Fees and Costs Summary Report

Donna Chen Investment Pty Ltd ATF Donna Chen Superannuation Fund

01-Jul-22 to 30-Jun-23

Report Key

Purpose: This report shows all fees and costs that have been incurred in relation to the MDA portfolio.

Fees deducted directly from your account

\$16,816.13

Not Applicable

This amount has been deducted directly from your account (reflected in the transactions listed on this statement).

Fees and costs deducted from your investment \$3,005.03

This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your investment and that are not reflected as transactions listed on this statement or in the Additional explanation of fees and costs.

Performance Fees

Amounts deducted from your investment in relation to the performance of product.

Additional explanation of fees and costs

Please note that the fees and costs include amounts that are payable to third parties for services that they provide. Please refer to our Financial Services Guide and Guide to Fees for further detail.

Fees deducted directly from your account comprise the Investment Management, Wealth Strategy and Administration Service fees that are detailed on the Portfolio Transaction Report.

Fees and costs deducted from your investment refer to the brokerage fee and GST on brokerage as itemised on the GST Purchase and Sale Report.

Further disclosure of the wealth strategy fee paid to First Samuel from your portfolio is provided in your annual fee disclosure statement (FDS). The fee is usually the same on both documents however amounts may differ due to different accounting periods.

Total fees and costs you paid

\$19,821.16

This approximate amount includes all the fees and costs that affected your investment during the period .

Report Key

Purpose: This report summarises the unrealised gains and losses for non-traditional securities held at the date of the report. The gains and losses are organised by security and purchase date.

Purchase Tax Date: The date the securities were acquired for tax purposes.

Total Gain / (Loss): The difference between the actual cost and the market value.

Tax Cost Base: The cost base for tax purposes. Has been modified to reflect brokerage costs (including GST) and other adjustments such as tax free distributions.

CGT Unrealised Gains / Losses: The difference between the market value and the applicable cost base.

Indexed Gain: Where applicable, shown as an alternative to, and in addition to, gross discount gain.

Estimated Net Capital Gain / (Loss): The optimal estimated net capital gain (net of available discount) based on current information for this portfolio at the date of this report. This calculation ignores the indexation method and does not take into account any other gains or loss which are external to this portfolio.

Report Key

Purpose: This report summarises the unrealised gains and losses for non-traditional securities held at the date of the report. The gains and losses are organised by security and purchase date.

Purchase Tax Date: The date the securities were acquired for tax purposes.

Total Gain / (Loss): The difference between the actual cost and the market value.

Tax Cost Base: The cost base for tax purposes. Has been modified to reflect brokerage costs (including GST) and other adjustments such as tax free distributions.

CGT Unrealised Gains / Losses: The difference between the market value and the applicable cost base.

Indexed Gain: Where applicable, shown as an alternative to, and in addition to, gross discount gain.

Estimated Net Capital Gain / (Loss): The optimal estimated net capital gain (net of available discount) based on current information for this portfolio at the date of this report. This calculation ignores the indexation method and does not take into account any other gains or loss which are external to this portfolio.

Report Key

Purpose: This report summarises the unrealised gains and losses for non-traditional securities held at the date of the report. The gains and losses are organised by security and purchase date.

Purchase Tax Date: The date the securities were acquired for tax purposes.

Total Gain / (Loss): The difference between the actual cost and the market value.

Tax Cost Base: The cost base for tax purposes. Has been modified to reflect brokerage costs (including GST) and other adjustments such as tax free distributions.

CGT Unrealised Gains / Losses: The difference between the market value and the applicable cost base.

Indexed Gain: Where applicable, shown as an alternative to, and in addition to, gross discount gain.

Estimated Net Capital Gain / (Loss): The optimal estimated net capital gain (net of available discount) based on current information for this portfolio at the date of this report. This calculation ignores the indexation method and does not take into account any other gains or loss which are external to this portfolio.

portfolio.

Report Key

Purpose: This report summarises the unrealised gains and losses for non-traditional securities held at the date of the report. The gains and losses are organised by security and purchase date.

Purchase Tax Date: The date the securities were acquired for tax purposes.

