NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023

1 Statement of Significant Accounting Policies

The trustee of the fund is A & J Guardians Pty Ltd (A.B.N.:).

The trustees have prepared the financial statements on the basis that the fund is a non-reporting entity because the members are able to command the preparation of tailored financial reports so as to satisfy specifically all of their needs and there are no other users dependent on the financial statements. The financial statements are therefore special purpose financial statements that have been prepared with reference to Australian Accounting Standard AAS 25 Financial Reporting by Superannuation Plans, and in accordance with the legislative requirements of the Superannuation Industry (Supervision) Act 1993 and Regulations 1994 and the provisions of the Trust Deed.

Basis of Preparation

The financial statements have been prepared on an accrual basis using historical costs convention unless stated otherwise.

The functional and presentation currency of the fund is Australian dollars.

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the requirements of Trust Deed. Such accounting policies are consistent with the previous period unless stated otherwise.

ABN 45 756 367 508

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023

(a) Measurement of Investments

Investments of the fund have been measured at net market values after allowing for costs of realisation. Changes in the net market value of assets are brought to account in the operating statement in the periods in which they occur.

Net market values have been determined as follows:

- shares and other securities listed on the Australian Securities Exchange by reference to the relevant market quotations at the end of the reporting period;
- units in managed funds by reference to the unit redemption price at the end of the reporting period;
- fixed interest securities by reference to the redemption price at the end of the reporting period; and
- insurance policies by reference to an actuarial assessment of the amount receivable from the insurer in respect of the policy; and
- investment properties are carried at market value and are held for the purpose of generating long term rental yields and capital appreciation. The Trustees give consideration to the value of the investment property each financial year and revalue when a significant event occurs or when deemed appropriate. Where an external valuation has been obtained, the valuation is based on objective and supportable data and has been carried out by a property valuation service provider or qualified independent valuer as appropriate.

(b) Liability for Members' Accrued Benefits

The liability for accrued benefits represent the fund's present obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the sundry liabilities and income tax liabilities as at the end of the reporting period.

(c) Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (or recovered from) the relevant taxation authority.

Deferred income tax expense reflects the movements in deferred tax liability balances during the year as well as unused tax losses.

KMW SUPERANNUATION FUND
ABN 45 756 367 508

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled, based on tax rates enacted or substantially enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

(d) Superannuation Contributions Surcharge

The superannuation fund recognising the superannuation contributions surcharge as an expense at the time of receipt of an assessment from the Australian Taxation Office. The cost of the surcharge is charged to the relevant members' account.

(e) Cash and Cash Equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Receivables

After initial recognition these are measured at amortised cost using the effective interest method, less provision for impairment. Any change in their value is recognised in profit or loss.

(g) Revenue

Interest revenue

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend revenue

Dividend revenue is recognised when the fund has established that it has a right to receive a dividend.

Investment property revenue is recognised on a straight line basis over a period of the lease term so as to reflect a constant periodic rate of return on the net investment.

**KMW SUPERANNUATION FUND
ABN 45 756 367 508**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

Movement in the net market value

Movement in the net market values of investments is calculated as the change in the fair value of the investment between the previous and current reporting dates (or disposal date).

Distribution revenue

Trust distributions are recognised when the right to receive the payment is established.

(h) Contributions

Contributions are recognised when control of the asset has been obtained and is recorded in the period to which they relate.

(i) Payables

Trade and other payables are measured at amortised cost using the effective interest rate method.

(j) Critical estimates and judgements

The preparation of financial statements requires the trustees to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The significant judgements made are around the valuation of the investment property. The Trustees used recent sales and knowledge of the market to estimate the fair value.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

01/07/22 to 30/06/23	7.5	7.5

The compound average rate of return for the past five years is 6.13%.

Crediting Policy

The crediting rate applied to your contributions in any one year assumes that contributions are paid evenly over the year. For members exiting the fund during a year an interim crediting rate is used. The interim crediting rate is an estimate of what the return for the year will be. The interim crediting rate is, however, subject to variation throughout a year.

Reserving Policy

The policy of the trustee is not to hold investment reserves in the fund, but to apply the actual investment return for the year as the crediting rate.

Superannuation complaints tribunal

For any complaint/enquiry that is unable to be resolved to your satisfaction, the Government has established the Superannuation Complaints Tribunal. This tribunal is located in Melbourne at:

Superannuation Complaints Tribunal
Locked Bag 3060
GPO MELBOURNE 3001
Telephone: 1300 884 114
Fax: (03) 8663 5588
Email: info@sct.gov.au
Website: www.sct.gov.au

The tribunal is intended to be informal and easy to use. It will provide for fair, economical and quick conciliation or review of complaints. Complaints may be submitted by both current or former members or their beneficiaries, and will largely be dealt with by correspondence.

The tribunal can deal with any complaint which related to a decision, or a failure to make a decision by a trustee, or a person acting for a trustee, in relation to a particular individual.

The tribunal will not deal with complaints about the management of a fund generally, or investment strategy.

Further information on the function of the tribunal can be obtained by contacting the tribunal direct.
