### NATURAL SOY WAX

- Your natural soy wax candle may not reset with a smooth finish once lit. This is the way natural soy wax behaves and has no adverse effects on the performance of the candle. We do not add any additives to our wax that would assist in a smooth reset as we choose to provide a candle as natural as possible.
- Keep candles away from sunlight and heat sources - candles will lose their scent and may discolour when placed in direct sunlight. When burning many candles together, place them apart to prevent uneven burning.
- Never leave a lit candle burning unattended. Keep out of reach of children & pets. Avoid exposure to drafts & direct sunlight. Never burn candles on or near anything flammable. Always place on a stable, level & heat resistant surface. Handle with care as container & wax may become hot. Let the candle burn until the liquid reaches the side to leave to provide an even melt pool and never for more than 4 hours at a time. The first burn is the most important as it is a memory burn. Please ensure the melted wax pool reaches the edge of your vessel. Trim the wicks to approximately 7mm to ensure a clean candle burn & to prevent smoke and large flames.
- If you have a candle consisting of more than one wick please ensure all wicks are lit to prevent tunnelling of your candle.
- Do not burn your candle all the way to the bottom. Allow for 10mm of wax to remain in the bottom of your vessel to prevent risk of fire.
- Soy wax may bloom and expand over time and it is suggested that you use your candle within 6 months of purchase.
- Note: Due to a change in wick suppliers some candles that were previously double wicked may now be single wicked

### REED DIFFUSERS

- Do not swallow and keep out of reach of children and pets
- Do not allow liquid to come into contact with textiles or finished surfaces
- Wipe spills immediately with a damp cloth
- Do not spill on painted or porous surfaces
- Keep away from direct heat
- Rotate your reeds once a week for optimal performance of your reed diffuser

## Further Explanatory Notes:

- 1) CHESS Holding Statements are similar in form to a bank statement. They will detail those transactions that occurred in a calendar month and will progressively calculate the holding balance brought forward to the closing balance at the end of each month.
- 2) CHESS Holding Statements are only issued if there has been a change in your CHESS holding balance. You will receive a CHESS Statement shortly after the end of the month for each security in which a transaction changed your CHESS holding balance.
- 3) CHESS Holding Statements for holdings in renounceable rights registered in CHESS are not routinely issued. However, a statement for these securities or others can be requested through your CHESS Sponsor or the Share Registry, though they may charge you a fee.
- 4) An Ex or Cum status may appear if the transaction is processed between the Ex Date and the Record Date for a corporate action, i.e., the Ex Period. An entitlement will be included for a buyer when the status is Cum and for a seller when it is Ex. Contact your CHESS Sponsor for further details.
