## **Notes to the Financial Statements**

For the year ended 30 June 2023

#### **Note 1: Summary of Significant Accounting Policies**

The trustees have prepared the financial statements on the basis that the Superannuation Fund is not a reporting entity because it is not publicly accountable and is not required by law or governing document to prepare financial statements that comply with Australian Accounting Standards. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the Fund and the needs of members.

The financial statements have been prepared on a cash basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue by the Director(s).

#### a. Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
- (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions were made:

- that the buyer and the seller deal with each other at arm's length in relation to the sale;
- that the sale occurred after proper marketing of the asset; and
- that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period;
- (iv) unlisted investments are stated at trustees' assessment based on estimated market value at balance date or where necessary, an external valuer's opinion; and
- (v) investment properties at the trustees' assessment of the market value or where necessary a qualified independent valuer's opinion at the end of reporting period.

#### b. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

#### c. Revenue

## Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised upon receipt.

#### **Dividend revenue**

## **Notes to the Financial Statements**

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

#### Rental revenue

Upon entering into each contract as a lessor, the Fund assesses if the lease is a finance or operating lease. All leases have been assessed as operating leases. Rental revenue arising from operating leases on investment properties is recognised on straight-line basis over the term of the specific lease.

#### Distribution revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distribution and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

## Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

#### **Contributions**

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

#### d. Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

## e. Trade and Other Payables

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustees have determined that the gross value of the Fund's financial liabilities is equivalent to the market value. Any remeasurement changes in the gross value of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

## f. Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

Joanne Tissington

29 October 2022

#### Dear Joanne, thank you for being a Zurich customer

We're writing to tell you about changes to your insurance premium for the next policy year and to remind you that your premium is due soon. We'll automatically direct debit this from your nominated bank account, so you can relax knowing that you're protected. We'll let you know if any payments are unsuccessful.

# You've selected Premium with cover increase

With inflation protection

Your policy has in-built inflation protection to help maintain the value of your cover over time.

#### **Cover summary**

Your policy provides:

• a lump sum payment on the life insured's death or terminal illness during the term of the policy.

Premium yearly: \$387.28

Due on:

11 December 2022

#### Detailed policy breakdown

Below is a summary of the insurance benefits which apply to this policy.

Life Insured	Cover type	Current cover	Increased cover	Premium without cover increase	Premium with cover increase
Joanne Tissington	Death & terminal illness	\$86,822	\$92,118	\$365.02	\$387.28
	Total instalment premium			\$365.02	\$387.28

Full terms and conditions of your cover, including any special conditions and exclusions, are outlined in the most recently issued policy schedule and PDS. If you don't have the PDS, visit **zurich.com.au/lifepds** or contact us and we will send one to you.

#### An Inflation protection increase has been applied to your policy

Your policy has in-built inflation protection to help maintain the value of your cover over time. If you opt out of inflation protection, your future insurance cover might not give you the same real value as it would today. You don't have to accept the increase. If you'd like to maintain the same cover amount, or arrange a lower cover increase, please contact your local insurance specialist on **131 551** before the next due date so that we can reduce your premium.

#### Benefits of your policy

Some of the features of your policy include:

- Guaranteed renewal of your policy terms up until the expiry date, regardless of any change in health.
- Worldwide cover 24 hours a day, seven days a week.

#### The life insurance code of practice is our promise to you

When you take out life insurance, it's important that you get the highest standards of service in all your dealings with us. That's why we've adopted the Life Insurance Code of Practice. It's the life insurance industry's commitment to mandatory customer service standards and it's designed to protect you, our customer. The Code can be found at **fsc.org.au**.

#### At each anniversary, different factors can affect your premium

Your life insurance cover represents our promise to be there for you when it matters most, should you need to submit a claim. Maximising our ability to pay claims remains our unwavering priority and means our premium rates must reflect the true cost of providing that protection.

#### **Age increase**

As we get older, the risk of death and illness generally increases and this is reflected in the cost of providing cover.

# Inflation protection applies

Unless you have declined inflation protection, your cover amount will automatically be increased each year to ensure you're protected.

#### You are currently paying: yearly via direct debit

The premiums shown on this notice are based on this frequency.

#### Have your circumstances changed?

We understand that life's unpredictable. Fortunately, we're here to help. While we can't provide financial advice, we can alert you to features in your policy that could benefit you if you want to make changes or if you're finding it difficult to keep up with your premium payments.

This policy provides valuable insurance cover that will not change due to changes in health or pastimes. If you decide to cancel and apply for a replacement policy, the duty to take reasonable care not to make a misrepresentation will apply again and the new policy may be based on health and other circumstances at that time. A new policy may not cover conditions existing at that time which could result in you not being covered, paying a higher premium or having less comprehensive cover.

