You must only claim for entitlements for which you believe you are the legal owner.

If you are claiming for **multiple amounts**, you are required to complete the application process **only once** for a single

entitlement. This will enable you to print a completed application form to which **you must attach the following documents:**

- A cover letter listing all reference IDs and the corresponding amounts for each entitlement, **and**
- All required documents to support each entitlement claim

For entitlements held in joint names, a single application form must be signed by all owners and accompanied by the required supporting documents.
