Section 2: Attribution Managed Investment Trust (AMIT) - Changes to report format

Attribution Managed Investment Trust (AMIT) - Report fields

The following information has been prepared to assist you in interpreting the AMIT related fields on your Investment Income Received (Annual Tax) report for 2023.

The AMIT related fields are labelled as follows:

- AMIT CBA - AMIT Cost Base Net Adjustment
- AMIT CGU - AMIT CGT Gross Up Amount
- Other Non Taxable - Non-Taxable/Non-Assessable Amounts

Please see below for an explanation of the new components.

Clients are strongly advised to obtain professional advice in regards to the tax treatment of the cost base adjustments, CGT Gross Up amounts and non-assessable/non-taxable amounts.

Please refer to the companies' websites and their FY2023 Tax Return Guides for further information.

AMIT Cost Base Net Adjustment

An attribution managed investment trust (AMIT) can make non-assessable payments to unit holders, which can affect the cost base or reduced cost base of your holding. If you receive non-assessable payments from an AMIT, the cost base and reduced cost base of your units may need to be adjusted upward or downward:

- A cost base reduction occurs when the actual payments received (or which you have a right to receive) from the AMIT (including any tax offsets) are greater than the amounts attributed to you by the AMIT (to be included in your assessable income).
- A cost base increase occurs when the amounts that have been attributed to you by the AMIT (to be included in your assessable income) are greater than the actual payments received (or which you have a right to receive).

The reduction and the increase amounts are netted off against each other to arrive at your 'cost base net adjustment amount', which is then applied to your asset cost base.

Note that these adjustments are automatically applied to your cost bases on the PARS platform, and are reflected in your 'Reduced Cost Base' on both the Unrealised Capital Gains and Realised Capital gains reports.

This value is provided in your Investment Income Received (Annual Tax) report under the "AMIT CBA" heading.

AMIT CGT Gross Up Amount

The AMIT CGT Gross Up amount is used to reconcile the total current year capital gains amount to be included on your tax return. AMIT CGT Gross Up amounts are generally present when the total current year capital gains attributed to you are not paid or are only partially paid. This amount is included in the AMIT cost base increase.

This value is provided in your Investment Income Received (Annual Tax) report under the "AMIT CGU" heading.

When completing Tax Return Label 18H (Total Current Year Capital Gains), the amounts provided under the following Investment Income Received (Annual Tax) report headings should be added:

- Discount Capital Gain
- Capital Gain Other
- CGT Concession
- AMIT CGU

Non-Taxable/Non-Assessable Amounts

These values consist of other non-attributable amounts, net exempt income and non-assessable non-exempt income that have been distributed to you. This may include the amounts previously known as tax-free amounts and tax deferred amounts (including returns of capital).

Non-assessable amounts are not assessable for income tax purposes, and are reflected in the AMIT cost base net adjustment amount.

For the purposes of these annual tax reports, the other non-attributable amounts represent the difference between cash distributions and other entitlements from an AMIT

to the amount of attribution income. These amounts may be a positive number or a negative number. To reconcile the actual payments received with the total reportable tax attribution value, the amounts provided under the following Investment Income Received (Annual Tax) report headings should be added:

- Gross Income
- Other Non Taxable

CGT event E10

Where a cost base reduction amount exceeds a cost base increase amount, the resulting cost base net adjustment amount reduces an asset's cost base or reduced cost base. If the net amount is greater than the cost base, it will reduce the cost base to nil, and any remaining excess will give rise to a capital gain as a result of CGT event E10.

Where the cost base increase amount exceeds the cost base reduction amount, the resulting cost base net adjustment amount increases your asset's cost base and reduced cost base. This will not trigger a CGT event; however, it may result in a reduced capital gain or increased capital loss in the future if you dispose of your CGT asset.

NCMI Components

'NCMI' tax components relate to income from a trust that is a Managed Investment Trust (MIT) that is classified as 'Non-Concessional MIT income' (NCMI). 'Excluded from NCMI' amounts are payments that would be NCMI payments were not for the application of transitional arrangements.

NCMI payments are subject to a withholding tax rate of 30% when paid to a non-resident. Standard withholding tax rates (those applicable after taking into account the investors country of residence) apply to these 'Excluded from NCMI' amounts.

In most instances, NCMI tax components are irrelevant to resident taxpayers. For this reason, NCMI payments, and excluded from NCMI payments, are added together and included under the 'Other Income' report field.

