Notes to the Financial Statements

The D & L Brake Investment Trust For the year ended 30 June 2023

1. Statement of Significant Accounting Policies

The trustee has prepared the financial statements of the trust on the basis that the trust is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the trust deed, the information needs of stakeholders and for the basis of preparation of the income tax return. The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the purposes of preparation. Such accounting policies are consistent with the previous period unless stated otherwise. The financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes.

Property, Plant and Equipment

Property, plant and equipment is initially recorded at the cost of acquisition or fair value less, if applicable, any accumulated depreciation and impairment losses. Plant and equipment that has been contributed at no cost, or for nominal cost, is valued and recognised at the fair value of the asset at the date it is acquired.

Trade and Other Receivables

Trade receivables and other receivables, including distributions receivable, are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful debt has been created.

Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the trust that remain unpaid at 30 June. Trade payables are recognised at their transaction price. They are subject to normal credit terms and do not bear interest.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Revenue Recognition

Revenue from the sale of goods is recognised upon the delivery of goods to customers.
Revenue from the rendering of services is recognised upon the delivery of the services to customers.
Revenue from commissions is recognised upon delivery of services to customers.
Revenue from interest is recognised using the effective interest rate method.
Revenue from dividends is recognised when the entity has a right to receive the dividend.

All revenue is stated net of the amount of goods and services tax (GST).

Goods and Services Tax

Transactions are recognised net of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the balance sheet.

These notes should be read in conjunction with the attached compilation report.
