I would encourage you to read a copy of our 2023 Interim Report which includes an update from Magellan's CEO and Chief Investment Officer, David George. David joined Magellan in July 2022 and in October 2022, outlined Magellan's five-year growth strategy and priorities for the 2023 financial year. We are making good progress delivering on this strategy with Magellan now set up for the next phase of its evolution following an accelerated period of change last year.

We are very focused on the future and, while there is much work to do, we believe we have strong foundations and a strong balance sheet to support future growth and diversification.

Magellan Financial Group Ltd (“**Magellan**” or “**the Group**”) today announced its financial results for the six months ended 31 December 2022 (**1H23**). The Group reported 1H23 Statutory NPAT of \$83.8 million and Adjusted NPAT of \$98.3 million. The Board has declared an interim dividend of 46.9 cents per share that is 85% franked and will be paid on 8 March 2023.

The Group’s 1H23 financial performance reflects the:

- accelerated changes to the business in 2022;
- reduction in funds under management over the 12 months to 31 December 2022; and
- challenging market conditions with key indices² down, creating headwinds for allocation to equities.

Magellan CEO and Chief Investment Officer David George said: “*Magellan has experienced a period of accelerated and substantial change in recent times. We now have a well-defined and actionable five year strategy which builds upon the qualities that have made us successful, while further diversifying the business to deliver sustainable growth and revenue.*”

“Meaningful transformation takes time. Whilst it is still early days, I can report that we are making good progress in delivering on our FY23 strategic priorities and are encouraged by the improving trends that are emerging. In the last six months we have launched new strategies, refined our plan around staff retention and enhanced our investment process to improve how we collaborate and generate ideas. These are key first steps in delivering on our five-year target of \$100 billion in funds under management by 2027.”

“Magellan remains a business of considerable financial strength. Our strong balance sheet, operating cash flows and profitability provide us with the ability to continue to pay dividends within our policy of 90-95% of Funds Management profit, implement capital management initiatives designed to enhance shareholder value and prudently invest in our business and execute our strategy.”

¹ Adjusted financial measures are adjusted for strategic, non-recurring, non-cash or unrealised items.

² MSCI World NTR Index (\$A) down 12.2% in the 12 months ended 31 December 2022 and the S&P/ASX 200 Accumulation Index down 1.1% in the 12 months ended 31 December 2022.
