* The person issuing the statement must not be an APFS listed in section 6 or their employer/employee or direct associate.

Section 8: Annual fire safety statement declaration

I, THOMAS NORMOYLE (insert full name) being the: ☒ owner ☐ owner's agent

declare that:

- a) each essential fire safety measure specified in this statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing:
- i. in the case of an essential fire safety measure applicable by virtue of a fire safety schedule, to a standard no less than that specified in the schedule, or
 - ii. in the case of an essential fire safety measure applicable otherwise than by virtue of a fire safety schedule, to a standard no less than that to which the measure was originally designed and implemented, and
- b) the building has been inspected by an accredited practitioner (fire safety) and was found, when it was inspected, to be in a condition that did not disclose any grounds for a prosecution under Division 7 of Part 9 of the Regulation.

Owner/Agent Signature	Date issued
	20.12.2021

Section 9: Supplementary fire safety statement declaration

I, Click here (insert full name) being the: ☐ owner ☐ owner's agent

declare that each critical fire safety measure specified in the statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing to at least the standard required by the current fire safety schedule for the building for which this statement is issued.

Owner/Agent Signature	Date issued

Note:

A current fire safety schedule for the building must be attached to the statement in accordance with the Regulation.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

Please note:

The following information has been provided to help building owners complete the fire safety statement template and does not comprise part of the form. The following pages do not have to be displayed in the building and need not be submitted to the local council and the Commissioner of Fire and Rescue NSW.

General

- Please print in CAPITAL LETTERS and complete all relevant sections in full.
- A reference to 'the Regulation' is a reference to the *Environmental Planning and Assessment Regulation 2000*.
- An 'APFS' is an accredited practitioner (fire safety) as defined in clause 3 of the Regulation.
- The completed fire safety statement form must be submitted to both the local council and Fire and Rescue NSW.
- Please contact your local council for further information about how to submit the completed statement.
- Completed statements can be emailed to Fire and Rescue NSW at afss@fire.nsw.gov.au. Alternately, statements can be posted to Fire and Rescue NSW, Locked Bag 12, Greenacre NSW 2190. For further information about this process, please visit the 'Lodge a fire safety statement' page at www.fire.nsw.gov.au.
- As soon as practicable after issuing the fire safety statement, the building owner must display a copy (together with a copy of the current fire safety schedule) in a prominent location within the building.
- Further information about building fire safety is available on the 'Fire safety' page of the Department's website at www.planning.nsw.gov.au.

Section 1: Type of statement

- Mark the applicable box to identify if the statement being issued is an annual fire safety statement or a supplementary fire safety statement.
- An annual fire safety statement is issued under clause 175 of the Regulation and relates to each essential fire safety measure that applies to the building.
- A supplementary fire safety statement is issued under clause 176 of the Regulation and relates to each critical fire safety measure that applies to the building.

Section 2: Description of the building or part of the building

- Mark the applicable box to identify whether the statement relates to the whole building or part of the building.
- In addition to the address and other property identifiers, a brief description of the building or part is to be provided. This could include the use(s) of the building (e.g. retail, offices, residential, assembly, carparking), number of storeys (above and/or below ground), construction type or other relevant information.
- If the description relates to part of a building, the location of the part should be included in the description.

Section 3: Name and address of the owner(s) of the building or part of the building

- Provide the name and address of each owner of the building or part of the building.
- The owner of the building or part of the building could include individuals, a company, or an owner's corporation.

Section 4: Fire safety measures

- The purpose of this section is to identify all of the fire safety measures that apply to a building or part of a building.
- Fire safety measures include both essential fire safety measures and critical fire safety measures. They include items such as portable fire extinguishers, fire hydrants, fire sprinklers, fire detection and alarm systems and lightweight construction.
- Essential fire safety measures are those fire safety measures which are assessed on an annual basis, while critical fire safety measures are those which are required to be assessed at more regular intervals (as detailed on the fire safety schedule). These terms are defined in clause 165 of the Regulation.
- For annual fire safety statements, the table in section 4 must list each of the essential fire safety measures that apply to the building or part of the building and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within the 3 months prior to the date the annual fire safety statement is issued.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

- For supplementary fire safety statements, the table in section 4 must list each of the relevant critical fire safety measures that apply to the building or part and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within 1 month prior to the date the supplementary fire safety statement is issued.
- The accreditation number of the APFS who assessed a fire safety measure listed in section 4 must be nominated against the relevant measure(s) in the column titled 'APFS'. If the APFS is not required to hold accreditation, the name of the APFS must be listed. Further information relating to the accreditation of practitioners is provided at section 6.