Total Gain / (Loss): The difference between the actual cost and the market value.

Tax Cost Base: The cost base for tax purposes. Has been modified to reflect brokerage costs (including GST) and other adjustments such as tax free distributions.

CGT Unrealised Gains / Losses: The difference between the market value and the applicable cost base.

Indexed Gain: Where applicable, shown as an alternative to, and in addition to, gross discount gain.

Estimated Net Capital Gain / (Loss): The optimal estimated net capital gain (net of available discount) based on current information for this portfolio at the date of this report. This calculation ignores the indexation method and does not take into account any other gains or loss which are external to this portfolio.

Purpose: This report summarises the unrealised gains and losses for non-traditional securities held at the date of the report. The gains and losses are organised by security and purchase date.

Purchase Tax Date: The date the securities were acquired for tax purposes.

Total Gain / (Loss): The difference between the actual cost and the market value.

Tax Cost Base: The cost base for tax purposes. Has been modified to reflect brokerage costs (including GST) and other adjustments such as tax free distributions.

CGT Unrealised Gains / Losses: The difference between the market value and the applicable cost base.

Indexed Gain: Where applicable, shown as an alternative to, and in addition to, gross discount gain.

Estimated Net Capital Gain / (Loss): The optimal estimated net capital gain (net of available discount) based on current information for this portfolio at the date of this report. This calculation ignores the indexation method and does not take into account any other gains or loss which are external to this portfolio.

NOTES TO THE PORTFOLIO REPORT FOR THE PERIOD ENDED 30 JUNE 2023

The Portfolio Report consists of the:

- Accountant's Pack,
- Taxation Reports, and
- Notes to the Portfolio Report.

Statement of Significant Accounting Policies

(a) Basis of Preparation

The Portfolio Report is a special purpose report prepared to satisfy the financial reporting preparation requirements of the Corporations Act 2001 applicable to Managed Discretionary Accounts and applicable Australian Accounting Standards as follows:

| ASIC Instrument 2016/968 | Managed Discretionary Accounts |
|--------------------------|---|
| Regulatory Guide 179 | Managed Discretionary Account Services |
| AASB 108 | Accounting Policies, Changes in Accounting Estimates and Errors |

No other Australian Accounting Standards or Australian Accounting Interpretations of the Australian Accounting Standards Board have been applied.

The Portfolio Report provides information relating only to assets included in the records of First Samuel Limited and does not take into account any external assets, income, gains or losses.

Information on non-managed investments has been included in the Portfolio Report at the request of portfolio owners. First Samuel Limited has no investment management responsibilities for these investments.

The Portfolio Report has been prepared on an accruals basis with financial assets stated at cost and fair market value.

(b) Taxation Reports

The Taxation Reports have been prepared using information from the records of First Samuel Limited together with data provided by external custodians, external investment managers, share registry managers and other sources of relevant information such as prospectuses, the Australian Taxation Office and the Australian Securities Exchange.

The information in the Taxation Reports relies on the information received from those parties and any assumptions or limitations in that information.

Capital gains are calculated using the parcel matching methodology shown in the notes to the capital gains tax reports.

All available Franking Credits have been included on the assumption that the owner of the asset is eligible, in particular that the conditions of the '45 day rule' have been met.

Independent Auditor's Report

To the Directors of First Samuel Limited regarding Donna Chen Investment Pty Ltd ATF Donna Chen Superannuation Fund.

Report on the Portfolio Report at 30 June 2023 and reports extracted electronically on an on-going basis ("the Reports")

We have audited the existence, completeness and valuation of the managed assets and transactions of the accompanying Portfolio Report, which comprises the Accountant's Pack, Taxation Report and accompanying notes for the year ended 30 June 2023, concerning the assets of Donna Chen Investment Pty Ltd ATF Donna Chen Superannuation Fund (the "User Entity") and reports extracted electronically on an on-going basis for which First Samuel Limited ("First Samuel") provides investment management services. The Portfolio Report for the year ended 30 June 2023 has been prepared by the Directors of First Samuel on the basis of preparation described in the Notes to the Portfolio Report.

