The unit price that is used to value your holdings in a fund as at today's date, is a historic unit price, namely the last official unit price calculated for the fund. Please note, if you submit an application or withdrawal request in respect of a fund today, you will not receive this unit price because our funds are always forward priced. This means that when you submit an application or withdrawal request, you will not know the unit price (entry or exit price) that you will receive as it will only be calculated after your application or withdrawal request has been accepted by us.

- Capital gains distributed to non-residents may include both Australian and foreign capital gains; such gains continue to be exempt from Australian tax as they are not in relation to taxable Australian property. These capital gains are therefore labelled above as non-taxable Australian property (NTAP).
- (Australians Only) The amount in the 'Attribution (\$)' column needs to be increased by the AMIT CGT Gross Up Amount and offset by any capital losses you may choose to apply before applying your appropriate discount concession (ie 50% for individuals and trusts and 33.3% for complying superannuation entities).
- This represents the total amount of cash distributed in relation to all capital gains not already reflected in the capital gain amounts above.
- AMIT CGT Gross Up Amount represents the gross up of the Discount Capital Gains.

The AMIT cost base net amount is nil.