Section 5: Inspection of fire exits and paths of travel to fire exits (Part 9 Division 7)

- This section applies only to an annual fire safety statement.
- The purpose of this section is to identify that an APFS has inspected the fire exits, fire safety notices, doors relating to fire exits and paths of travel to fire exits in the building or part of the building and found there has been no breach of Division 7 of Part 9 of the Regulation.
- The table in section 5 must detail the parts of the building that were inspected. The date(s) of the inspection(s) must be within the 3 months prior to the date the annual fire safety statement is issued.
- The accreditation number of the APFS who inspected the whole or part of the building listed in section 5 must be nominated against the relevant part in the column titled 'APFS'. Further information relating to the accreditation of practitioners is provided at section 6.

Section 6: Name and contact details of each accredited practitioner (fire safety) (APFS)

- An APFS is a person engaged by the building owner(s) to undertake the assessment of fire safety measures in section 4 and the inspection of the buildings exit systems in section 5 (for an annual fire safety statement).
- The purpose of this section is to record the name and contact details of each APFS who assessed a fire safety measure listed in section 4 or inspected the building or part of the building as specified in section 5.
- Each APFS listed in the table must also sign the fire safety statement. Alternatively, an APFS could provide the building owner or agent with a separate signed document to endorse the relevant part of the fire safety statement.
- The first industry accreditation scheme for APFS has been approved by the NSW Government.
- From July 1 2020, a building owner must select an APFS from a register of accredited practitioners. The accreditation number of each relevant APFS must be listed on the form.
- If the building owner has determined the competence of the APFS because the Commissioner for Fair Trading is satisfied there are no practitioners accredited under an industry approved accreditation scheme to assess a specific fire safety measure and has authorised the owner to do so, there is no requirement to include an accreditation number on the form.
- Further information about the approved industry accreditation schemes can be found on the 'Fire safety practitioners' page of the NSW Fair Trading website at www.fairtrading.nsw.gov.au.

Section 7: Name and contact details of the person issuing the statement

- The purpose of this section of the form is to detail the name and contact details of the person who is issuing the statement i.e. the person who completes and signs section 8 or section 9 of the form. This could be the owner(s) of the building or a nominated agent of the owner(s).
- Where a person issues the statement on behalf of an organisation (as the owner of the building), the name of the organisation and the title/position of the person must be provided. The person issuing the statement as a representative of the organisation must have the appropriate authority to do so.
- Where a person issues the statement on behalf of the owner(s) (as the owner's agent), this person must have the appropriate authority from the building owner(s) to undertake this function.
- In the case of a building with multiple owners, one owner may issue the statement, however each of the other owners must authorise the owner who issues the statement to act as their agent.
- The person issuing the statement must not be an APFS who is listed in section 6 or their employer/employee or direct associate. This recognises the different roles and responsibilities for building owner(s) and the APFS in the fire safety statement process. This is important because the Regulation makes building owners responsible for declaring that fire safety measures have been assessed and the building inspected (for the purposes of section 5) by an APFS. This ensures that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.
- In addition, only the building owner(s) can determine that a person is competent to perform the fire safety assessment functions where there is no person who holds accreditation. The building owner(s) are also responsible

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

for ensuring that essential fire safety measures are maintained in accordance with clause 182 of the Regulation. An agent cannot be made responsible for these requirements.

Section 8: Annual fire safety statement declaration

- The person completing this section is the person who is issuing the annual fire safety statement in accordance with clause 175 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- In issuing the statement, the building owner or agent is not declaring that each fire safety measure meets the minimum standard of performance, but rather that each fire safety measure has been assessed, and was found by an APFS to be capable of performing to that standard, as listed in section 4. In performing this function, the building owner or owner's agent could obtain documentation from each APFS to verify that the standard of performance has been met, prior to completing the form and issuing the statement.
- The person who issues the statement by completing section 8 or section 9 of the form must not be an APFS who was involved in the assessment of any of the fire safety measures, or inspection of the building for the purposes of the statement, or their employer/employee or direct associate. This is to ensure that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.

Section 9: Supplementary fire safety declaration

- The person completing this section is the person who is issuing the supplementary fire safety statement in accordance with clause 178 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- The information provided above in relation to section 8 on what the owner is declaring also applies to a supplementary fire safety statement.

LIVERPOOL CITY COUNCIL

Our Ref.:

ES-601

Date:

1 November 2021

SHEPHERD PROPERTY NOMINEE PTY LTD
61 GEORGE ST
LEPPINGTON NSW 2179

REMINDER TO SUBMIT YOUR ANNUAL FIRE SAFETY STATEMENT IN ACCORDANCE WITH THE ENVIRONMENTAL PLANNING AND ASSESSMENT REGULATION 2000

31 SHEPHERD STREET, LIVERPOOL NSW 2170
LOT 6 DP 247485

Dear Sir/Madam,

Please find attached your Annual Fire Safety Statement which is **due for submission to Council by 09-Feb-2022.**

You are reminded that a Fire Safety Statement that certifies all of the essential fire safety measures within the subject building or premises is to be completed and submitted to Council. To ensure these measures are maintained and operating in accordance with relevant standards they must be assessed and certified by an accredited practitioner (fire safety) (APFS).

