

About your water and sewerage charges

The standard charges explained:

Sewerage access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's sewerage transportation and treatment system.

Sewage volume charge (multi-unit residential and non-residential property only)

A volumetric charge per kilolitre of sewage deemed to have been discharged from the property into the City's sewerage transportation and treatment system.

Water access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's water distribution system.

Water usage charge

Water usage, as measured by your water meter, is charged per kilolitre (1000 litres). Water usage is divided into retail water and bulk water charges. If access to read your water meter was not available, water usage may have been estimated for this account based on previous use. This will be indicated on your account.

Non-drinking water usage charge (select Pimpama-Coomera customers only)

This is a charge applicable to select Pimpama-Coomera customers only or non-drinking water usage, as measured by your purple non-drinking water meter and charged per kilolitre (1000 litres).

Visit cityofgoldcoast.com.au/nondrinkingwater for further information. Visit cityofgoldcoast.com.au/mywaterbill to understand more about your water bill.

How to read your water meter

Your water meter is normally located at the front of your property.

Black numbers represent kilolitres and are used for billing.

The red numbers on your water meter represent litres. To calculate your daily water use, please follow the instructions below.

Numbers only meter

Numbers and clock meter

- 1 Day one, record all numbers that you see here. Note the time of day.
- 2 Day two, repeat step 1. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Please note, if there are four red digits on the water meter, the last digit (on the far right) is a tenth of a litre. In these instances, do not record the last red digit.

Or

- 1 Day one, record all numbers that you see here. Secondly, record numbers found here. Record the first three red dial numbers in a clockwise direction, that is, right to left. Note the time of day. **Both steps should provide you with a number similar to the diagram example 00030509.**
- 2 Day two, repeat step one. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Day one: Record numbers from your water meter as per instructions above.

Day two: At the same time as day one, record numbers from your water meter as per instructions above.

_____ L _____ L

Subtract the number found on day one from the number found on day two.

This is your household's daily water usage.

Frequently asked questions

Why should I order a green organics bin now?

For just over \$1 per week you can have a green organics bin (standard 240 litre), which is collected every fortnight, plus for a limited time you can also get a larger 360 litre recycle bin for FREE. Save the time you spend taking garden clippings to the Green Organics Drop and Go's, make sure you have enough room in your recycling bin, and get your weekends back!

To order your green organics bin and upsize your recycle bin go to cityofgoldcoast.com.au/greenorganicsbin

Can wet wipes and face masks be flushed?

Flushable wet wipes and single-use face masks do not break down like toilet paper and human waste when flushed. They clump together and can block our sewerage network, increasing the risk of sewage overflow at your property, which could leave you with an expensive and unpleasant clean up. Regardless of what the packaging says, always bin your wipes and single-use face masks.

For more information visit cityofgoldcoast.com.au/pipes

Can my tap water be affected by spilt chemicals on my lawn?

Spilling chemicals or parking a car or boat on your lawn or near your outside tap can contaminate your drinking water. Chemicals like fuels, oils, turpentine and paint thinner can leach through pipes which can affect the quality of your water and result in an expensive fix. Ensure your car or boat isn't leaking fuel and garage them, and dispose of chemicals appropriately at one of our Waste and Recycling Centres (WRC's).

					TOTAL(kL)	429

Your Scheme's average daily water usage = 4766 litres (or 4.766 kL)
Your total average daily cost = \$4.42

The property's water usage may be influenced by a number of factors including number of occupants, property type, property size and own water use behaviours. If you're concerned about your usage, visit cityofgoldcoast.com.au/waterleaks for instructions on how to check for concealed leaks.

In accordance with the *Local Government Act 2009*, *Local Government Regulation 2012*, *South East Queensland Water (Distribution and Retail Restructuring) Act 2009*, *Water and Wastewater Services Code for small customers in South East Queensland* and Council of the City of Gold Coast's (Council) adopted budget resolutions, all water and sewerage charges are due and payable within 31 days of the issue of the water and sewerage rate notice on which the charges are levied. Any overdue amounts will attract penalty interest at the appropriate rate until either full payment (including the interest) is made or a satisfactory payment arrangement is approved by Council.
