2021/22 Capital Gains Taxation Information Statement

*** *****676

The calculation of capital gains tax amounts is complex. Taxation considerations are general and based on present taxation laws and may be subject to change. This statement does not take into consideration your own personal tax circumstances and is not tax advice that should be relied upon. Colonial First State Investments Limited (CFSIL) is not a registered tax (financial) adviser under the Tax Agent Services Act 2009 and you should seek tax advice from a registered tax agent or a registered tax (financial) adviser if you intend to rely on this information to satisfy the liabilities or obligations or claim entitlements that arise under a tax law.

Before making any decision based on this statement, you should perform your own calculation of your capital gain or loss amount as this statement gives an estimate only. If you intend to rely on this statement to satisfy the liabilities or obligations or claim entitlements that arise, or could arise, under taxation laws, you should speak to your financial tax adviser who can assist you in calculating your capital gains or loss tax position.

Calculating your own capital gains or loss amount may potentially give you a different tax outcome if you are using a different parcel selection method. We have used the First In First Out (FIFO) parcel selection method which may not give you the best tax outcome for your personal tax circumstances. To assist you further in understanding this statement please refer to the Capital Gains Tax Information Statement Guide available on our website at www.cfs.com.au

PLEASE RETAIN THIS STATEMENT FOR INCOME TAX PURPOSES

This comes after the company provided an update regarding its shortfall bookbuild.

At the time of writing, the airline operator's shares are exchanging hands at 74 cents, down 6.33%.

Air New Zealand completes shortfall bookbuild

In a statement, Air New Zealand advised it has completed the shortfall bookbuild (https://www.fool.com.au/tickers/asx-aiz/announcements/2022-05-05/3a593062/air-nz-completes-shortfall-bookbuild/) component of its rights offer.

The two for one pro-rata renounceable rights offer is for shareholders who didn't take up shares in the company's recent capital raise (https://www.fool.com.au/definitions/capital-raising/).

Air New Zealand said the shortfall bookbuild was well supported by existing shareholders and new investors. It comprised approximately 274 million shares.

The price of NZ\$0.81 per share is a NZ\$0.28 premium above the offer price of NZ\$0.53 per share.

Eligible shareholders who elected not to take up their entitlements, as well as ineligible shareholders, will receive NZ\$0.28 for each share sold. Payment is expected to be made by Monday 16 May.

This concludes the company's NZ\$1.2 billion equity raise, which is comprised of the rights offer and the shortfall bookbuild. Air New Zealand will use the proceeds to repay its existing crown loan, strengthen its balance sheet (https://www.fool.com.au/investing-education/understanding-balance-sheets-and-pl-statements/), improve liquidity (https://www.fool.com.au/definitions/liquidity/), and help position the business for recovery.

Air New Zealand chair Dame Therese Walsh commented:

The Rights Offer was structured to provide all eligible Air New Zealand shareholders with a fair opportunity to participate in the equity raise or receive value for their rights.

We are delighted with the level of support shown for Air New Zealand by existing and new shareholders and to have been able to return value to those shareholders who did not or were ineligible to participate.

Air New Zealand share price summary

Since this time last year, Air New Zealand shares have lost 26% in value. The majority of these losses -19.5% – have come in 2022. The share price reached a 52-week low of 72.5 cents last month before moving in a sideways channel.

What do you need to do?

Review your Term Deposit and update your instructions if you want to make a change to these. You can do this at any point prior to maturity, or during the grace period. Prior to maturity, interest rates are indicative only, and may change before your maturity date.

As a guide if you chose to renew, based on your current term and balance as at the date of this notice (including any headline or special offers), the interest rate for the new term would be 0.03% p.a. This may change significantly by the time your Term Deposit matures. To confirm what the interest rate applied to the new term will be, contact us during the grace period so you can make changes if needed.

What are your maturity options?

You can:

- Renew your Term Deposit, with a wide variety of investment terms and the ability to add or withdraw funds
- Withdraw your funds in full and close your Term Deposit account
- Temporarily place your funds in a holding facility, a feature where you can renew or withdraw your funds without penalty until you decide your next move.