A completed Annual Fire Safety Statement must be submitted to Council and to the Commissioner of the NSW Fire Brigades by no later than the date specified above. Furthermore, the statement must also be displayed in a prominent position within the main entrance foyer of the building.

Pursuant to Section 608 of the Local Government Act 1993, Council has adopted a **\$275.00 administration fee** for all Annual Fire Safety Statements. This fee must be paid upon lodgement of each statement.

Failure to provide an Annual Fire Safety Statement is an offence under the Environmental Planning and Assessment Regulation 2000, where the maximum penalty is \$1000 per week up to \$4000 for four (4) weeks or more. Further failure to submit an Annual Fire Safety Statement could also lead to legal proceedings in the Land and Environment Court, where the maximum penalty for a breach is \$110,000.00.

Further penalties may be incurred of \$580 for failing to display the Annual Fire Safety Statement and \$3000-\$6000 for failing to maintain the Essential Fire Safety measures.

The Essential Fire Safety Measures list attached is to be used as a guide only, it is the owner's responsibility to ensure that the measures installed and/or required to the property are properly maintained and certified to the Standard of performance to which they were installed.

PLEASE COMPLETE AND RETURN THE ATTACHED CERTIFICATE TO LIVERPOOL CITY COUNCIL BY THE DUE DATE.

The person issuing the statement must not be an APFS listed in section 6 or their employer/employee or direct associate.

Section 8: Annual fire safety statement declaration

I, THOMAS NORMOYLE (insert full name) being the: ☒ owner ☐ owner's agent

declare that:

- each essential fire safety measure specified in this statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing:
 - in the case of an essential fire safety measure applicable by virtue of a fire safety schedule, to a standard no less than that specified in the schedule, or
 - in the case of an essential fire safety measure applicable otherwise than by virtue of a fire safety schedule, to a standard no less than that to which the measure was originally designed and implemented, and
- the building has been inspected by an accredited practitioner (fire safety) and was found, when it was inspected, to be in a condition that did not disclose any grounds for a prosecution under Division 7 of Part 9 of the Regulation.

Owner/Agent Signature

Date issued

20.12.2021

Section 9: Supplementary fire safety statement declaration

I, Click here

(insert full name) being the: ☐ owner ☐ owner's agent

declare that each critical fire safety measure specified in the statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing to at least the standard required by the current fire safety schedule for the building for which this statement is issued.

Owner/Agent Signature

Date issued

Note:

A current fire safety schedule for the building must be attached to the statement in accordance with the Regulation.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

Please note:

The following information has been provided to help building owners complete the fire safety statement template and does not comprise part of the form. The following pages do not have to be displayed in the building and need not be submitted to the local council and the Commissioner of Fire and Rescue NSW.

General

- Please print in CAPITAL LETTERS and complete all relevant sections in full.
- A reference to 'the Regulation' is a reference to the *Environmental Planning and Assessment Regulation 2000*.
- An 'APFS' is an accredited practitioner (fire safety) as defined in clause 3 of the Regulation.
- The completed fire safety statement form must be submitted to both the local council and Fire and Rescue NSW.
- Please contact your local council for further information about how to submit the completed statement.
- Completed statements can be emailed to Fire and Rescue NSW at afss@fire.nsw.gov.au. Alternately, statements can be posted to Fire and Rescue NSW, Locked Bag 12, Greenacre NSW 2190. For further information about this process, please visit the 'Lodge a fire safety statement' page at www.fire.nsw.gov.au.
- As soon as practicable after issuing the fire safety statement, the building owner must display a copy (together with a copy of the current fire safety schedule) in a prominent location within the building.
- Further information about building fire safety is available on the 'Fire safety' page of the Department's website at www.planning.nsw.gov.au.

Section 1: Type of statement

- Mark the applicable box to identify if the statement being issued is an annual fire safety statement or a supplementary fire safety statement.
- An annual fire safety statement is issued under clause 175 of the Regulation and relates to each essential fire safety measure that applies to the building.
- A supplementary fire safety statement is issued under clause 178 of the Regulation and relates to each critical fire safety measure that applies to the building.

Section 2: Description of the building or part of the building

- Mark the applicable box to identify whether the statement relates to the whole building or part of the building.
- In addition to the address and other property identifiers, a brief description of the building or part is to be provided. This could include the use(s) of the building (e.g. retail, offices, residential, assembly, carparking), number of storeys (above and/or below ground), construction type or other relevant information.
- If the description relates to part of a building, the location of the part should be included in the description.

Section 3: Name and address of the owner(s) of the building or part of the building

- Provide the name and address of each owner of the building or part of the building.
- The owner of the building or part of the building could include individuals, a company, or an owner's corporation.