Contact your local insurance specialist today so we can ensure you remain protected without leaving yourself or your family financially vulnerable.

With airdrops we need include as income the value of the tokens received as at the day the tokens were received. (see Airdropx – Taxable income)

Is there any way you can provide a VTHO transaction report like you have with the attached BTC Coins transactions, so I can value the coin.

Lastly can you confirm that on the 30 June 2023 your SMSF had the following coins/tokens

- Cardano 60,710.000
- Binance Coin 534.0900
- Bitcoin 12.9192
- Ethereum 15.3800
- Holochain 4,433,056.000
- Ontology 1,876.2600
- VeChain 216,184.000
- VTHO 167,086.6900
- Monero 47.9900

## **Notes to the Financial Statements**

For the year ended 30 June 2022

#### **Note 1: Summary of Significant Accounting Policies**

The trustees have prepared the financial statements on the basis that the Superannuation Fund is not a reporting entity because it is not publicly accountable and is not required by law or governing document to prepare financial statements that comply with Australian Accounting Standards. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Superannuation Industry (Supervision) Act 1993 and associated Regulations, the trust deed of the Fund and the needs of members.

The financial statements have been prepared on a cash basis and are based on historical costs, except for investments which have been measured at market value.

The following significant accounting policies, which are consistent with the policies applied in the previous period unless otherwise stated, have been adopted in the preparation of the financial statements.

The financial statements were authorised for issue by the Director(s).

#### a. Measurement of Investments

The Fund initially recognises:

- (i) an investment when it controls the future economic benefits expected to flow from the asset. For financial assets, the trade date is considered to be the date on which control of the future economic benefits attributable to the asset passes to the Fund; and
- (ii) a financial liability on the date it becomes a party to the contractual provisions of the instrument.

Investments of the Fund have been measured at market value, which refers to the amount that a willing buyer could reasonably be expected to pay to acquire an asset from a willing seller if the following assumptions were made:

- that the buyer and the seller deal with each other at arm's length in relation to the sale;
- that the sale occurred after proper marketing of the asset; and
- that the buyer and the seller acted knowledgeably and prudentially in relation to the sale.

Market value has been determined as follows:

- (i) shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- (ii) units in managed funds by reference to the unit redemption price at the end of the reporting period;
- (iii) fixed-interest securities by reference to the redemption price at the end of the reporting period;
- (iv) unlisted investments are stated at trustees' assessment based on estimated market value at balance date or where necessary, an external valuer's opinion; and
- (v) investment properties at the trustees' assessment of the market value or where necessary a qualified independent valuer's opinion at the end of reporting period.

#### b. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at call, deposits with banks and short-term, highly liquid investments that are readily convertible to cash and subject to an insignificant risk of change in value.

#### c. Revenue

## Interest revenue

Interest revenue is recognised in respect of fixed-interest securities, and cash and cash equivalent balances. Interest revenue is recognised upon receipt.

#### **Dividend revenue**

## **Notes to the Financial Statements**

Dividend revenue is recognised when the dividend has been paid or, in the case of dividend reinvestment schemes, when the dividend is credited to the benefit of the fund.

#### Rental revenue

Upon entering into each contract as a lessor, the Fund assesses if the lease is a finance or operating lease. All leases have been assessed as operating leases. Rental revenue arising from operating leases on investment properties is recognised on straight-line basis over the term of the specific lease.

#### Distribution revenue

Distributions from unit trusts and managed funds are recognised as at the date the unit value is quoted ex-distribution and if not received at the end of the reporting period, are reflected in the statement of financial position as a receivable at market value.

## Remeasurement changes in market values

Remeasurement changes in the market values of assets are recognised as income and determined as the difference between the market value at year-end or consideration received (if sold during the year) and the market value as at the prior year-end or cost (if acquired during the period).

#### **Contributions**

Contributions and transfers in are recognised when the control and the benefits from the revenue have been attained and are recorded by the Fund, gross of any taxes, in the period to which they relate.

#### d. Liability for Accrued Benefits

The liability for accrued benefits represents the Fund's present obligation to pay benefits to members and beneficiaries, and has been calculated as the difference between the carrying amount of the assets and the carrying amount of the other payables and income tax liabilities as at the end of the reporting period.

## e. Trade and Other Payables

Financial liabilities, such as trade creditors and other payables, are measured at the gross value of the outstanding balance at the end of the reporting period. The trustees have determined that the gross value of the Fund's financial liabilities is equivalent to the market value. Any remeasurement changes in the gross value of non-current financial liabilities (including liabilities for members' accrued benefits) are recognised in the operating statement in the periods in which they occur.

## f. Critical Accounting Estimates and Judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.
