# About your water and sewerage charges

## The standard charges explained:

### Sewerage access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's sewerage transportation and treatment system.

### Sewage volume charge (multi-unit residential and non-residential property only)

A volumetric charge per kilolitre of sewage deemed to have been discharged from the property into the City's sewerage transportation and treatment system.

### Water access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's water distribution system.

### Water usage charge

Water usage, as measured by your water meter, is charged per kilolitre (1000 litres). Water usage is divided into retail water and bulk water charges. If access to read your water meter was not available, water usage may have been estimated for this account based on previous use. This will be indicated on your account.

### Non-drinking water usage charge (select Pimpama-Coomera customers only)

This is a charge applicable to select Pimpama-Coomera customers only or non-drinking water usage, as measured by your purple non-drinking water meter and charged per kilolitre (1000 litres).

Visit [cityofgoldcoast.com.au/nondrinkingwater](http://cityofgoldcoast.com.au/nondrinkingwater) for further information. Visit [cityofgoldcoast.com.au/mywaterbill](http://cityofgoldcoast.com.au/mywaterbill) to understand more about your water bill.

## How to read your water meter

Your water meter is normally located at the front of your property.

**Black numbers represent kilolitres and are used for billing.**

The red numbers on your water meter represent litres. To calculate your daily water use, please follow the instructions below.

Numbers only meter

Numbers and clock meter

- 1 Day one, record all numbers that you see here. Note the time of day.
- 2 Day two, repeat step 1. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Please note, if there are four red digits on the water meter, the last digit (on the far right) is a tenth of a litre. In these instances, do not record the last red digit.

**or**

- 1 Day one, record all numbers that you see here. Secondly, record numbers found here. Record the first three red dial numbers in a clockwise direction, that is, right to left. Note the time of day. Both steps should provide you with a number similar to the diagram example 00030509.
- 2 Day two, repeat step one. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

**Day one:** Record numbers from your water meter as per instructions above.

**Day two:** At the same time as day one, record numbers from your water meter as per instructions above.

\_\_\_\_ L      \_\_\_\_\_ L  
Subtract the number found on day one from the number found on day two.

**This is your household's daily water usage.**

## Frequently asked questions

### How is recycled water used?

Recycled water is a sustainable, climate-resilient option and can reduce organisational water costs. It is approved for specific non-drinking uses such as golf courses, sporting fields, nurseries and public parkland irrigation, as well as dust suppression on construction and development sites. A citywide expansion of the recycled water network is underway to provide a fit for purpose supply to more businesses and industry customers.

[cityofgoldcoast.com.au/recycledwater](http://cityofgoldcoast.com.au/recycledwater)

### Can batteries and oil go into my wheelie bins?

Batteries (of any type) and oils (cooking or motor oil) should never be put into your household bins. When compressed they cause environmental spills or sparks that may start a fire in waste trucks, which is a danger to the community.

Rechargeable and lithium ion batteries and those in laptops, mobile phones, power tools and cameras should be disposed of responsibly. Our Waste and Recycling Centres accept batteries and oils, free of charge.

[cityofgoldcoast.com.au/waste](http://cityofgoldcoast.com.au/waste)

### How do I stabilise home water pressure?

Homes built before 2003 may not have a Pressure Reduction Valve (PRV) installed as part of the property's plumbing. Properties built from 2003 require a PRV to be installed, enabling pre-set pressure to be transferred from our water network to your private plumbing. This assists in preventing water leaks in aging plumbing. A PRV can be installed by a licensed plumber.

**Average Daily Usage (Litres)**

(1,000 Litres = 1kL)

**Your Scheme's average daily water usage = 11638 litres (or 11.638 kL)**  
**Your total average daily cost = \$3.17**

The property's water usage may be influenced by a number of factors including number of occupants, property type, property size and own water use behaviours. If you're concerned about your usage, visit [cityofgoldcoast.com.au/waterleaks](http://cityofgoldcoast.com.au/waterleaks) for instructions on how to check for concealed leaks.

In accordance with the *Local Government Act 2009*, *Local Government Regulation 2012*, *South East Queensland Water (Distribution and Retail Restructuring) Act 2009*, *Water and Wastewater Services Code for small customers in South East Queensland* and Council of the City of Gold Coast's (Council) adopted budget resolutions, all water and sewerage charges are due and payable within 31 days of the issue of the water and sewerage rate notice on which the charges are levied. Any overdue amounts will attract penalty interest at the appropriate rate until either full payment (including the interest) is made or a satisfactory payment arrangement is approved by Council.

## How to pay your water bill

### Direct Debit

## Let's save water together

Did you know our water supply can be moved around South East Queensland to where it is needed most?

We can all help to sustain supply and reduce household water use by making some simple changes to our behaviour - like checking for water leaks around your property, taking a shorter shower or adopting waterwise gardening practices.

**Everyone and every drop counts.**

For more hints on saving water visit [cityofgoldcoast.com.au/mywater](http://cityofgoldcoast.com.au/mywater)