Section 4: Fire safety measures

- The purpose of this section is to identify all of the fire safety measures that apply to a building or part of a building.
- Fire safety measures include both essential fire safety measures and critical fire safety measures. They include items such as portable fire extinguishers, fire hydrants, fire sprinklers, fire detection and alarm systems and lightweight construction.
- Essential fire safety measures are those fire safety measures which are assessed on an annual basis, while critical fire safety measures are those which are required to be assessed at more regular intervals (as detailed on the fire safety schedule). These terms are defined in clause 165 of the Regulation.
- For annual fire safety statements, the table in section 4 must list each of the essential fire safety measures that apply to the building or part of the building and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within the 3 months prior to the date the annual fire safety statement is issued.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

- For supplementary fire safety statements, the table in section 4 must list each of the relevant critical fire safety measures that apply to the building or part and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within 1 month prior to the date the supplementary fire safety statement is issued.
- The accreditation number of the APFS who assessed a fire safety measure listed in section 4 must be nominated against the relevant measure(s) in the column titled 'APFS'. If the APFS is not required to hold accreditation, the name of the APFS must be listed. Further information relating to the accreditation of practitioners is provided at section 6.

Section 5: Inspection of fire exits and paths of travel to fire exits (Part 9 Division 7)

- This section applies only to an annual fire safety statement.
- The purpose of this section is to identify that an APFS has inspected the fire exits, fire safety notices, doors relating to fire exits and paths of travel to fire exits in the building or part of the building and found there has been no breach of Division 7 of Part 9 of the Regulation.
- The table in section 5 must detail the parts of the building that were inspected. The date(s) of the inspection(s) must be within the 3 months prior to the date the annual fire safety statement is issued.
- The accreditation number of the APFS who inspected the whole or part of the building listed in section 5 must be nominated against the relevant part in the column titled 'APFS'. Further information relating to the accreditation of practitioners is provided at section 6.

Section 6: Name and contact details of each accredited practitioner (fire safety) (APFS)

- An APFS is a person engaged by the building owner(s) to undertake the assessment of fire safety measures in section 4 and the inspection of the buildings exit systems in section 5 (for an annual fire safety statement).
- The purpose of this section is to record the name and contact details of each APFS who assessed a fire safety measure listed in section 4 or inspected the building or part of the building as specified in section 5.
- Each APFS listed in the table must also sign the fire safety statement. Alternatively, an APFS could provide the building owner or agent with a separate signed document to endorse the relevant part of the fire safety statement.
- The first industry accreditation scheme for APFS has been approved by the NSW Government.
- From July 1 2020, a building owner must select an APFS from a register of accredited practitioners. The accreditation number of each relevant APFS must be listed on the form.
- If the building owner has determined the competence of the APFS because the Commissioner for Fair Trading is satisfied there are no practitioners accredited under an industry approved accreditation scheme to assess a specific fire safety measure and has authorised the owner to do so, there is no requirement to include an accreditation number on the form.
- Further information about the approved industry accreditation schemes can be found on the 'Fire safety practitioners' page of the NSW Fair Trading website at www.fairtrading.nsw.gov.au.

Section 7: Name and contact details of the person issuing the statement

- The purpose of this section of the form is to detail the name and contact details of the person who is issuing the statement i.e. the person who completes and signs section 8 or section 9 of the form. This could be the owner(s) of the building or a nominated agent of the owner(s).
- Where a person issues the statement on behalf of an organisation (as the owner of the building), the name of the organisation and the title/position of the person must be provided. The person issuing the statement as a representative of the organisation must have the appropriate authority to do so.
- Where a person issues the statement on behalf of the owner(s) (as the owner's agent), this person must have the appropriate authority from the building owner(s) to undertake this function.
- In the case of a building with multiple owners, one owner may issue the statement, however each of the other owners must authorise the owner who issues the statement to act as their agent.
- The person issuing the statement must not be an APFS who is listed in section 6 or their employer/employee or direct associate. This recognises the different roles and responsibilities for building owner(s) and the APFS in the fire safety statement process. This is important because the Regulation makes building owners responsible for declaring that fire safety measures have been assessed and the building inspected (for the purposes of section 5) by an APFS. This ensures that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.
- In addition, only the building owner(s) can determine that a person is competent to perform the fire safety assessment functions where there is no person who holds accreditation. The building owner(s) are also responsible

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

for ensuring that essential fire safety measures are maintained in accordance with clause 182 of the Regulation. An agent cannot be made responsible for these requirements.

Section 8: Annual fire safety statement declaration

- The person completing this section is the person who is issuing the annual fire safety statement in accordance with clause 175 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- In issuing the statement, the building owner or agent is not declaring that each fire safety measure meets the minimum standard of performance, but rather that each fire safety measure has been assessed, and was found by an APFS to be capable of performing to that standard, as listed in section 4. In performing this function, the building owner or owner's agent could obtain documentation from each APFS to verify that the standard of performance has been met, prior to completing the form and issuing the statement.
- The person who issues the statement by completing section 8 or section 9 of the form must not be an APFS who was involved in the assessment of any of the fire safety measures, or inspection of the building for the purposes of the statement, or their employer/employee or direct associate. This is to ensure that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.