Auditor's Opinion

In our opinion:

- (i) the internal controls and other procedures of First Samuel were suitably designed and operated effectively to ensure that the information provided in the Reports is not materially misstated;
- (ii) the information provided in the Reports of the User Entity, which is prepared on the basis of preparation described in the Notes to the Portfolio Report, presents fairly, in all material respects, the existence, completeness and valuation of the managed assets and transactions of the User Entity, for which First Samuel provides investment management services.

We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion. No uncorrected misstatements, other than amounts which are clearly trivial, have been identified during the course of our audit.

The Responsibility of the Directors for the Reports

First Samuel is responsible for providing investment management services to the User Entity. The Directors of First Samuel are responsible for the preparation and fair presentation of the Reports and have determined that the accounting policies described in the Notes to the Portfolio Report are appropriate to meet the financial reporting requirements of the investment management agreement and the Corporations Act 2001 applicable to managed discretionary accounts and the needs of the User Entity. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of the Reports that are free from material misstatement, whether due to fraud or error.

Morrows Audit Pty Ltd ABN 18 626 582 232 AAC 509944 Liability limited by a scheme approved under professional standards legislation

Independent Auditor's Report (continued)

Auditor's Responsibility

Our responsibility is to express an opinion on the existence, completeness and valuation of the managed assets and transactions in the Reports based on our audit. No opinion is expressed as to whether the accounting policies used as described in the Notes to the Portfolio Report are appropriate to meet the needs of the User Entity. We conducted our audit in accordance with Australian Auditing Standards. Those Standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Reports are free from material misstatement in respect of the specific audit assertions.

An audit of the existence, completeness and valuation of the managed assets and transactions in the Reports involves performing procedures to obtain audit evidence that the managed assets and transactions set out in the Reports exist, are complete, and have been appropriately valued in accordance with the accounting policies described in the Notes to the Portfolio Report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Reports in relation to specific assertions, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to First Samuel's preparation and fair presentation of the Reports in order to design audit procedures that are appropriate in the circumstances.

Limitations of Controls

Because of the inherent limitations of any internal control structure, it is possible that even if the controls are suitably designed and operating effectively, the control objectives may not be achieved and so fraud, error, or non-compliance with laws and regulations may occur and not be detected. An audit engagement on operating effectiveness of controls is not designed to detect all instances of controls operating ineffectively as it is not performed continuously throughout the period and the tests performed are on a sample basis.

Basis of Accounting and Restriction on Distribution

Without modifying our opinion, we draw attention to the Notes to the Portfolio Report, which describes the basis of accounting. The Reports have been prepared by First Samuel for distribution to the trustee/responsible entity of the User Entity. As a result, the Reports may not be suitable for another purpose. Our report is intended solely for First Samuel, the trustee/responsible entity of the User Entity and their Auditor and should not be distributed to any other parties or used for any other purpose other than that for which they are prepared.

2023 Client Portfolio Reports Notes for Accountants

Introduction

These notes have been prepared to assist Accountants of clients of First Samuel Limited in their interpretation and use of the client Portfolio Reports for the year ended 30 June 2023.

As First Samuel manages each client's portfolio individually, not all information included in this document will be relevant to every client.

If you have any questions regarding the reports for your client(s), please contact Makellan Bootes at <u>makellan.bootes@firstsamuel.com.au</u> or on 03 8610 9222.

Basis of Preparation

Portfolio Reports have been prepared using information from the records of First Samuel together with data provided by external custodians, investment managers, share registry managers and other sources of relevant information such as prospectuses, the ATO and the Australian Securities Exchange.

In particular, the information in the Taxation Reports reflects the information received from those external parties and any assumptions or limitations in that information.

