1 Contribution Risks

All Contributions were allocated to the appropriate member(s) and agreed to employers contributions received and individual tax returns

Confirmed member contributions were received by the fund (see attached) and compared to the member's individual tax return to ensure the correct amount have been claimed as deduction.

2 Other Income Risks

A random sample was selected (see attached chess statements) and were confirmed to share registry records. From the sample selected it was reasonable to suggest that all incomes are reported and are at correct amounts

3 Expenditure Risks

A sample was selected (see attached) and vouched to source documents. From the sample selected it is reasonable to suggest that all expenditures incurred were related to S/F and were correctly reported

4 Benefits Payments Risks

See Attached Member's Benefits Calculation Statement. Reviewed calculations were reasonable and in accordance with current requirements

5 Investments and Other Assets Risks

A sample was selected and vouched to bank statements, chess statements and portfolio valuations. From the selected sample, it was reasonable that investments and other assets were held in the super fund's name (See Attached Chess Statements)

From the sample selected, market values agreed with those published in AFR and were appropriately reported in the accounts

6 Liabilities and Members Benefits Risks

All investments are shares and cash and therefore the only reasonable risk of unrecorded liability is tax which was brought to balance sheet

The accounting cost is the original cost base adjusted by any subsequent capital call/improvement or capital return transactions. In many cases, it is not the same as the adjusted or reduced cost base, or the reset cost base resulting from the CGT relief. To view the tax cost base and unrealised gain/(loss) for tax purposes refer to the Unrealised Capital Gains Report or change the report parameter to tax cost base.

Section 2: Attribution Managed Investment Trust (AMIT) - Changes to report format

Attribution Managed Investment Trust (AMIT) - Report fields

The following information has been prepared to assist you in interpreting the AMIT related fields on your Investment Income Received (Annual Tax) report for 2023.

The AMIT related fields are labelled as follows:

- AMIT CBA AMIT Cost Base Net Adjustment
- AMIT CGU AMIT CGT Gross Up Amount
- Other Non Taxable Non-Taxable/Non-Assessable Amounts

Please see below for an explanation of the new components.

Clients are strongly advised to obtain professional advice in regards to the tax treatment of the cost base adjustments, CGT Gross Up amounts and non-assessable/non-taxable amounts.

Please refer to the companies' websites and their FY2023 Tax Return Guides for further information.

AMIT Cost Base Net Adjustment

An attribution managed investment trust (AMIT) can make non-assessable payments to unit holders, which can affect the cost base or reduced cost base of your holding. If you receive non-assessable payments from an AMIT, the cost base and reduced cost base of your units may need to be adjusted upward or downward:

- A cost base reduction occurs when the actual payments received (or which you have a right to receive) from the AMIT (including any tax offsets) are greater than the amounts attributed to you by the AMIT (to be included in your assessable income).
- A cost base increase occurs when the amounts that have been attributed to you
 by the AMIT (to be included in your assessable income) are greater than the
 actual payments received (or which you have a right to receive).

The reduction and the increase amounts are netted off against each other to arrive at your 'cost base net adjustment amount', which is then applied to your asset cost base.

Note that these adjustments are automatically applied to your cost bases on the PARS platform, and are reflected in your 'Reduced Cost Base' on both the Unrealised Capital Gains and Realised Capital gains reports.

This value is provided in your Investment Income Received (Annual Tax) report under the "AMIT CBA" heading.

AMIT CGT Gross Up Amount

The AMIT CGT Gross Up amount is used to reconcile the total current year capital gains amount to be included on your tax return. AMIT CGT Gross Up amounts are generally present when the total current year capital gains attributed to you are not paid or are only partially paid. This amount is included in the AMIT cost base increase.

This value is provided in your Investment Income Received (Annual Tax) report under the "AMIT CGU" heading.