Section 9: Supplementary fire safety declaration

- The person completing this section is the person who is issuing the supplementary fire safety statement in accordance with clause 178 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- The information provided above in relation to section 8 on what the owner is declaring also applies to a supplementary fire safety statement.

Section 8: Annual fire safety statement declaration

I, THOMAS NORMOYLE (insert full name) being the: ☒ owner ☐ owner's agent

declare that:

- each essential fire safety measure specified in this statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing:
 - in the case of an essential fire safety measure applicable by virtue of a fire safety schedule, to a standard no less than that specified in the schedule, or
 - in the case of an essential fire safety measure applicable otherwise than by virtue of a fire safety schedule, to a standard no less than that to which the measure was originally designed and implemented, and
- the building has been inspected by an accredited practitioner (fire safety) and was found, when it was inspected, to be in a condition that did not disclose any grounds for a prosecution under Division 7 of Part 9 of the Regulation.

Owner/Agent Signature

Date issued

26/12/2021

Section 9: Supplementary fire safety statement declaration

I, Click here (insert full name) being the: ☐ owner ☐ owner's agent

declare that each critical fire safety measure specified in the statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing to at least the standard required by the current fire safety schedule for the building for which this statement is issued.

Owner/Agent Signature

Date issued

Note:

A current fire safety schedule for the building must be attached to the statement in accordance with the Regulation.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

Please note:

The following information has been provided to help building owners complete the fire safety statement template and does not comprise part of the form. The following pages do not have to be displayed in the building and need not be submitted to the local council and the Commissioner of Fire and Rescue NSW.

General

- Please print in CAPITAL LETTERS and complete all relevant sections in full.
- A reference to 'the Regulation' is a reference to the *Environmental Planning and Assessment Regulation 2000*.
- An 'APFS' is an accredited practitioner (fire safety) as defined in clause 3 of the Regulation.
- The completed fire safety statement form must be submitted to both the local council and Fire and Rescue NSW.
- Please contact your local council for further information about how to submit the completed statement.
- Completed statements can be emailed to Fire and Rescue NSW at afss@fire.nsw.gov.au. Alternately, statements can be posted to Fire and Rescue NSW, Locked Bag 12, Greenacre NSW 2190. For further information about this process, please visit the 'Lodge a fire safety statement' page at www.fire.nsw.gov.au.
- As soon as practicable after issuing the fire safety statement, the building owner must display a copy (together with a copy of the current fire safety schedule) in a prominent location within the building.
- Further information about building fire safety is available on the 'Fire safety' page of the Department's website at www.planning.nsw.gov.au.

Section 1: Type of statement

- Mark the applicable box to identify if the statement being issued is an annual fire safety statement or a supplementary fire safety statement.
- An annual fire safety statement is issued under clause 175 of the Regulation and relates to each essential fire safety measure that applies to the building.
- A supplementary fire safety statement is issued under clause 178 of the Regulation and relates to each critical fire safety measure that applies to the building.

Section 2: Description of the building or part of the building

- Mark the applicable box to identify whether the statement relates to the whole building or part of the building.
- In addition to the address and other property identifiers, a brief description of the building or part is to be provided. This could include the use(s) of the building (e.g. retail, offices, residential, assembly, carparking), number of storeys (above and/or below ground), construction type or other relevant information.
- If the description relates to part of a building, the location of the part should be included in the description.

Section 3: Name and address of the owner(s) of the building or part of the building

- Provide the name and address of each owner of the building or part of the building.
- The owner of the building or part of the building could include individuals, a company, or an owner's corporation.

Section 4: Fire safety measures

- The purpose of this section is to identify all of the fire safety measures that apply to a building or part of a building.
- Fire safety measures include both essential fire safety measures and critical fire safety measures. They include items such as portable fire extinguishers, fire hydrants, fire sprinklers, fire detection and alarm systems and lightweight construction.
- Essential fire safety measures are those fire safety measures which are assessed on an annual basis, while critical fire safety measures are those which are required to be assessed at more regular intervals (as detailed on the fire safety schedule). These terms are defined in clause 165 of the Regulation.
- For annual fire safety statements, the table in section 4 must list each of the essential fire safety measures that apply to the building or part of the building and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within the 3 months prior to the date the annual fire safety statement is issued.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

- For supplementary fire safety statements, the table in section 4 must list each of the relevant critical fire safety measures that apply to the building or part and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within 1 month prior to the date the supplementary fire safety statement is issued.
- The accreditation number of the APFS who assessed a fire safety measure listed in section 4 must be nominated against the relevant measure(s) in the column titled 'APFS'. If the APFS is not required to hold accreditation, the name of the APFS must be listed. Further information relating to the accreditation of practitioners is provided at section 6.