Contents:

| 1. | Reporting of franked dividends2 |
|-----|--|
| 2. | AMIT/AMMA tax reporting regime2 |
| 3. | Capital Gains components of income 2 |
| 4. | Capital Gains resulting from a Return of Capital2 |
| 5. | Asset Class Cash allocations (AFI, ALT, EQUITY & PROP)2 |
| 6. | ANZ V2 Non-Managed (CASHV2_NM.UNL) |
| 7. | Investment income received |
| 8. | Taxation reporting of 'Traditional Securities' 4 |
| 9. | Foreign sourced income – Foreign withholding & FATCA tax5 |
| 10. | Australian Non-Resident withholding tax5 |
| 11. | Company reconstructions |
| 12. | Income reinvestment or capitalisation |
| 13. | Security Name and Code Changes |
| 14. | In Specie Transfers |
| 15. | Early Stage Venture Capital Limited Partnership (ESVCLP) & Taxation of Financial Arrangements (TOFA) |

1. Reporting of franked dividends

Franked dividends are reported on a gross basis, i.e. including the amount of attached imputation credits. This is consistent with general industry practice.

2. AMIT/AMMA tax reporting regime

Since 2018, a number of investment entities have elected to apply the Attribution Managed Investment Trust (AMIT) regime to their reporting. This regime requires investors to include on their tax returns income that was attributed to them in respect of the reporting period whether that income was received. In addition, new components relating to adjustments of cost bases have been introduced.

The tax components of investment income for entities that have adopted the new AMIT regime are reported on the *Investment Income Report* (against the securities to which they relate) based on data provided by those entities.

3. Capital Gains components of income

Where investment income includes components related to capital gains, the information reported to us (and reflected on our reports) assumes the entity entitled to the income is an individual Australian tax resident. For other entity types, e.g. a company, complying superannuation fund or trust, or for non-residents, the taxable gain will differ.

4. Capital Gains resulting from a Return of Capital

Income payments may include a return of capital which can be found on the *Investment Income Report* and the *Cash Ledger Reports* under *Capital Adjustments*. A capital return amount in excess of the security's original cost base is deemed a CGT event in the year received. It is recorded as a security with a nil cost base on the *Unrealised Capital Gains Tax Report*. Where the security was disposed in the same year, the reportable CGT detailed on the *Realised Capital Gains Tax Report* will only be the amount of capital required to bring the cost base to nil.

Securities with capital returns in FY23;:

HOLDCO.UNL - Australasian Foods Holdco Pty Ltd - Class B

Please refer to your client's cost base records to ascertain whether the return of capital triggers a tax liability in addition to the income received.

5. Asset Class Cash allocations (AFI, ALT, EQUITY & PROP)

From time to time our investment team may choose to hold cash in clients' portfolios over and above any agreed allocation to cash or amounts held for liquidity purposes. This represents a conscious, short-term decision to hold cash rather than securities within the Asset Classes usually owing to the absence of appropriate investment opportunities, volatile market conditions in any asset sector, or that there is a heightened risk of not meeting the Objective.

In order to fairly calculate and report investment performance for the above asset classes, the allocation to cash is included in the Australian Fixed Income, Alternative, Australian Equities, and Property asset allocations. This is done by creating separate cash securities under these Asset Classes.

When a new Cash Allocation is established, cash is recorded as a withdrawal from the ANZ V2 Cash security and a deposit to the corresponding Asset Class Cash Allocation security. These transactions can be seen on the *Portfolio Cash Ledger Report*.

The *Portfolio Appraisal* shows all cash sub accounts (under the corresponding Asset Class) and the ANZ V2 Cash security (under the category Cash and Equivalents) with their respective holdings at the date of the report.

However, no cash is actually moved from the ANZ V2 bank account as a result of this transaction as both the ANZ V2 Cash security and other cash securities are invested in the same underlying cash account with ANZ (V2 Plus Account).

When funds in the Sub Asset Class Cash Allocation are used for investment, cash is recorded as a withdrawal from the Asset Class Allocation security and a deposit to the ANZ V2 Cash security. Again, these transactions can be seen on the *Portfolio Cash Ledger Report* but no underlying cash movement occurs.

Interest Earned

The ANZ V2 Account pays the market rate of interest advertised by ANZ, plus a bonus amount of interest for clients of First Samuel. Interest is calculated daily and earned on the total amount held in each client's ANZ V2 bank account, regardless of which security is used to record the amount invested, i.e. interest is earned on the sum of the ANZ V2 Cash balance, Australian Fixed Income, Alternative, Australian Equities, and Property cash allocations plus any ANZ V2 Non-Managed balance (see below).