When completing Tax Return Label 18H (Total Current Year Capital Gains), the amounts provided under the following Investment Income Received (Annual Tax) report headings should be added:

- Discount Capital Gain
- Capital Gain Other
- CGT Concession
- AMIT CGU

Non-Taxable/Non-Assessable Amounts

These values consist of other non-attributable amounts, net exempt income and non-assessable non-exempt income that have been distributed to you. This may include the amounts previously known as tax-free amounts and tax deferred amounts (including returns of capital).

Non-assessable amounts are not assessable for income tax purposes, and are reflected in the AMIT cost base net adjustment amount.

For the purposes of these annual tax reports, the other non-attributable amounts represent the difference between cash distributions and other entitlements from an AMIT

For information purposes we have included the treatment(s) that have been used to reflect mainstream corporate activity within the financial year ending 30 June 2023. Please note that this may not be applicable to your investments. If these corporate activities do not apply to you please disregard this Appendix.

to the amount of attribution income. These amounts may be a positive number or a negative number. To reconcile the actual payments received with the total reportable tax attribution value, the amounts provided under the following Investment Income Received (Annual Tax) report headings should be added:

- Gross Income
- Other Non Taxable

CGT event E10

Where a cost base reduction amount exceeds a cost base increase amount, the resulting cost base net adjustment amount reduces an asset's cost base or reduced cost base. If the net amount is greater than the cost base, it will reduce the cost base to nil, and any remaining excess will give rise to a capital gain as a result of CGT event E10.

Where the cost base increase amount exceeds the cost base reduction amount, the resulting cost base net adjustment amount increases your asset's cost base and reduced cost base. This will not trigger a CGT event; however, it may result in a reduced capital gain or increased capital loss in the future if you dispose of your CGT asset.

NCMI Components

'NCMI' tax components relate to income from a trust that is a Managed Investment Trust (MIT) that is classified as 'Non-Concessional MIT income" (NCMI). 'Excluded from NCMI' amounts are payments that would be NCMI payments were not for the application of transitional arrangements.

NCMI payments are subject to a withholding tax rate of 30% when paid to a non-resident. Standard withholding tax rates (those applicable after taking into account the investors country of residence) apply to these 'Excluded from NCMI' amounts.

In most instances, NCMI tax components are irrelevant to resident taxpayers. For this reason, NCMI payments, and excluded from NCMI payments, are added together and included under the 'Other Income' report field.

Section 3: General Taxation Treatment of Corporate Actions

i) New shares issued under Rights and Security/Share Purchase Plans

New Shares will be treated for the purposes of the capital gains tax (CGT) discount as having been acquired when the Eligible Shareholder exercised the Entitlement to subscribe for them. Accordingly, in order to benefit from the CGT discount in respect of a disposal of those Shares, they must have been held for at least 12 months after the date of exercise before the disposal occurs.

ii) Treatment of dividends

Dividends are taxable on the payment date. It is this date that will determine in which income year you include the dividend in your assessable income. Where the dividend is paid by cheque, it is deemed to have been paid to you on the date the cheque was posted and not on the date the cheque was received, banked or cleared.

iii) Treatment of distributions from trusts and managed funds

Distributions from trusts and managed funds are taxable on the date in which you become entitled to the distribution. This is usually the "ex-date". You should use the ex-date to determine which income year the distribution components are to be included in your assessable income. Some stapled securities pay both dividends and distributions. In this case we have split the income in our reports. The dividend component will generally be taxable in the year in which it is paid and the distribution component will generally be taxable in the year in which the security holder is entitled to receive the distribution.

For the purpose of our reports foreign dividends, foreign interest, passive foreign income and other foreign income have all been entered under the heading "Foreign Income". Any associated tax offsets have been entered under the heading "Foreign Tax Credits".

iv) Treatment of tax deferred amounts from trusts and managed funds

Tax deferred payments from trusts or managed funds do not contribute to assessable income. We have accounted for tax deferred amounts by adjusting the cost base or reduced cost base of your units for the tax deferred component of distributions you have received. If the tax deferred amount is greater than the cost base of your units, you need to include the excess as a capital gain.

