I understand that as an individual trustee or director of the corporate trustee of

Fund name

I am responsible for ensuring that the fund complies with the *Superannuation Industry (Supervision) Act 1993* (SISA) and other relevant legislation. The Commissioner of Taxation (the Commissioner) has the authority and responsibility for administering the legislation and enforcing the fund's compliance with the law.

I must keep myself informed of changes to the legislation relevant to the operation of my fund and ensure the trust deed is kept up to date in accordance with the law and the needs of the members.

If I do not comply with the legislation, the Commissioner may take the following actions:

- impose administrative penalties on me
- enter into agreements with me to rectify any contraventions of the legislation
- disqualify me from being a trustee or director of a corporate trustee of any superannuation fund in the future
- remove the fund's complying status, which may result in significant adverse tax consequences for the fund
- prosecute me under the law, which may result in fines or imprisonment.

SOLE PURPOSE

I understand it is my responsibility to ensure the fund is only maintained for the purpose of providing benefits to the members upon their retirement (or attainment of a certain age) or their beneficiaries if a member dies. I understand that I should regularly evaluate whether the fund continues to be the appropriate vehicle to meet this purpose.

TRUSTEE DUTIES

I understand that by law I must at all times:

- act honestly in all matters concerning the fund
- exercise skill, care and diligence in managing the fund
- act in the best interests of all the members of the fund
- ensure that members only access their super benefits if they have met a legitimate condition of release
- refrain from entering into transactions that circumvent restrictions on the payment of benefits
- ensure that my money and other assets are kept separate from the money and other assets of the fund
- take appropriate action to protect the fund's assets (for example, have sufficient evidence of the ownership of fund assets)
- refrain from entering into any contract or do anything that would prevent me from, or hinder me in, properly performing or exercising my functions or powers as a trustee or director of the corporate trustee of the fund
- allow all members of the fund to have access to information and documents as required, including details about
 - the financial situation of the fund
 - the investments of the fund
 - the members' benefit entitlements.

I also understand that by law I must prepare, implement and regularly review an investment strategy having regard to all the circumstances of the fund, which include, but are not limited to:

- the risks associated with the fund's investments
- the likely return from investments, taking into account the fund's objectives and expected cash flow requirements
- investment diversity and the fund's exposure to risk due to inadequate diversification
- the liquidity of the fund's investments having regard to the fund's expected cash flow requirements in discharging its existing and prospective liabilities (including benefit payments)
- whether the trustees of the fund should hold insurance cover for one or more members of the fund.

Investment restrictions

I understand that, as a trustee or director of the corporate trustee of the fund, subject to certain limited exceptions specified in the law, I am prohibited from:

- lending money of the fund to, or providing financial assistance to, a member of the fund or a member's relative (financial assistance means any assistance that improves the financial position of a person directly or indirectly, including the provision of credit)
- acquiring assets (other than business real property, listed securities, certain in-house assets and acquisitions made under mergers allowed by special determinations or acquisitions as a result of a breakdown of a relationship) for the fund from members or other related parties of the fund
- borrowing money (or maintaining an existing borrowing) on behalf of the fund except in certain limited circumstances (while limited recourse borrowing arrangements are permitted, they can be complex and particular conditions must be met to ensure that legal requirements are not breached)

- having more than 5% of the market value of the fund's total assets at the end of the income year as in-house assets (these are loans to, or investments in, related parties of the fund – including trusts – or assets subject to a lease or lease arrangement between the trustee and a member, relative or other related party)
- entering into investments on behalf of the fund that are not made or maintained on an arm's length (commercial) basis (this ensures the purchase or sale price of the fund's assets and any earnings from those assets reflects their market value).

Accepting contributions and paying benefits

I understand that I can only accept contributions and pay benefits (income streams or lump sums) to members or their beneficiaries when the conditions specified in the law and the fund trust deed have been met.

Administration

I understand that the trustees of the fund must:

- keep and retain for at least 10 years
 - minutes of all trustee meetings at which matters affecting the fund were considered (this includes investment decisions and decisions to appoint members and trustees)
 - records of all changes of trustees, including directors of the corporate trustee
 - each trustee's consent to be appointed as a trustee of the fund or a director of the corporate trustee
 - all trustee declarations
 - copies of all reports given to members
- ensure that the following are prepared and retained for at least five years
 - an annual statement of the financial position of the fund
 - an annual operating statement
 - copies of all annual returns lodged
 - accounts and statements that accurately record and explain the transactions and financial position of the fund
- ensure that an approved auditor is appointed within the prescribed period (currently this is no later than 31 days before the due date for lodgment of the fund's annual return but this may change to 45 days) to audit the fund for each income year, and provide that auditor with documents as requested
- lodge the fund's annual return, completed in its entirety, by the due date
- notify the ATO within 28 days of any changes to the
 - membership of the fund, or trustees or directors of the corporate trustee
 - name of the fund
 - contact person and their contact details
 - postal address, registered address or address for service of notices for the fund
- notify the ATO in writing within 28 days of the fund being wound up or after becoming aware that the fund has ceased to be an SMSF.

