Notes

¹ Date – The date of any purchases or sales of ETF units refers to the settlement date for the transaction. You can obtain the trade date from your broker or financial adviser.

² Unit Price – If you have purchased or sold units during the statement period, the unit price (Net Asset Value {NAV} as at close of business) and unit value (the number of units multiplied by the NAV) of your investment has not been included as Vanguard does not have access to the price at which you bought or sold your ETF units, the date when you traded or any brokerage costs, commissions or the spread between the bid and ask price. You can obtain this information from your broker or financial adviser.

³ Units Held – The number of units on register as at the close of business on the settlement date.

⁴ Unit Value – (rounded to nearest dollar) If you have purchased or sold units during the statement period, the unit price (Net Asset Value {NAV} as at close of business) and unit value (the number of units multiplied by the NAV) of your investment has not been included as Vanguard does not have access to the price at which you bought or sold your ETF units, the date when you traded or any brokerage costs, commissions or the spread between the bid and ask price. You can obtain this information from your broker or financial adviser.

⁵ Indirect cost of your investment – This approximate amount has been deducted from your investment and includes amounts that have reduced the return on your investment but are not charged directly to you as a fee. This includes the sum of the daily accrued management fee for each invested day.

⁶ Total fees paid – This approximate amount includes all the fees and costs which affected your investment during the period. These fees were deducted from the fund. This amount does not reflect the brokerage or the spread between the bid price (price at which investors are willing to buy) and the offer price (price at which investors are willing to sell) for ETF securities on the ASX.
