Note 1: Some tax deferred, return of capital, and AMIT cost base decrease components of distributions shown as non-assessable income may have been reclassified as realised capital gains for tax purposes, if they have given rise to a capital gains event. Details are in 06 Gain/Loss Schedule.

Note 2: AMIT cost base decrease is displayed as a positive AMIT Cost Base Adjustment and is added to obtain the Total Amount. AMIT cost base increase is displayed as a negative AMIT Cost Base Adjustment and is subtracted to obtain the Total Amount. Cost base adjustments adjust the cost base for tax purposes.

## 04 Distributions Schedule

Note 3: This component is included for information purposes only. It is not included directly in the determination of the cash amount but is used to calculate the AMIT cost base adjustment, which represents the overall difference between the attributable and the cash components.

Note 4: NCM capital gains and excluded from NCM capital gains are included in these amounts. If these components have been received, details will appear in Additional Information for Non-residents - NCM Components Detail in Schedule 8.

\*NOTE: The Holding Period Rule uses a 45 day holding period for managed funds and general listed securities, and applies a 90 day holding period for preference shares. The franking credits lost relate to securities entitled to dividends/distributions with franking credits, when the securities may have been sold within 45 (or 90) days of the date of purchase. The Div/Dist Amount is the part of the dividend/distribution associated with the (potentially) lost franking credits. This report excludes analysis of any buy/sell transactions occurring external to the Service i.e. just prior to being in specie transferred into or out of the Service.

Note 2: Details of capital gains arising from Trust Distributions are found in 04 Distributions Schedule. The total sum of "Capital Gains Other (TARP)" and "Capital Gains Other (NTARP)" is the amount shown under the "Capital Gains - Other" row. The total sum of "Capital Gains Index (TARP)" and "Capital Gains Index (NTARP)" is the amount shown under the "Capital Gains - Index" row. The "Capital gains - eligible for discount" row shows the sum of "Capital Gains Discount (TARP)" and "Capital Gains Discount (NTARP)" grossed up by the discount (as advised by the trust manager in the case of AMIT funds). Any Foreign Tax Offset (capital gains) are also included.

Note 1: The calculation of the Cost Base, Reduced Cost Base and Indexed Cost Base for parcels belonging in holdings outside the Service/Fund, and for parcels that were held prior to the introduction of the Service/Fund, have been based on data records supplied by investors or their advisers. Cost base is the cost base for tax purposes.

Note 2: Tax Date represents the effective date for the purpose of calculating the cost base for the parcel and any subsequent determination of capital gains for tax purposes. Generally, this is also the parcel's acquisition date.

Note 3: The Capital Gains under the discount method have been calculated prior to the application of the discount.

Note 4: Indexation of cost bases applies to assets acquired prior to 21 September 1999 and was 'frozen' on 30 September 1999 (i.e. no further indexation of the asset's cost base applies after that date). When a particular parcel of a security is eligible for indexation gains, it is shown in this column and is determined using the security's indexed cost base. Also shown in this column are capital gains that are not eligible for the CGT Discount due to the asset being held less than 12 months.

Note 5: The Total Gain for any parcel has been determined using the method that results in the optimal result (according to the criteria specified by the investor or his/her adviser) for that parcel considered in isolation. The Total Gain is the sum of Gross Gain - Discount and Gross Gain - Other, with Gross Gain - Other being used when the parcel has been held for less than a year or when frozen indexation applies.

Note 6: Some tax deferred, return of capital and AMIT cost base decrease components of distributions shown as non-assessable income may have been reclassified as realised capital gains for tax purposes, if they have given rise to a capital gains event. Where this has occurred, no units have been sold, so the quantity shown under the Units column will be 0 and the Security Sale Date represents the CGT Event date of the relevant distribution.

Note 7: In addition to the classifications of capital gains based on the method of calculation, new classifications have been introduced that are relevant for non-resident investors only, including "NCMI capital gains" and "Excluded from NCMI capital gains". Note 1: The calculation of the Cost Base, Reduced Cost Base and Indexed Cost Base for parcels belonging in holdings outside the Service/Fund, and for parcels that were held prior to the introduction of the Service/Fund, have been based on data records supplied by investors or their advisers. Cost base is the cost base for tax purposes.

Note 2: Tax Date represents the effective date for the purpose of calculating the cost base for the parcel and any subsequent determination of capital gains for tax purposes. Generally, this is also the parcel's acquisition date.

Note 3: The Capital Gains under the discount method have been calculated prior to the application of the discount.

Note 4: Indexation of cost bases applies to assets acquired prior to 21 September 1999 and was 'frozen' on 30 September 1999 (i.e. no further indexation of the asset's cost base applies after that date). When a particular parcel of a security is eligible for indexation gains, it is shown in this column and is determined using the security's indexed cost base. Also shown in this column are capital gains that are not eligible for the CGT Discount due to the asset being held less than 12 months.

Note 5: The Total Gain for any parcel has been determined using the method that results in the optimal result (according to the criteria specified by the investor or his/her adviser) for that parcel considered in isolation. The Total Gain is the sum of Gross Gain - Discount and Gross Gain - Other, with Gross Gain - Other being used when the parcel has been held for less than a year or when frozen indexation applies.

Note 6: Indexed Cost Base is calculated only for parcels purchased prior to 11 September 1999. For all other parcels the Indexed Cost Base is not applicable and it is not taken into account for the calculation of any capital gains or losses.

Note 7: In addition to the classifications of capital gains based on the method of calculation, new classifications have been introduced that are relevant for non-resident investors only, including "NCMI capital gains" and "Excluded from NCMI capital gains". These amounts are included in those shown in this schedule, but the new classifications are not shown. Please refer to the Tax Guide for additional information.

Note 1: Income received during the tax year ended 30 June 2022 but included in your 30 June 2021 tax statement.

Note 2: Income received during the tax year ended 30 June 2023 but included in your 30 June 2022 tax statement.

Note 3: Total cash distribution taxable in financial year.

Note 4: The total assessable income amount for Capital Gains Schedule includes a capital gains gross up for discounted capital gains. In the case of non-AMIT funds the amount actually paid is identified as the 'concessional component' which is reported as a non-assessable amount.