Section 3: General Taxation Treatment of Corporate Actions

i) New shares issued under Rights and Security/Share Purchase Plans

New Shares will be treated for the purposes of the capital gains tax (CGT) discount as having been acquired when the Eligible Shareholder exercised the Entitlement to subscribe for them. Accordingly, in order to benefit from the CGT discount in respect of a disposal of those Shares, they must have been held for at least 12 months after the date of exercise before the disposal occurs.

ii) Treatment of dividends

Dividends are taxable on the payment date. It is this date that will determine in which income year you include the dividend in your assessable income. Where the dividend is paid by cheque, it is deemed to have been paid to you on the date the cheque was posted and not on the date the cheque was received, banked or cleared.

iii) Treatment of distributions from trusts and managed funds

Distributions from trusts and managed funds are taxable on the date in which you become entitled to the distribution. This is usually the "ex-date". You should use the ex-date to determine which income year the distribution components are to be included in your assessable income. Some stapled securities pay both dividends and distributions. In this case we have split the income in our reports. The dividend component will generally be taxable in the year in which it is paid and the distribution component will generally be taxable in the year in which the security holder is entitled to receive the distribution.

For the purpose of our reports foreign dividends, foreign interest, passive foreign income and other foreign income have all been entered under the heading "Foreign Income". Any associated tax offsets have been entered under the heading "Foreign Tax Credits".

iv) Treatment of tax deferred amounts from trusts and managed funds

Tax deferred payments from trusts or managed funds do not contribute to assessable income. We have accounted for tax deferred amounts by adjusting the cost base or reduced cost base of your units for the tax deferred component of distributions you have received. If the tax deferred amount is greater than the cost base of your units, you need to include the excess as a capital gain.

Please note that this may not be applicable to your investments. If these corporate activities do not apply to you please disregard this Appendix .

v) Treatment of Returns of Capital

Return of capital amounts are generally not treated as assessable income. We have accounted for Return of Capital amounts by adjusting the cost base or reduced cost base of your shares or units for the Return of Capital amounts received. If the Return of Capital amount is greater than the cost base of your units, you need to include the excess as a capital gain.

vi) Retail premiums paid to shareholders where entitlements are not taken up or are not available.

The Australian Taxation Office (“ATO”) has issued Taxation Ruling TR 2017/4 dealing with taxation of rights granted, and retail premiums paid, to retail shareholders in connection with renounceable rights offers. The ruling is applicable where a shareholder was offered share entitlements which were not taken up and which expired, or when a shareholder was not offered share entitlements, and a retail premium was paid in respect of entitlements sold in the retail bookbuild process.

We have treated the retail premiums paid to shareholders for unexercised security entitlements as capital proceeds, in line with Part A of the ruling. These capital proceeds are eligible for the CGT discount where the eligible shareholders original shares have been held for 12 months or more.

However, shareholders who received a retail premium as described above should seek their own tax advice on the Australian taxation treatment of the retail premium in their income tax returns.

vii) Treatment of CGT rollover on Schemes of Arrangement

The methodology used in apportioning cost bases in schemes and takeovers where CGT rollover has been assumed is the relative value method. The values used in the relative value method are company or ATO provided values when available. If no value or price has been published the volume weighted average price (VWAP) of the securities traded on the ASX on the implementation date is used as a reasonable estimate.

viii) Treatment of Bonus Share Plans

Bonus shares issued under Bonus Share Plans have not been treated as income and not subject to imputation. Such ordinary shares are regarded as having been acquired at the same time as the existing holding for no extra cost and the cost of the existing holding then becomes the cost of the aggregate of the existing holding and the new ordinary shares. Shareholders are advised to seek independent tax advice to determine the potential impact of the bonus share plans.

ix) Managed Funds - AET and HUB Platform Holdings

Components reported may be different based on each custodian's method of calculating the underlying components associated with each investment and the methodology used by them to reconcile to the Fund Manager Statements issued for their particular holding.

Section 4: Additional Information

31 December 2022 Financial Year End

Where an entity has a Financial Year End 31 December 2022, your 2023 Annual Tax Report will include the distributions that fall within the calendar year ended 31 December 2022.

Non-Residents of Australia for Tax Purposes

The Australian Federal Government enacted a Non-Resident Withholding Tax regime also referred to as 12H Withholding tax. Foreign investors receiving distributions as “*Other Income*” may be able to claim a credit for the amount of tax withheld when they lodge an *Australian income tax return* in respect of their final tax liability. Please contact our office if you would like further information as to whether this may be applicable for you.

Exploration Development Incentive Credits (EDI Credits)

The Exploration Development Incentive Credits have been entered as Franking Credits. The correct tax treatment will however be dependent on the type of entity the shares have been registered under. Shareholders are strongly advised to obtain professional advice on the taxation of these credits. For further information, please refer to the ATO guide.