For the latest indicative interest rates, including rates for holding facility, go to www.commbank.com.au/tdrates

How to give us instructions

Log on to NetBank to provide instructions online, visit any CommBank branch, contact your Relationship Manager or Adviser or call **13 2221**.

If you **don't** provide us instructions, your Term Deposit will be automatically placed in the holding facility on your maturity date. Based on your current balance, the 7 day variable interest rate of 0.03% p.a. would apply. This rate may change by the time your Term Deposit matures.

If you forget to provide instructions before maturity, or just change your mind, don't worry - you have the **7 day grace period** from 22 February 2022 to 28 February 2022 to provide alternative renewal or withdrawal instructions without notice or penalty. This will take effect from 22 February 2022.

Dear Michael

Thank you for your email, to which we are responding in our capacity as Investor Relations adviser to NGM.

The last capital raise was priced at 6 pence per share in January 2021. There have been no capital raises since that date which would provide a more recent reference point for the value of NGM's shares for your accounting purposes. We therefore suggest using 6 pence multiplied by the number of shares you hold to calculate the current value of your shareholding.

Kind regards

Kate

I have perused the Financial Statements received of New Generation Minerals Limited

I am puzzled that it carries the word 'Limited' after its name and not 'PLC' (Public Limited Company) to indicate that it is a registered UK company (the financials have been converted to UK pounds)

Please could you check out

Michael,

Copying Mr Cowen into the email, I have attached the responses Vigo Communications sent you on 17 August and 19 August. Please be aware that your shares are held by New Generation Minerals Ltd (and no longer Trans Pacific Energy Group) after the successful acquisition of all of the TPE shares by NGM in January 2020.

Please ensure going forward, you email info@newgenerationminerals.com and not info@tpenergygroup.com

Important information about the statement

As the ETF is a managed investment scheme, Vanguard is required to give you a statement showing the performance of your investment in dollars every year and within six months of you selling all of your ETF units.

ASIC has issued Class Order 13/1200, which grants relief to ETF issuers so that where a unitholder has acquired or disposed of ETF Units during the period and the ETF issuer does not know the price at which the ETF Units were transferred, annual statements and exit statements do not need to include the amounts paid in relation to the transfer or the return on investment during the reporting period.

As the ETF is traded on ASX, Vanguard does not have access to the price at which you bought or sold your ETF units, the date when you traded or any brokerage costs, commissions or the spread between the bid and ask price. You can obtain this information from your broker or financial adviser. For this reason, if you purchased or sold ETF units during the period, your statement does not include the price of your ETF units or your investment return in dollars for this period.

To assess the performance and impact of fees and costs on your investment, in addition to this periodic statement, you need to consider:

- market prices for the ETF units when you bought or sold the units (available from your broker or financial adviser); and
- information you have been provided by your broker about brokerage costs, commissions and the spread between the bid price and the ask price.

This is not a statement of returns for tax purposes.

We will send you a separate taxation statement which contains the information you may need to complete your tax return.

Please retain this statement as a charge may be levied for a replacement.

investment value

The closing value of your investment is calculated using the unit price as at 30 June 2022, less the distribution paid this period (in cents per unit).

If your investment has not paid a distribution this period, we have used the unit price as at the date of this statement to calculate the closing value of your investment.

Statement notes

The following topics may be referenced in your statement:

We've made your fees and costs clearer

New laws aim to make it clearer for you to see the fees and costs you pay so we've changed the way your fees and costs are shown. We'd like you to know that we haven't increased your fees and costs or charged any new ones—we've just set out your existing fees and costs more clearly as follows.

In the **fees and costs summary** section, we've combined the previously shown fees and costs into two main groups:

- fees deducted directly from your account which are also shown in the transaction details section
- fees and costs deducted from your investment which have been deducted from the unit price of your investment option(s) and have reduced the return on your investment. This amount now includes net transaction costs that apply to all unit holders as well as any buy or sell spreads that apply when you buy or sell units in the relevant fund.

Investment allocation

The Current allocation % shows how your current investments have been allocated across your investment options (current as at 31 March 2022).

investment value

The closing value of your investment is calculated using the unit price as at 31 March 2022, less the distribution paid this period (in cents per unit).