6. ANZ V2 Non-Managed (CASHV2_NM.UNL)

From time to time, we may be unable to immediately and fully invest clients' funds. This may be because market conditions are unfavourable or because of individual client circumstances. In these situations, a separate security is used to identify these amounts and to exclude them for fee purposes.

Accounting Treatment

Clients' cash that has been received into the ANZ V2 cash account, but not yet available for investment, is allocated to ANZ V2 Non-Managed (CASHV2_NM.UNL) and excluded for investment management fee calculation purposes.

When an amount is set aside, cash is recorded as a transfer out from the ANZ V2 Cash security and a transfer to the ANZ V2 Non-Managed security. These transactions can be seen on the *Portfolio Cash Ledger Report* under Transfer Out , Transfer In.

The *Portfolio Appraisal* shows the ANZ V2 Non-Managed security in addition to the ANZ V2 Cash security, with their respective holdings at the date of the report.

No cash is moved from the ANZ V2 bank account as a result of this transaction as both the ANZ V2 Cash security and the ANZ V2 Non-Managed security are invested in the same underlying cash account with ANZ (V2 Plus Account). In effect the split is a notional one reflected in each client's investment ledger maintained by First Samuel rather than any movement in the underlying investment.

When funds in the ANZ V2 Non-Managed allocation are used for investment, cash is recorded as a transfer out from the ANZ V2 Non-Managed security and a transfer to the ANZ V2 Cash security. Again, these transactions can be seen on the *Portfolio Cash Ledger Report* but no underlying cash movement occurs.

Superannuation Funds

Although the internal account transfers come under '*Contribution & Withdrawal*' in the *Portfolio Transaction Report* please note these are not monies going in or out of the accounts but internal entries and should not be recorded as contributions or pension/withdrawals from the fund.

7. Investment income received

Investment income comprises dividends, distributions and interest received on investments and cash deposits. For tax purposes, investment income is broken down into its various components based on data provided by external custodians, external investment managers, share registry managers and other sources of relevant information such as prospectuses and the Australian Securities Exchange.

Accounting Treatment

The cash amount of investment income received (i.e. after any tax withheld and before imputation credits) is included under *Investment Income Received* and either *Interest* or *Investment Income Declared* (as applicable) on the Portfolio Transaction Report.

Taxation Reporting

The tax components of investment income received are reported on the *Investment Income Report* (against the securities to which they relate) based on data provided by external custodians, external investment managers, share registry managers and other sources of relevant information such as prospectuses and the Australian Securities Exchange.

The information on the *Investment Income Report* relies on the information received from those parties and any assumptions or limitations in that information. Whilst First Samuel believes the information provided is correct, we cannot warrant this is the case. If users are unsure whether the information provided is correct, they should make their own enquiry or seek their own independent advice.

All available imputation credits have been included on the assumption that the owner of the asset is eligible; in particular that the conditions of the '45 day' rule have been met.

The *Investment Income Report* comprises separate sections for *Domestic Income* and *Foreign Income*. Where investment income has components that are reported on more than one page, the total of income received is repeated on the subsequent pages to allow it to be identified, however the total is not double counted. The sum of components in both the *Domestic* and *Foreign Income* sections comprise the total amount of investment income received.

8. Taxation reporting of 'Traditional Securities'

The ATO has provided guidance that income derived from traditional securities is taxable income while any gains or losses on disposal are taxed as 'Other Income' or 'Other Deductions', as applicable. That is, the disposal of a traditional security does not give rise to a capital gain or loss, and the normal CGT discount rules do not apply.

The ATO have further guided that the tax treatment of securities is determined by their underlying nature and not what they might be labelled by the company that issues them. Where required, we refer to the original prospectus and any further information available, e.g. ATO Class Rulings or information on the issuing company's website, to determine if a security is a 'traditional security' or not. Unless we are specifically aware of any further later information, we generally adopt the treatment set out in the prospectus.