For information purposes we have included the treatment(s) that have been used to reflect mainstream corporate activity within the financial year ending 30 June 2023. Please note that this may not be applicable to your investments. If these corporate activities do not apply to you please disregard this Appendix.

v) Treatment of Returns of Capital

Return of capital amounts are generally not treated as assessable income. We have accounted for Return of Capital amounts by adjusting the cost base or reduced cost base of your shares or units for the Return of Capital amounts received. If the Return of Capital amount is greater than the cost base of your units, you need to include the excess as a capital gain.

vi) Retail premiums paid to shareholders where entitlements are not taken up or are not available.

The Australian Taxation Office ("ATO") has issued Taxation Ruling TR 2017/4 dealing with taxation of rights granted, and retail premiums paid, to retail shareholders in connection with renounceable rights offers. The ruling is applicable where a shareholder was offered share entitlements which were not taken up and which expired, or when a shareholder was not offered share entitlements, and a retail premium was paid in respect of entitlements sold in the retail bookbuild process.

We have treated the retail premiums paid to shareholders for unexercised security entitlements as capital proceeds, in line with Part A of the ruling. These capital proceeds are eligible for the CGT discount where the eligible shareholders original shares have been held for 12 months or more.

However, shareholders who received a retail premium as described above should seek their own tax advice on the Australian taxation treatment of the retail premium in their income tax returns.

vii) Treatment of CGT rollover on Schemes of Arrangement

The methodology used in apportioning cost bases in schemes and takeovers where CGT rollover has been assumed is the relative value method. The values used in the relative value method are company or ATO provided values when available. If no value or price has been published the volume weighted average price (VWAP) of the securities traded on the ASX on the implementation date is used as a reasonable estimate.

viii) Treatment of Bonus Share Plans

Bonus shares issued under Bonus Share Plans have not been treated as income and not subject to imputation. Such ordinary shares are regarded as having been acquired at the same time as the existing holding for no extra cost and the cost of the existing holding then becomes the cost of the aggregate of the existing holding and the new ordinary shares. Shareholders are advised to seek independent tax advice to determine the potential impact of the bonus share plans.

ix) Managed Funds - AET and HUB Platform Holdings

Components reported may be different based on each custodian's method of calculating the underlying components associated with each investment and the methodology used by them to reconcile to the Fund Manager Statements issued for their particular holding.

For information purposes we have included the treatment(s) that have been used to reflect mainstream corporate activity within the financial year ending 30 June 2023. Please note that this may not be applicable to your investments. If these corporate activities do not apply to you please disregard this Appendix.

Section 4: Additional Information

31 December 2022 Financial Year End

Where an entity has a Financial Year End 31 December 2022, your 2023 Annual Tax Report will include the distributions that fall within the calendar year ended 31 December 2022.

Non-Residents of Australia for Tax Purposes

The Australian Federal Government enacted a Non-Resident Withholding Tax regime also referred to as 12H Withholding tax. Foreign investors receiving distributions as "Other Income" may be able to claim a credit for the amount of tax withheld when they lodge an Australian income tax return in respect of their final tax liability. Please contact our office if you would like further information as to whether this may be applicable for you.

This information does not take into account your overall individual taxation circumstances and has been provided to assist you in completing your tax obligations. It is not advice. To determine whether this is applicable to you, please contact your financial accountant or tax adviser.

Listed Investment Company Capital Gain Information

If you received a distribution as a Listed Investment Company ("LIC") Capital Gain, are an Australian resident (except complying Superannuation entity) or resident partnership for taxation purposes, you may be entitled to a deduction which you may be able to claim in your tax return.

This information does not take into account your overall individual taxation circumstances and has been provided to assist you in completing your tax obligations. It is not advice. To determine whether this is applicable to you, please contact your accountant or tax adviser.