If your investment has not paid a distribution this period, we have used the unit price as at the date of this statement to calculate the closing value of your investment.

Distribution details

The distribution paid to you is based on the number of units held before the current distribution is paid. So, we don't include the units that were added (by reinvested distributions) as a result of the current distribution.

The following topics may be referenced in your statement:

We've made your fees and costs clearer

New laws aim to make it clearer for you to see the fees and costs you pay so we've changed the way your fees and costs are shown. We'd like you to know that we haven't increased your fees and costs or charged any new ones—we've just set out your existing fees and costs more clearly as follows.

- fees and costs deducted from your investment which have been deducted from the unit price of your investment option(s) and have reduced the return on your investment. This amount now includes net transaction costs that apply to all unit holders as well as any buy or sell spreads that apply when you buy or sell units in the relevant fund.

investment allocation

The **Current allocation** % shows how your current investments have been allocated across your investment options (current as at 31 December 2021).

Investment value

The closing value of your investment is calculated using the unit price as at 31 December 2021, less the distribution paid this period (in cents per unit).

If your investment has not paid a distribution this period, we have used the unit price as at the date of this statement to calculate the closing value of your investment.

Distribution details

The distribution paid to you is based on the number of units held before the current distribution is paid. So, we don't include the units that were added (by reinvested distributions) as a result of the current distribution.

Statement notes

The following topics may be referenced in your statement:

We've made your fees and costs clearer

New laws aim to make it clearer for you to see the fees and costs you pay so we've changed the way your fees and costs are shown. We'd like you to know that we haven't increased your fees and costs or charged any new ones—we've just set out your existing fees and costs more clearly as follows.

In the **fees and costs summary** section, we've combined the previously shown fees and costs into two main groups:

- fees deducted directly from your account which are also shown in the transaction details section
- fees and costs deducted from your investment which have been deducted from the unit price of your investment option(s) and have reduced the return on your investment. This amount now includes net transaction costs that apply to all unit holders as well as any buy or sell spreads that apply when you buy or sell units in the relevant fund.

investment allocation

The **Current allocation** % shows how your current investments have been allocated across your investment options (current as at 30 September 2021).

Investment value

The closing value of your investment is calculated using the unit price as at 30 September 2021, less the distribution paid this period (in cents per unit).

If your investment has not paid a distribution this period, we have used the unit price as at the date of this statement to calculate the closing value of your investment.

Distribution details

The distribution paid to you is based on the number of units held before the current distribution is paid. So, we don't include the units that were added (by reinvested distributions) as a result of the current distribution.

Appendix 2 - Detailed Results

Tax Exempt Percentage

This actuarial certificate has been prepared to provide the tax exempt percentage applying to Exponential Nominees Superannuation Fund for the 2021/22 financial year.

During the 2021/22 financial year, the Fund contained only member accounts in accumulation phase and account based pensions. Therefore no assumptions about future inflation, investment returns or discount rates have been required to calculate the tax exempt percentage. Only data regarding the Fund's balances in accumulation phase and the Fund's balances in retirement phase plus details of transactions within, to and from the Fund during the year have been provided for this calculation.

Using the data supplied, we have calculated the tax exempt percentage based on the ratio below:

<u>Average value of current pension liabilities</u> Average value of superannuation liabilities

= \$1,965,931 / \$2,260,217

= 86.98%

The values for the current pension liabilities and the superannuation liabilities shown above are time weighted average balances over the financial year. Segregated current pension assets and segregated non-current assets (if any) have been excluded from the values shown above.

Member Breakdown

To assist you, we have also calculated the breakdown of the tax exempt percentage between the Fund's members, as follows:

| Member Name | Tax Exempt Percentage | Taxable Percentage |
|----------------|-----------------------|--------------------|
| Michael Ross | 60.00% | 2.09% |
| Jason Ross | 0.00% | 10.69% |
| Ann Ross | 26.98% | 0.00% |
| Annabelle Ross | 0.00% | 0.24% |
| Reserve | 0.00% | 0.00% |
| Total | 86.98% | 13.02% |

This breakdown between members is not required for the Fund's tax return, but may assist in other ways, for example with allocating the Fund's tax liabilities between members.

