Top tips for keeping your online and mobile banking safe

Protecting your data and money is our top priority, so with scams and fraud on the rise, we've put together a simple checklist to help keep you safe online.

Check out our top tips below:

- ✓ Make sure your PINs and passwords are hard to guess and change them regularly. You can change them in online banking or our app. Alternatively, you can set up Face ID.
- ✓ Set up notifications in online and mobile banking – that way you'll know what's happening with your account(s) in real time. If you need help, visit www.greatsouthernbank.com.au/security
- ✓ Set up security questions in online banking.
- ✓ Set up a PayID to use instead of a BSB and Acct number. Using PayID means that anyone can deposit into your account using just your mobile number or email address. To find out more, visit www.greatsouthernbank.com.au/pay-id
- ✓ Always log out from your online banking session when you've finished and remember to close your browser.

More helpful tips to remember...

- Don't click on any links in an email or SMS sent from someone you don't know. If in doubt, type the URL straight into your browser.
- Remember, we will never send you a link to log in to online banking.
- When making a payment or shopping online, make sure the website address starts with 'https://', which indicates a secure online shopping environment.
- Check your phone's settings are up to date and review privacy permissions.