Taxation Reporting

Income from traditional securities is reported on the *Investment Income Report* in the period in which it is taxable and is categorised based on information received from the custodian or the company, i.e. interest, franked dividend, etc.

Gains or losses on the disposal of traditional securities are reported on the *Capital Gains – Realised – Traditional Securities* report and categorised as either *Other Income* or *Other Deduction* as appropriate.

9. Foreign sourced income – Foreign withholding & FATCA tax

Investment income sourced from foreign domiciled companies may be subject to withholding tax in the applicable jurisdiction.

In addition, client entities that have holdings that earn income from the US and who have not submitted the required US tax declaration forms may have additional withholding tax (FATCA tax) deducted before that income is paid.

Taxation Reporting

Investment income received is reported on the *Investment Income Report* in the period in which it is taxable against the securities to which it relates. For foreign income, the related tax components are shown in the *Foreign Income Components* section of the *Investment Income Report* and any withholding tax deducted is shown under the category *Foreign W/Hold Tax*.

10. Australian Non-Resident withholding tax

Certain components of investment income earned by client entities that are non-resident for Australian tax purposes are paid after deduction of *Non-Resident Withholding Tax* (at various rates). Typically, this applies to unfranked dividends and interest.

Taxation Reporting

Income received that is subject to Australian Non-Resident Withholding Tax is included on the *Investment Income Report* against the applicable security and categorised by component. The amount of tax withheld from each payment is included under the heading *Non Resident W/Holding Tax* on the *Domestic Income Components* page.

11. Company reconstructions

When a company undergoes a capital reconstruction, typically a share or debt split or consolidation, the transaction is recorded as a sale of the affected securities for proceeds equal to their original purchase cost and a purchase on the same day of the required number of new securities at the same original cost.

Accounting Treatment

On the effective date of the reconstruction, a sale at the original cost of the number of old securities held on that date is included under *Sales* on the *Portfolio Transaction Report*. On the same date, a purchase of the required number of new securities (calculated based on the terms of the reconstruction, e.g. 5 for 1 or 2 for 3), at a cost equal to the original cost of the securities sold, is included under *Purchases* on the *Portfolio Transaction Report*. No actual cash transactions occur for either the sale or purchase.

Taxation Treatment

The sale transactions are reported on the *Capital Gains – Realised* report but do not give rise to any realised gain or loss as the sale is at cost. The tax cost base for the old securities is rolled forward into the tax cost base of the new securities and the year-end capital gains position is reported on the *Capital Gains – Unrealised* report.

Securities Affected in FY23: N/A

12. Income reinvestment or capitalisation

When income earned on a security is reinvested (in whole or part) in the same security, the transaction is recorded as both an income event and the purchase of additional shares or securities.

Accounting Treatment

The amount of income receivable is recorded under *Investment Income Received* on the *Portfolio Transaction Report* and as a notional deposit to the *Distribution Reinvestment Account* on the *Portfolio Cash Ledger Report*.

On the same date a notional withdrawal of the same amount is recorded from the *Distribution Reinvestment Account* on the *Portfolio Cash Ledger Report* and a purchase of additional securities recorded under *Purchases* on the *Portfolio Transaction Report*.

Taxation Reporting

Investment income receivable is reported on the *Investment Income Report* in the period in which it is taxable and categorised based on its nature, e.g. interest, franked dividend, etc.

13. Security Name and Code Changes

During the financial year the below company codes and/or names were updated. They may appear under both names/codes on our reports.

| Date | Old <u>Code</u> | Name | New <u>Code</u> | Name |
|--------|--------------------|--|--------------------|----------------------|
| 22-May | HT1 | HT&E Limited | A1N | ARN Media Limited |
| 1-Mar | ATC | Altech Chemicals Ltd | ATC | Altech Batteries Ltd |
| 28-Nov | SCP | Shopping Centres Australasia Property Group | RGN | Region Group |
| 28-Nov | HMC | Home Consortium Limited | НМС | HMC Capital Limited |

14. In Specie Transfers

Where assets have been transferred to the portfolio by way of an in-specie transfer, they are reported at the cost base that was advised by the client or transferring institution. Whilst First Samuel will endeavour to obtain supporting documentation to confirm the accuracy of this information, we cannot provide any warranties as to the accuracy of this historical data which should be confirmed to original data sources.

