About your water and sewerage charges

The standard charges explained:

Sewerage access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's sewerage transportation and treatment system.

Sewage volume charge (multi-unit residential and non-residential property only)

A volumetric charge per kilolitre of sewage deemed to have been discharged from the property into the City's sewerage transportation and treatment system.

Water access charge

This charge is in arrears. It is for ongoing connection and/or access to the City's water distribution system.

Water usage charge

Water usage, as measured by your water meter, is charged per kilolitre (1000 litres). Water usage is divided into retail water and bulk water charges. If access to read your water meter was not available, water usage may have been estimated for this account based on previous use. This will be indicated on your account.

Non-drinking water usage charge (select Pimpama-Coomera customers only)

This is a charge applicable to select Pimpama-Coomera customers only or non-drinking water usage, as measured by your purple non-drinking water meter and charged per kilolitre (1000 litres).

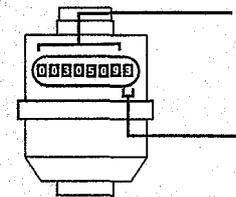

Visit cityofgoldcoast.com.au/nondrinkingwater for further information. Visit cityofgoldcoast.com.au/mywaterbill to understand more about your water bill.

How to read your water meter

Your water meter is normally located at the front of your property.

Black numbers represent kilolitres and are used for billing.

The red numbers on your water meter represent litres. To calculate your daily water use, please follow the instructions below.

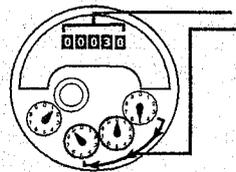

Numbers only meter

- 1 Day one, record all numbers that you see here. Note the time of day.
- 2 Day two, repeat step 1. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Please note, if there are four red digits on the water meter, the last digit (on the far right) is a tenth of a litre. In these instances, do not record the last red digit.

Or

Numbers and clock meter

- 1 Day one, record all numbers that you see here. Secondly, record numbers found here. Record the first three red dial numbers in a clockwise direction, that is, right to left. Note the time of day. **Both steps should provide you with a number similar to the diagram example 00030509.**
- 2 Day two, repeat step one. Conduct this reading at the same time as you did the reading on day one.
- 3 Subtract the numbers recorded on day one from day two. This is your household's daily water usage.

Day one: Record numbers from your water meter as per instructions above.

Day two: At the same time as day one, record numbers from your water meter as per instructions above.

Subtract the number found on day one from the number found on day two.

This is your household's daily water usage.

Frequently asked questions

Can wet wipes and face masks be flushed?

Flushable wet wipes and single-use face masks do not break down like toilet paper and human waste when flushed. They clump together and can block our sewerage network, increasing the risk of sewage overflow at your property, which could leave you with an expensive and unpleasant clean up. Regardless of what the packaging says, always bin your wipes and single-use face masks.

cityofgoldcoast.com.au/pipes

What day will my bin be collected?

The online bin day finder is now available on the new City app (residential properties only), as well as our City website. Simply download the 'City of Gold Coast' app, enter your street name and suburb to find out your collection days for general waste, recycling, and green organics.

Waste collection services operate as usual on public holidays, it's recommended you put your bins out the night before as collection times may differ.

cityofgoldcoast.com.au/mybinday

Where can I charge my electric vehicle?

Electric vehicles are becoming a popular choice as a clean, safe, and cost-effective solution. In January 2021 the Gold Coast was the first location in the world to launch Tritium RTM75 EV 75KW charging stations across locations in Broadbeach, Miami Coolangatta, Southport, Carrara, Bundall, Pimpama, and Nerang.

Simply download the chargefox app, plug in, and start charging.

TOTAL(kL)						1246

Average Daily Usage (Litres)
(1,000 Litres = 1kL)

Your Scheme's average daily water usage = 12215 litres (or 12.215 kL)
Your total average daily cost = \$3.20

The property's water usage may be influenced by a number of factors including number of occupants, property type, property size and own water use behaviours. If you're concerned about your usage, visit cityofgoldcoast.com.au/waterleaks for instructions on how to check for concealed leaks.

AU_1-6_3_005409 / 002705 / 010627 0815470106270200

In accordance with the *Local Government Act 2009, Local Government Regulation 2012, South East Queensland Water (Distribution and Retail Restructuring) Act 2009, Water and Wastewater Services Code for small customers in South East Queensland* and Council of the City of Gold Coast's (Council) adopted budget resolutions, all water and sewerage charges are due and payable within 31 days of the issue of the water and sewerage rate notice on which the charges are levied. Any overdue amounts will attract penalty interest at the appropriate rate until either full payment (including the interest) is made or a satisfactory payment arrangement is approved by Council.

Let's save water together

Did you know our water supply can be moved around South East Queensland to where it is needed most? We can all help to sustain supply and reduce household water use by making some simple changes to our behaviour – like checking for water leaks around your property, taking a shorter shower or adopting waterwise gardening practices.

Whatever the weather, everyone and every drop counts.

For more hints on saving water visit cityofgoldcoast.com.au/mywater