Section 5: Inspection of fire exits and paths of travel to fire exits (Part 9 Division 7)

- This section applies only to an annual fire safety statement.
- The purpose of this section is to identify that an APFS has inspected the fire exits, fire safety notices, doors relating to fire exits and paths of travel to fire exits in the building or part of the building and found there has been no breach of Division 7 of Part 9 of the Regulation.
- The table in section 5 must detail the parts of the building that were inspected. The date(s) of the inspection(s) must be within the 3 months prior to the date the annual fire safety statement is issued.
- The accreditation number of the APFS who inspected the whole or part of the building listed in section 5 must be nominated against the relevant part in the column titled 'APFS'. Further information relating to the accreditation of practitioners is provided at section 6.

Section 6: Name and contact details of each accredited practitioner (fire safety) (APFS)

- An APFS is a person engaged by the building owner(s) to undertake the assessment of fire safety measures in section 4 and the inspection of the buildings exit systems in section 5 (for an annual fire safety statement).
- The purpose of this section is to record the name and contact details of each APFS who assessed a fire safety measure listed in section 4 or inspected the building or part of the building as specified in section 5.
- Each APFS listed in the table must also sign the fire safety statement. Alternatively, an APFS could provide the building owner or agent with a separate signed document to endorse the relevant part of the fire safety statement.
- The first industry accreditation scheme for APFS has been approved by the NSW Government.
- From July 1 2020, a building owner must select an APFS from a register of accredited practitioners. The accreditation number of each relevant APFS must be listed on the form.
- If the building owner has determined the competence of the APFS because the Commissioner for Fair Trading is satisfied there are no practitioners accredited under an industry approved accreditation scheme to assess a specific fire safety measure and has authorised the owner to do so, there is no requirement to include an accreditation number on the form.
- Further information about the approved industry accreditation schemes can be found on the 'Fire safety practitioners' page of the NSW Fair Trading website at www.fairtrading.nsw.gov.au.

Section 7: Name and contact details of the person issuing the statement

- The purpose of this section of the form is to detail the name and contact details of the person who is issuing the statement i.e. the person who completes and signs section 8 or section 9 of the form. This could be the owner(s) of the building or a nominated agent of the owner(s).
- Where a person issues the statement on behalf of an organisation (as the owner of the building), the name of the organisation and the title/position of the person must be provided. The person issuing the statement as a representative of the organisation must have the appropriate authority to do so.
- Where a person issues the statement on behalf of the owner(s) (as the owner's agent), this person must have the appropriate authority from the building owner(s) to undertake this function.
- In the case of a building with multiple owners, one owner may issue the statement, however each of the other owners must authorise the owner who issues the statement to act as their agent.
- The person issuing the statement must not be an APFS who is listed in section 6 or their employer/employee or direct associate. This recognises the different roles and responsibilities for building owner(s) and the APFS in the fire safety statement process. This is important because the Regulation makes building owners responsible for declaring that fire safety measures have been assessed and the building inspected (for the purposes of section 5) by an APFS. This ensures that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.
- In addition, only the building owner(s) can determine that a person is competent to perform the fire safety assessment functions where there is no person who holds accreditation. The building owner(s) are also responsible

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

for ensuring that essential fire safety measures are maintained in accordance with clause 182 of the Regulation. An agent cannot be made responsible for these requirements.

Section 8: Annual fire safety statement declaration

- The person completing this section is the person who is issuing the annual fire safety statement in accordance with clause 175 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- In issuing the statement, the building owner or agent is not declaring that each fire safety measure meets the minimum standard of performance, but rather that each fire safety measure has been assessed, and was found by an APFS to be capable of performing to that standard, as listed in section 4. In performing this function, the building owner or owner's agent could obtain documentation from each APFS to verify that the standard of performance has been met, prior to completing the form and issuing the statement.
- The person who issues the statement by completing section 8 or section 9 of the form must not be an APFS who was involved in the assessment of any of the fire safety measures, or inspection of the building for the purposes of the statement, or their employer/employee or direct associate. This is to ensure that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.

Section 9: Supplementary fire safety declaration

- The person completing this section is the person who is issuing the supplementary fire safety statement in accordance with clause 178 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- The information provided above in relation to section 8 on what the owner is declaring also applies to a supplementary fire safety statement.

**REMINDER TO SUBMIT YOUR ANNUAL FIRE SAFETY STATEMENT IN ACCORDANCE
WITH THE ENVIRONMENTAL PLANNING AND ASSESSMENT REGULATION 2000**

**33 SHEPHERD STREET, LIVERPOOL NSW 2170
LOT 5 DP 247485**

Dear Sir/Madam,

Please find attached your Annual Fire Safety Statement which is **due for submission to Council by 29-Jan-2022.**

You are reminded that a Fire Safety Statement that certifies all of the essential fire safety measures within the subject building or premises is to be completed and submitted to Council. To ensure these measures are maintained and operating in accordance with relevant standards they must be assessed and certified by an accredited practitioner (fire safety) (APFS).