Actuarial Standards

This actuarial certificate has been prepared in accordance with Professional Standard 406 of the Institute of Actuaries of Australia.

Other Comments

We have been informed by the trustee and/or their advisors that the relevant pension liabilities meet the requirements to be considered a retirement phase superannuation income stream. We have relied upon this information in preparing this actuarial certificate.

As required under Professional Standard 406, we are satisfied that the value of particular liabilities of the Fund at a particular time as set out in this certificate is the amount of the Fund's assets, together with any future contributions in respect of the benefits concerned and expected earnings on the assets and contributions after that time, that would provide the amount required to discharge those liabilities as they fall due.

We also document the following information items provided to us, and upon which we have relied, when preparing this certificate:

| Item | Information Provided |
|---|----------------------|
| Does the Fund meet the definition of Disregarded Small Fund Assets for the tax year covered by this certificate? | No |
| Have the trustee(s) chosen (if eligible) to treat all of the assets of the fund as not being segregated current pension assets for the whole of the tax year covered by this certificate? | Yes |

Requirement for and Use of Actuarial Certification

This actuarial certificate is required so that the Fund can claim an exemption from tax on the investment income derived from the unsegregated assets supporting members' balances that are in retirement phase. The certificate should be obtained before the Fund submits its tax return. It does not need to be submitted with the Fund's tax return, but should be retained in the Fund's records.

An actuarial certificate is required for a Fund that has been partly in retirement phase and partly in accumulation phase during the year and which is not applying the segregated method throughout the year. Therefore an actuarial certificate is not required if:

- The Fund was entirely in accumulation phase for the whole of the tax year; or
- The Fund was entirely in retirement phase for the whole of the tax year; or
- The Fund's retirement phase assets and accumulation phase assets were fully segregated throughout the tax year.

The tax exempt percentage should be applied to the Fund's assessable income (excluding any non-arm's length income, concessional contributions and any income derived from segregated assets) to determine how much income is exempt from tax.

Projected Investment Strategy

Overview

The aim of this strategy is to provide the Members with an income on retirement.

Investment Objectives

The Trustee(s) will at all times ensure the funds assets are invested in accordance with the trust deed and comply with the applicable legislative requirements.

The Trustee(s) will act prudently to maximise the rate of return, subject to acceptable riskparameters whilst maintaining anappropriate diversification across a broad range of assets whilst assessing the risks where it is determined the fund's portfolio lacks diversification or has elected to implement a sector bias.

Having considered the risk profile of the fund and the member's needs and circumstances, the trustee has adopted the following object for the investment of assets of the fund;

- to achieve an investment return (based on market values and net of tax and charges) that exceeds the CPI by at least 3%pe annum when measured over a rolling 5 year period.
- to have a probability of zero or negative returns in any 12 Month period of less than one in five years; and
- have sufficient liquidity to meet liabilities as and when they fall due.
- to consider the need to hold a policy of insurance for one or more members of the fund.

Investment Strategy

The fund will invest in a portfolio of assets according to market conditions and within the ranges specified below:

Asset Allocation

The targeted asset allocation will be in the following ranges:

| Asset Class | Target Range | Benchmark |
|------------------------------|--------------|-----------|
| Australian Shares | 0-5% | 5 % |
| International Shares | 0-0% | 0 % |
| Cash | 0 - 5 % | 5 % |
| Australian Fixed Interest | 0 - 15 % | 15 % |
| International Fixed Interest | 0 - 0 % | 0 % |
| Mortgages | 0 - 0 % | 0% |
| Direct Property | 0-0% | 0 % |
| Listed Property | 0 - 0 % | 0 % |
| Other | 0 - 75 % | 75 % |
| Other | 0 - 75 % | 75 % |

Quality companies and trusts as supported by research and fundamental analysis will be selected. Direct investments in property, artwork and lease equipment may form part of the strategy provided there is sufficient basis for the decision.

The Trustees have considered and consulted Professional Advice where necessary to ensure that all fund members have the correcttype and level of insurance. Insurance may be held within or outside the SMSF.

Review and Monitoring

The trustees will monitor and review the fund's investment activities on a regular basis and to communicate with the members should the feel that any change in strategy is necessary in order to achieve the fund's objective.