DECLARATION

By signing this declaration I acknowledge that I understand my duties and responsibilities as a trustee or director of the corporate trustee of the self-managed superannuation fund named on this declaration (or if the fund's name changes, that name). I understand that:

- *I must ensure this document is retained for at least 10 years or while I remain a trustee or director of the corporate trustee (whichever is longer) and, if I fail to do this, penalties may apply.*
- *I may have to make this document available for inspection by a member of staff of the ATO and, if I fail to do this, penalties may apply.*
- *I do not have access to the government's financial assistance program that is available to trustees of Australian Prudential Regulation Authority (APRA) regulated funds in the case of financial loss due to fraudulent conduct or theft.*

IMPORTANT NOTICE FOR BINDING NOMINATIONS

In order to be effective, a binding nomination must be signed by 2 witnesses who are at least 18 years old and who are not named in this nomination form. Also, in order to have effect, this form must be delivered to the Trustee.

You may only nominate dependants or legal personal representatives.

A binding nomination is effective for 3 years after the day it was first signed or last confirmed or amended by the member. If you wish to confirm your nomination (to avoid it ceasing to have effect after 3 years) you may do so by providing a signed notice to that effect to the Trustee every 3 years.

Your binding nomination will also cease to have effect if you subsequently marry, remarry or divorce.

If you wish to amend or revoke your binding nomination you may do so by providing a notice to that effect to the Trustee, witnessed in the same manner as your original nomination (by two persons over the age of 18 years who are not named in the nomination form).

If a dependant nominated to receive a benefit predeceases the member or if a person nominated is not a dependant or legal personal representative at the time of the death of the member, that person’s benefit will be distributed equally amongst the surviving nominated dependants or nominated personal legal representatives. If there are no surviving nominated dependants or a nominated legal personal representative it will be paid in accordance with the Trustee’s discretion.

- < If you fail to specify any proportion, the benefit will be distributed equally among those persons nominated who are eligible to receive a benefit. If you do nominate percentages in respect of all nominated persons but the sum of the percentages is other than 100%, the percentages will be adjusted proportionately.
- < If you specify a proportion in respect of some but not all of the nominated persons, the residual amount will be distributed equally amongst those nominated persons in respect of whom no proportion is specified. In the event there is no residual amount, no benefit will be paid to those persons in respect of whom no proportion is specified.

I wish to make a **binding nomination** so that the benefit payable in the event of my death will be distributed in accordance with this form.

WARNING

It is a Superannuation Law requirement that the trustee formulate an investment strategy for the Fund. That is a specific plan for making, holding and realising Fund investments which reflects the Fund's objectives and circumstances.

The failure to have a documented investment strategy in place may leave the Trustee open to a fine of up to \$10,000 for individual Trustees or \$50,000 for Corporate Trustees and may put at risk the complying nature of the Fund which could result in the assets of the fund being subject to a penalty tax.

The Trustee must formulate and give effect to an investment strategy having regard to the needs and objectives of the members.

A suggested investment strategy is attached.

INVESTMENT STRATEGY

The Trustee of the Superannuation Fund, taking into account all the circumstances of the Fund including:

- (a) parity of risk and projected return from Fund's investment with its objectives and expected cash flow requirements.
- (b) adequate diversification of the Fund's investments across asset sectors
- (c) the Fund's liquidity levels necessary to service expected cash requirements
- (d) the ability of the Fund to discharge its existing and future liabilities

and taking into account

- (e) that a strategy should specify what portion of the Fund monies are invested in particular asset classes
- (f) that whilst diversification is generally desirable, in the early stages of Fund when a Fund has limited money to invest, it is difficult to achieve a broad diversification, and
- (g) that it may be desirable for the Fund to provide life and or disability insurance for its Members

DETERMINES THAT THE INVESTMENT STRATEGY OF THIS FUND IS:

To obtain a real rate of return, after tax and inflation, of% over a 5 year period in a mix of cash, shares and real estate with the intention of avoiding a negative return in any year.

Investments will be made in the following proportions of Fund monies:

- * cash -% to%
- * shares - zero to%
- * property - zero to%
- * insurance policies - zero to%

The Following life/disability insurance shall be provided for the Members and paid for from the particular Member's account from time to time (at the request of the Members):

.....
.....

The Investment Strategy will be implemented in a way that will allow sufficient liquidity so that cash flow meets the Fund's existing and future liabilities having regard generally to the Superannuation Law and to any directive that may from time to time be made by the Insurance and Superannuation Commissioner.

This strategy must be reviewed regularly and at least once each year.

INTRODUCTION

This document establishes a Self Managed Superannuation Fund which commenced on the date specified in the Schedule.

This is a Self Managed Superannuation Fund established and maintained to provide benefits in the form of a lump sum payment or an old age pension for its Members upon retirement and for the Dependants of Members upon the death of Members. It permits the payment of benefits to other persons connected with Members in certain circumstances.

The Fund is intended to be a 'Regulated Superannuation Fund' and a 'Complying Superannuation Fund' as defined in the Superannuation Law and the Regulations made under that Act.

The intention of the Deed is to impose an obligation upon the Trustee and Manager of the Fund to manage the Fund in accordance with Superannuation Law for the benefit of Members and the Dependants of Members so that Members and their Dependants may take advantage of the benefits available to persons who contribute to Superannuation to provide for their retirement.

The primary (but not necessarily the sole) purpose of this Fund is the provision of benefits to a Member or a Member's Dependant upon retirement or death of a Member.

This document is intended as a general guide to the Trustee who should on all matters have recourse to professional advice concerning the particular requirements of the Superannuation Law.
