

EAGLE PARK PTY LTD
ATF BINGHAM SUPERANNUATION FUND
INVESTMENT POLICY

Established April 2012 reviewed January 2014

The trustees have developed an investment policy that they believe is appropriate to the management of the fund's assets taking into account the nature of the membership.

Investment Objectives

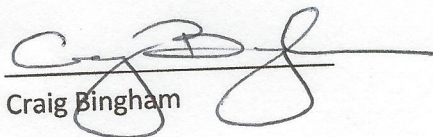

The trustees have established the following investment objectives for the fund:-

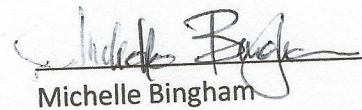

- a) To invest funds in an appropriate manner to achieve net returns which exceed the rate of inflation (CPI) by an average of 4% over a three year period.
- b) To focus on growth style investments where appropriate.
- c) In uncertain market conditions to be prepared to focus on capital preservation.

Investment Strategy

- Maintain an investment portfolio strategy which will have due concern to risk as considered appropriate to the membership profile.
- The following parameters are placed on the proportion of total fund assets that can be invested in each asset class. The minimum and maximum ranges enable to the Trustees and Investment Managers ample scope to amend asset allocation to take account of changes in economic climate and in keeping with member profiles.

Asset Class	Min %	Max %
Cash	5	100
Fixed Interest	0	50
Australian Equities	0	80
International Equities	0	80
Property/Property Trusts	0	80