15. Early Stage Venture Capital Limited Partnership (ESVCLP) & Taxation of Financial Arrangements (TOFA)

If the portfolio has been invested in any of the holdings listed below, there will be additional tax letter(s) attached to the rear of these notes.

- Acorn Capital Expansion Fund I
- Acorn Captial Expansion Fund II
- Significant Early Venture Capital
- Co:Act Venture Capital Fund
- Mutual Credit Fund
- Mutual Income Fund

To Whom it may concern,

Re: Donna Chen Investment Pty Ltd ATF Donna Chen Superannuation Fund

After receiving external information we have been advised that you *may* be entitled to a tax offset for your investment(s) in **Early Stage Venture Capital Funds**.

Our CIO Craig Shepherd provides some background:

"Our investments in Early Stage Venture Capital Limited Partnerships (ESVCLP) have an added benefit for investors. The government provides a *tax offset of up to 10%* of the amount that is invested within the fund(s). The offset is designed to promote investment within early-stage innovative companies. There are a range of timing differences which mean there is not a perfect mapping between the amount we invest in the fund, and the total offset available in any given year.

The Investee Companies provides First Samuel with information regarding the total offset available. Although only relatively small holdings in most First Samuel portfolios, we note that over time this offset adds to the effective returns from the unique investment opportunities."

As such, you may be entitled to claim the following as a tax offset for the above portfolio:

| Acorn I Capital Expansion Fund | \$1.11 |
|---|----------|
| Acorn II Capital Expansion Fund | \$179.06 |
| Significant Early Venture Capital FY-23 | \$162.99 |
| Co:Act | \$335.33 |
| Total | \$678.49 |

For any unused portion, you may also be able to carry forward to future years.

The companies have advised that "if your interest is held as a beneficiary of a trust of as a partner of a separate partnership, the trustee of the trust of the partnership may determine how much of the offset you are entitled to receive".

For further information, please refer to: <u>https://www.ato.gov.au/Individuals/Tax-Return/2023/Supplementary-tax-return/Tax-offset-questions-T3-T9/T7-Early-stage-venture-capital-limited-partnership-2023/</u>

Investors should seek professional tax advice as to whether they can utilise and/or carry forward the tax offset for their own circumstances.

To Whom it may concern:

Re: Donna Chen Investment Pty Ltd ATF Donna Chen Superannuation Fund

You may have noticed that we have invested in *Mutual Funds* for you. Our long-term investment in this fund(s) provides strong diversification to your Income Securities' Sub-Portfolio. The fund invests in a range of debt instruments issued by the major Australian banks and other Australian Authorised Deposit-taking Institutions. One of the benefits of the diversification in the fund is its over-lapping multi-year exposures.

Concerning Taxation: you or your accountant, will need to report any Taxation of Financial Arrangement (TOFA) gains or losses from this investment.

The TOFA accounts for the tax implications of this structure. It has no impact on net returns, but rather the year in which taxes are paid.

The income received and the net realised profit or loss on the assets, are paid as distributions quarterly-- (i.e. this is cash funded and already reported on your *Investment Income Reports*.)

The change in accrual and the unrealised gains or losses while reflected in the daily unit price are not yet funded (i.e. not cash funded). This amount of change is picked up under TOFA.

We have broken down the gain and loss for the FY23 tax year below.

| Mutual Income Fund TOFA Gain | \$3.30 |
|------------------------------|---------|
| Mutual Credit Fund TOFA Gain | \$8.47 |
| Total TOFA Gain | \$11.77 |
| | |
| Mutual Income Fund TOFA Loss | \$4.28 |
| Mutual Credit Fund TOFA Loss | \$4.49 |
| Total TOFA Loss | \$8.77 |

For further information, please refer to: <u>https://www.ato.gov.au/business/taxation-of-financial-arrangements-(tofa)/</u>

Independent tax advice is recommended to help determine your tax reporting

obligations.

Kind regards,

pa Cak
