) will consider those improvements and where applicable pass them on to your product. The benefit improvements will apply to your policy when they apply to AIA Priority Protection.

Benefit improvements will not apply:

- ◆ where they result in an increase in premium rates, or
- ◆ to the assessment of any claim which relates to an existing health condition.

Considerations if your cover is cancelled

If your policy is cancelled, it's important to note that your cover will end and you may not be able to get that cover again.

For example:

- ◆ if your agreed value or guaranteed agreed value income protection policy is cancelled, that cover won't be available from us and may not be available with other insurers given APRA's expectation that the life insurance industry cease offering agreed value cover from 1 April 2020.
- ◆ if you have own occupation TPD cover within super and it is cancelled, that cover won't be available from us because of new superannuation laws which commenced in 2014.

In either case, the cover will not be available even if you are entitled to reinstate your policy after it is cancelled for non-payment of premium.