Exploration Development Incentive Credits (EDI Credits)

The Exploration Development Incentive Credits have been entered as Franking Credits. The correct tax treatment will however be dependent on the type of entity the shares have been registered under. Shareholders are strongly advised to obtain professional advice on the taxation of these credits. For further information, please refer to the ATO guide.

Bonds

Bond transactions are not captured in the realised CGT report and are captured in the Transaction Statement. Please refer to the Bond transactions contained in this report to calculate any realised positions.

If you require further transaction information for Bond purchases recorded outside of the current financial year, please contact your Adviser.

For information purposes we have included the treatment(s) that have been used to reflect mainstream corporate activity within the financial year ending 30 June 2023. Please note that this may not be applicable to your investments. If these corporate activities do not apply to you please disregard this Appendix.

Section 5: Issuer Annual Tax Statements Yet to Be Received at 30th September 2023

Annual Tax Statement

TRIPLE STAPLED SECURITIES - DISTRIBUTIONS

Australian resident individual investors should use the below Tax Statement to assist in completing their 2023 Income Tax Return. This Annual Tax Statement should be read in conjunction with the Transurban Tax Statement Guide, available on the Transurban website at www.transurban.com/investor-centre/distributions-and-tax/tax-guides. If an investor has a tax year ending on a date other than 30 June, they should seek advice from their tax adviser.

Transurban Holding Trust ("THT") is an Attribution Managed Investment Trust ("AMIT") for the year ended 30 June 2023. It is required to provide you with an AMIT Member Annual ("AMMA") Statement. This Annual Tax Statement is also your AMMA Statement in respect of your security holding in THT during the year ended 30 June 2023. This AMMA Statement also provides a reasonable estimate of the AMIT cost base net amount for the year ended 30 June 2023.

This Annual Tax Statement and accompanying notes are not intended to be tax advice and investors should consult a professional tax adviser if necessary for completion of income tax returns.

Tax Guide

The Annual Tax Guide contains general information about how to use this statement when you prepare your 2023 Tax Return. Where there are foreign capital gains and foreign tax paid on these gains, a calculation of Australian capital gains in respect of foreign CGT assets must be performed. The Betashares 2023 Tax Guide provides additional information on how to perform these calculations as well as how to claim the correct Foreign Income Tax Offset. Appendix 2 - Detailed Results

Tax Exempt Percentage

This actuarial certificate has been prepared to provide the tax exempt percentage applying to DA & RJ Harricks Superannuation Fund for the 2022/23 financial year.

During the 2022/23 financial year, the Fund contained only member accounts in accumulation phase and account based pensions. Therefore no assumptions about future inflation, investment returns or discount rates have been required to calculate the tax exempt percentage. Only data regarding the Fund's balances in accumulation phase and the Fund's balances in retirement phase plus details of transactions within, to and from the Fund during the year have been provided for this calculation.

Using the data supplied, we have calculated the tax exempt percentage based on the ratio below:

<u>Average value of current pension liabilities</u> Average value of superannuation liabilities

= \$1,678,843 / \$3,251,518

= 51.63%

The values for the current pension liabilities and the superannuation liabilities shown above are time weighted average balances over the financial year. Segregated current pension assets and segregated non-current assets (if any) have been excluded from the values shown above.

Member Breakdown

To assist you, we have also calculated the breakdown of the tax exempt percentage between the Fund's members, as follows:

| Member Name | Tax Exempt Percentage | Taxable Percentage |
|----------------|-----------------------|--------------------|
| Robin Harricks | 51.63% | 48.37% |
| | | |
| | | |
| | | |
| Reserve | 0.00% | 0.00% |
| Total | 51.63% | 48.37% |

This breakdown between members is not required for the Fund's tax return, but may assist in other ways, for example with allocating the Fund's tax liabilities between members.

Actuarial Standards

This actuarial certificate has been prepared in accordance with Professional Standard 406 of the Institute of Actuaries of Australia.

