There's an easier way to make payments!

Creating a PayID means having to disclose your BSB and account details to receive money is a thing of the past. And you can do it all within Internet Banking or the People's Choice App.

What's a PayID?

You can assign more common information to your account, such as a mobile number or email address and use that to receive payments.

Your mobile or email address then becomes your PayID, so when someone asks you for your details to pay you back for dinner or the movies, all you have to do is tell them your PayID.

Benefits of a PayID:

- No need to look up your BSB and account details every time someone asks to pay you.
- The PayID is verified before you send or receive a payment, so you always know if you're paying the right person.
- As well as using your PayID to receive money, you can use others' PayIDs to send them payments.

In Internet Banking click '**Accounts**' in the main menu, then '**Manage PayIDs**' and '**Register**' to create yours. '**Manage PayID**' is also located in the People's Choice App menu.
