<sup>1</sup> The closing balance equals the termination value of your investment as at 30 June 2021.

<sup>2</sup> Returns are calculated using redemption prices as at the last business day of the period or, if not available, at the last available price. Returns are not annualised and are net of fees.

<sup>3</sup> Direct fees include incidental fees such as RTGS costs which have been incurred in connection with your investment.

<sup>4</sup> *Indirect costs of your investment*

This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your investment but are not charged directly to you as a fee.

The latest available Indirect Cost Ratio (ICR) is used to calculate these indirect costs. The calculation of these indirect costs is a notional amount only and does not give an accurate estimate of the effect of the indirect costs on each investment. Further, where you have redeemed all of your units for a Fund during the reporting period, the figure for the 'Total indirect costs of your investment', may be calculated using the ICR for the previous reporting period.

<sup>5</sup> This approximate amount includes all the fees and costs which affected your investment during the period.
