

Total superannuation balance

Your client's total superannuation balance is used to determine their eligibility to make contributions, receive co-contributions, and their spouse's eligibility to claim a tax offset for spouse contributions they make. For your clients who are members of a self-managed super fund, or small APRA fund, the trustee of the fund will also use their members' total superannuation balance to determine whether the segregated assets method can be used to calculate exempt current pension income.
