About your water and sewerage charges

The standard charges explained:

Sewerage access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's sewerage transportation and treatment system.

Sewage volume charge (multi-unit residential and non-residential property only)

A volumetric charge per kilolitre of sewage deemed to have been discharged from the property into the City's sewerage transportation and treatment system.

Water access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's water distribution system.

Water usage charge

Water usage, as measured by your water meter, is charged per kilolitre (1000 litres). Water usage is divided into retail water and bulk water charges. If access to read your water meter was not available, water usage may have been estimated for this account based on previous use. This will be indicated on your account.

Non-drinking water usage charge (select Pimpama-Coomera customers only)

This is a charge applicable to select Pimpama-Coomera customers only or non-drinking water usage, as measured by your purple non-drinking water meter and charged per kilolitre (1000 litres).

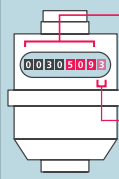

Visit cityofgoldcoast.com.au/nondrinkingwater for further information.

Visit cityofgoldcoast.com.au/mywaterbill to understand more about your water bill.

How to read your water meter

Your water meter is normally located at the front of your property. **Black numbers represent kilolitres and are used for billing. The red numbers on your water meter represent litres.** To calculate your daily water use, please follow the instructions below.

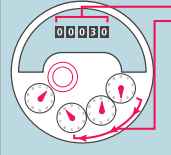

Numbers only meter

- Day one, record all numbers that you see here. Note the time of day.
- Day two, repeat step 1. Conduct this reading at the same time as you did the reading on day one.
- Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Please note, if there are four red digits on the water meter, the last digit (on the far right) is a tenth of a litre. In these instances, do not record the last red digit.

Numbers and clock meter

- Day one, record all numbers that you see here. Secondly, record numbers found here. Record the first three red dial numbers in a clockwise direction, that is, right to left. Note the time of day. **Both steps should provide you with a number similar to the diagram example 00030509.**
- Day two, repeat step one. Conduct this reading at the same time as you did the reading on day one.
- Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Day one:

Record numbers from your water meter as per instructions above.

_____.L

Day two:

At the same time as day one, record numbers from your water meter as per instructions above.

_____.L

Subtract the number found on day one from the number found on day two.

_____.L

This is your household's daily water usage.

Frequently asked questions

Can I put batteries in my bin?

Batteries should never be put into your household bins. When compressed they cause sparks that may start a fire in waste trucks, which can spread to other vehicles. Rechargeable and lithium ion batteries and those in laptops, mobile phones, power tools and cameras should be disposed of responsibly. Our Waste and Recycling Centres accept batteries, as do major retailers like supermarkets and hardware stores through the B-cycle scheme.

Find a leak and fix it fast

Your quick attention to water leaks can help reduce water loss and wastage, and damage to your property. We recommend you regularly check your water meter to detect a concealed leak early. Not all water leaks are visible. See page 2 of this bill for instructions on how to read your meter. Attend to any leaks as soon as possible to avoid water loss, property damage or receiving a high water notice.

cityofgoldcoast.com.au/waterleaks

What's that smell?

Lush green mangrove forests fringe our coastal waterways and cover mud islands in our open estuaries, an important part of our local ecosystem.

From May to November some people find them a little less than magnificent when mangroves typically drop their seeds resulting in an unpleasant odour as the material breaks down.

This is a sign of a healthy mangrove forest as it signifies that leaf litter is being effectively recycled into the complex food web providing food and habitat for fish and aquatic fauna.

WATER METER READINGS

Meter Number	Current Read Date	Current Reading	Previous Read Date	Previous Reading	#Days Charged	Cons (kL)
11E002824	8 JUN 23	15472	7 MAR 23	15115	93	357
TOTAL(kL)						357

Your Scheme's average daily water usage = 3838 litres (or 3.838 kL)

Your total average daily cost = \$4.07

The property's water usage may be influenced by a number of factors including number of occupants, property type, property size and own water use behaviours. If you're concerned about your usage, visit cityofgoldcoast.com.au/waterleaks for instructions on how to check for concealed leaks.

In accordance with the *Local Government Act 2009*, *Local Government Regulation 2012*, *South East Queensland Water (Distribution and Retail Restructuring) Act 2009*, *Water and Wastewater Services Code for small customers in South East Queensland* and Council of the City of Gold Coast's (Council) adopted budget resolutions, all water and sewerage charges are due and payable within 31 days of the issue of the water and sewerage rate notice on which the charges are levied. Any overdue amounts will attract penalty interest at the appropriate rate until either full payment (including the interest) is made or a satisfactory payment arrangement is approved by Council.

Green Organics expansion

The City's Green Organics Service is expanding!

In 2023-24, all single detached dwellings between 250 m² and 5000 m² across the Gold Coast will receive a green organics bin (with exemptions available where appropriate).

All new and existing Green Organics Service customers will receive a rebate in the first year (2023-24) (for the first bin only). This is one way the City is reducing the impacts of the State Government Waste Levy.

For more information please visit cityofgoldcoast.com.au/greenorganicsbin or scan the QR code.
