Certificate No. 298750.1

The Trustees
Almarg Super Fund

Dear Trustees,

SECTION 295-390 ACTUARIAL CERTIFICATE

This Actuarial Certificate is prepared for Almarg Super Fund for the financial year ending 30 June 2022. It complies with The Institute of Actuaries of Australia Professional Standard 406.

Information I have relied upon

This Actuarial Certificate relies upon information provided to us by OOL Accounts Pty Ltd on behalf of the Trustees of Almarg Super Fund. The key information I have relied upon is shown in Appendix 1.

You have stated that:

- Any assets segregated by election (using separate asset pools) have been removed from the data entered.
- The Fund has met the Minimum Pension Standards. That is, the required minimum amount has been withdrawn from the pension during the financial year.
- The types of pensions in the Fund include Allocated Pensions, Market-linked pensions, Term allocated pensions and Account based pensions. They do not include Defined Benefits pensions.
- The pensions valued meet the requirements to be considered Retirement Superannuation Income Streams under the Income Tax Assessment Act 1997.

My calculations have been based on draft financial statements. If any information provided, as shown in Appendix 1, changes materially then you should revise that information and obtain an updated Actuarial Certificate. If you don't have login details then you can contact Lime Actuarial to obtain your login details. There is no charge for updating your Actuarial Certificate.

Exempt proportion

The fund had unsegregated assets during these periods:

- 1 July 2021 to 30 June 2022

For the remainder of the year (if applicable), all assets were segregated. During the period where there were unsegregated assets, the exempt proportion of assessable income is calculated as follows:

	Start of year	End of year	Average
Unsegregated Retirement Income Stream Liabilities	\$1,975,209	\$1,973,387*	\$1,974,753
Unsegregated Superannuation liabilities^	\$1,976,093	\$1,975,067*	\$1,978,701
Exempt Proportion			99.80%

*Estimate

The estimated net assets at 30 June 2022 were \$1,975,067.

The average liabilities are calculated with regard to all transactions taking place during the period in which there were unsegregated assets.

I certify that **99.80%** of investment income earned by the fund during the year ended 30 June 2022 and relating to unsegregated assets, is exempt from tax. The specific exempt percentages for each member are:

	Tax exempt %	Taxable %
Alan Mcguiness	47.92%	0.09%
Margaret Mcguiness	51.88%	0.11%
Reserves	0.00%	0.00%
Total	99.80%	0.20%

Adequacy

By definition, the value of assets and liabilities of account based income streams must be equal. Therefore I am satisfied that the value of assets at 30 June 2022 is sufficient to meet the fund's liabilities as they fall due.

Yours sincerely,

Greg Einfeld MEd, MBA
Fellow of the Institute of Actuaries of Australia

APPENDIX 3: ASSUMPTIONS

I have assumed that all transactions occur before investment income is earned each day

No assumptions are required to calculate the rate of increase in pension liability and earning rate as by definition, the value of assets and liabilities of account based income streams must be equal.