Other Comments

We have been informed by the trustee and/or their advisors that the relevant pension liabilities meet the requirements to be considered a retirement phase superannuation income stream. We have relied upon this information in preparing this actuarial certificate.

As required under Professional Standard 406, we are satisfied that the value of particular liabilities of the Fund at a particular time as set out in this certificate is the amount of the Fund's assets, together with any future contributions in respect of the benefits concerned and expected earnings on the assets and contributions after that time, that would provide the amount required to discharge those liabilities as they fall due.

We also document the following information items provided to us, and upon which we have relied, when preparing this certificate:

| Item | Information Provided |
|---|----------------------|
| Does the Fund meet the definition of Disregarded Small Fund Assets for the tax year covered by this certificate? | Yes |
| Have the trustee(s) chosen (if eligible) to treat all of the assets of the fund as not being segregated current pension assets for the whole of the tax year covered by this certificate? | N/A |

Requirement for and Use of Actuarial Certification

This actuarial certificate is required so that the Fund can claim an exemption from tax on the investment income derived from the unsegregated assets supporting members' balances that are in retirement phase. The certificate should be obtained before the Fund submits its tax return. It does not need to be submitted with the Fund's tax return, but should be retained in the Fund's records.

An actuarial certificate is required for a Fund that has been partly in retirement phase and partly in accumulation phase during the year and which is not applying the segregated method throughout the year. Therefore an actuarial certificate is not required if:

- The Fund was entirely in accumulation phase for the whole of the tax year; or
- The Fund was entirely in retirement phase for the whole of the tax year; or
- The Fund's retirement phase assets and accumulation phase assets were fully segregated throughout the tax year.

The tax exempt percentage should be applied to the Fund's assessable income (excluding any non-arm's length income, concessional contributions and any income derived from segregated assets) to determine how much income is exempt from tax.

1 Contributions

Did the Super Fund receive any contributions during the financial year?

No

For contributions received during the financial year, confirmed that contributions were received and allocated correctly to members' account and that where conditions of acceptance are not met, contributions have been rejected within allowed timeframe.

Where applicable, ensure s290-170 deduction notices are dated prior to commencement of pension (e.g. if there are deducted contributions made during the year and those contributions are rolled into a pension that same financial year, the contribution notices must be dated before the commencement date of the pension)

Ensure the trust deed allows for contribution splitting

Ensure spouse meet conditions for splitting, either:

- less than their preservation age **or**
- between preservation age and 65 years and not retired

Ensure contributions splitting application is completed correctly prior to processing

Check amounts are consistent with prior year and ensure benefit paid and rollover statements are attached to workpapers

6 Recontribution Strategy

Have you considered a re-contribution strategy for members of this fund?

- * Work-test requirement for members aged 67 or over for Non-concessional contributions
- * Members currently receiving transition to retirement pension need to consider cost and benefits of this strategy
- * Tax-free and taxable components (less attractive if current tax-free component is already high)

Objective To ensure benefits paid were in accordance with condition of release of the trust deed and stated correctly

Benefits Paid

1 Documentation of conditions of release were obtained and agreed to trust deed and SIS Act/Regulations.

Prior year member statements were reviewed and benefit payments were found to be reasonable.

Confirmed benefit paid with exited member (if applicable).

Confirmed minimum pension standards were met.

Pensions commenced during the financial year

Confirmed accounts were drawn up correctly up to commencement date for a new account based pension.

Commencement of account based pension was documented in the minutes of the fund (including reversionary beneficiary where applicable).

PAYG withholding was registered correctly and correct amounts were withheld taking into account tax free amounts and tax offsets (pension member under 60 years).

For transition to retirement pension, ensure that maximum pension amount is 10% only.

(need to register for PAYG withholding if member has been paid a pension prior to turning 60).

2 Reviewed accounts and there were no transfers out during the year.