A completed Annual Fire Safety Statement must be submitted to Council and to the Commissioner of the NSW Fire Brigades by no later than the date specified above. Furthermore, the statement must also be displayed in a prominent position within the main entrance foyer of the building.

Pursuant to Section 608 of the Local Government Act 1993, Council has adopted a **\$275.00 administration fee** for all Annual Fire Safety Statements. This fee must be paid upon lodgement of each statement.

Failure to provide an Annual Fire Safety Statement is an offence under the Environmental Planning and Assessment Regulation 2000, where the maximum penalty is \$1000 per week up to \$4000 for four (4) weeks or more. Further failure to submit an Annual Fire Safety Statement could also lead to legal proceedings in the Land and Environment Court, where the maximum penalty for a breach is \$110,000.00.

Further penalties may be incurred of \$580 for failing to display the Annual Fire Safety Statement and \$3000-\$6000 for failing to maintain the Essential Fire Safety measures.

The Essential Fire Safety Measures list attached is to be used as a guide only, it is the owner's responsibility to ensure that the measures installed and/or required to the property are properly maintained and certified to the Standard of performance to which they were installed.

PLEASE COMPLETE AND RETURN THE ATTACHED CERTIFICATE TO LIVERPOOL CITY COUNCIL BY THE DUE DATE.

Section 9: Supplementary fire safety statement declaration

I, Click here (insert full name) being the: ☐ owner ☐ owner's agent

declare that each critical fire safety measure specified in the statement has been assessed by an accredited practitioner (fire safety) and was found, when it was assessed, to be capable of performing to at least the standard required by the current fire safety schedule for the building for which this statement is issued.

Owner/Agent Signature	Date issued

Note:

A current fire safety schedule for the building must be attached to the statement in accordance with the Regulation.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

Please note:

The following information has been provided to help building owners complete the fire safety statement template and does not comprise part of the form. The following pages do not have to be displayed in the building and need not be submitted to the local council and the Commissioner of Fire and Rescue NSW.

General

- Please print in CAPITAL LETTERS and complete all relevant sections in full.
- A reference to 'the Regulation' is a reference to the *Environmental Planning and Assessment Regulation 2000*.
- An 'APFS' is an accredited practitioner (fire safety) as defined in clause 3 of the Regulation.
- The completed fire safety statement form must be submitted to both the local council and Fire and Rescue NSW.
- Please contact your local council for further information about how to submit the completed statement.
- Completed statements can be emailed to Fire and Rescue NSW at afss@fire.nsw.gov.au. Alternately, statements can be posted to Fire and Rescue NSW, Locked Bag 12, Greenacre NSW 2190. For further information about this process, please visit the 'Lodge a fire safety statement' page at www.fire.nsw.gov.au.
- As soon as practicable after issuing the fire safety statement, the building owner must display a copy (together with a copy of the current fire safety schedule) in a prominent location within the building.
- Further information about building fire safety is available on the 'Fire safety' page of the Department's website at www.planning.nsw.gov.au.

Section 1: Type of statement

- Mark the applicable box to identify if the statement being issued is an annual fire safety statement or a supplementary fire safety statement.
- An annual fire safety statement is issued under clause 175 of the Regulation and relates to each essential fire safety measure that applies to the building.
- A supplementary fire safety statement is issued under clause 178 of the Regulation and relates to each critical fire safety measure that applies to the building.

Section 2: Description of the building or part of the building

- Mark the applicable box to identify whether the statement relates to the whole building or part of the building.
- In addition to the address and other property identifiers, a brief description of the building or part is to be provided. This could include the use(s) of the building (e.g. retail, offices, residential, assembly, carparking), number of storeys (above and/or below ground), construction type or other relevant information.
- If the description relates to part of a building, the location of the part should be included in the description.

Section 3: Name and address of the owner(s) of the building or part of the building

- Provide the name and address of each owner of the building or part of the building.
- The owner of the building or part of the building could include individuals, a company, or an owner's corporation.

Section 4: Fire safety measures

- The purpose of this section is to identify all of the fire safety measures that apply to a building or part of a building.
- Fire safety measures include both essential fire safety measures and critical fire safety measures. They include items such as portable fire extinguishers, fire hydrants, fire sprinklers, fire detection and alarm systems and lightweight construction.
- Essential fire safety measures are those fire safety measures which are assessed on an annual basis, while critical fire safety measures are those which are required to be assessed at more regular intervals (as detailed on the fire safety schedule). These terms are defined in clause 165 of the Regulation.
- For annual fire safety statements, the table in section 4 must list each of the essential fire safety measures that apply to the building or part of the building and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within the 3 months prior to the date the annual fire safety statement is issued.

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

- For supplementary fire safety statements, the table in section 4 must list each of the relevant critical fire safety measures that apply to the building or part and the relevant standard of performance. The date(s) on which these measures were assessed and inspected must be within 1 month prior to the date the supplementary fire safety statement is issued.
- The accreditation number of the APFS who assessed a fire safety measure listed in section 4 must be nominated against the relevant measure(s) in the column titled 'APFS'. If the APFS is not required to hold accreditation, the name of the APFS must be listed. Further information relating to the accreditation of practitioners is provided at section 6.

Section 5: Inspection of fire exits and paths of travel to fire exits (Part 9 Division 7)

- This section applies only to an annual fire safety statement.
- The purpose of this section is to identify that an APFS has inspected the fire exits, fire safety notices, doors relating to fire exits and paths of travel to fire exits in the building or part of the building and found there has been no breach of Division 7 of Part 9 of the Regulation.
- The table in section 5 must detail the parts of the building that were inspected. The date(s) of the inspection(s) must be within the 3 months prior to the date the annual fire safety statement is issued.
- The accreditation number of the APFS who inspected the whole or part of the building listed in section 5 must be nominated against the relevant part in the column titled 'APFS'. Further information relating to the accreditation of practitioners is provided at section 6.

Section 6: Name and contact details of each accredited practitioner (fire safety) (APFS)

- An APFS is a person engaged by the building owner(s) to undertake the assessment of fire safety measures in section 4 and the inspection of the buildings exit systems in section 5 (for an annual fire safety statement).
- The purpose of this section is to record the name and contact details of each APFS who assessed a fire safety measure listed in section 4 or inspected the building or part of the building as specified in section 5.
- Each APFS listed in the table must also sign the fire safety statement. Alternatively, an APFS could provide the building owner or agent with a separate signed document to endorse the relevant part of the fire safety statement.
- The first industry accreditation scheme for APFS has been approved by the NSW Government.
- From July 1 2020, a building owner must select an APFS from a register of accredited practitioners. The accreditation number of each relevant APFS must be listed on the form.
- If the building owner has determined the competence of the APFS because the Commissioner for Fair Trading is satisfied there are no practitioners accredited under an industry approved accreditation scheme to assess a specific fire safety measure and has authorised the owner to do so, there is no requirement to include an accreditation number on the form.
- Further information about the approved industry accreditation schemes can be found on the 'Fire safety practitioners' page of the NSW Fair Trading website at www.fairtrading.nsw.gov.au.

Section 7: Name and contact details of the person issuing the statement

- The purpose of this section of the form is to detail the name and contact details of the person who is issuing the statement i.e. the person who completes and signs section 8 or section 9 of the form. This could be the owner(s) of the building or a nominated agent of the owner(s).
- Where a person issues the statement on behalf of an organisation (as the owner of the building), the name of the organisation and the title/position of the person must be provided. The person issuing the statement as a representative of the organisation must have the appropriate authority to do so.
- Where a person issues the statement on behalf of the owner(s) (as the owner's agent), this person must have the appropriate authority from the building owner(s) to undertake this function.
- In the case of a building with multiple owners, one owner may issue the statement, however each of the other owners must authorise the owner who issues the statement to act as their agent.
- The person issuing the statement must not be an APFS who is listed in section 6 or their employer/employee or direct associate. This recognises the different roles and responsibilities for building owner(s) and the APFS in the fire safety statement process. This is important because the Regulation makes building owners responsible for declaring that fire safety measures have been assessed and the building inspected (for the purposes of section 5) by an APFS. This ensures that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.
- In addition, only the building owner(s) can determine that a person is competent to perform the fire safety assessment functions where there is no person who holds accreditation. The building owner(s) are also responsible

Fire Safety Statement

Information to help building owners complete the Fire Safety Statement form

for ensuring that essential fire safety measures are maintained in accordance with clause 182 of the Regulation. An agent cannot be made responsible for these requirements.

Section 8: Annual fire safety statement declaration

- The person completing this section is the person who is issuing the annual fire safety statement in accordance with clause 175 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- In issuing the statement, the building owner or agent is not declaring that each fire safety measure meets the minimum standard of performance, but rather that each fire safety measure has been assessed, and was found by an APFS to be capable of performing to that standard, as listed in section 4. In performing this function, the building owner or owner's agent could obtain documentation from each APFS to verify that the standard of performance has been met, prior to completing the form and issuing the statement.
- The person who issues the statement by completing section 8 or section 9 of the form must not be an APFS who was involved in the assessment of any of the fire safety measures, or inspection of the building for the purposes of the statement, or their employer/employee or direct associate. This is to ensure that building owners, who are ultimately responsible, remain engaged in the fire safety statement process.

Section 9: Supplementary fire safety declaration

- The person completing this section is the person who is issuing the supplementary fire safety statement in accordance with clause 178 of the Regulation and is the same person as detailed in section 7. The person issuing the statement must identify if they are the owner or the owner's agent.
- The information provided above in relation to section 8 on what the owner is declaring also applies to a supplementary fire safety statement.
